JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

The more things you have to do over, the less you have time to work for your real success. Put "Taylor Old Style" on a tin roof once for all.

N. & G. TAYLOR COMPANY
Established 1810
Philadelphia

"Rufus the Roofer" is a breezy booklet, in which the roof question is threshed out in a new vein. It will be sent to anyone on receipt of ten cents in stamps, and is worth more than that simply as entertaining reading.

Vol. LXXIV. September 3. 1904. No. 1903

IT is becoming more and more apparent that nothing stands in the way of a good real estate and building season, but the continuance of the lockout in the building trades, and the mechanics by the attitude they have assumed have already taken a good deal of prospective, as well as ready, money out of their own pockets. Conditions become constantly more favorable. In spite of the large emigration from Manhattan into Brooklyn, the Bronx and New Jersey, owing to the higher rents, the excellent demand for tenements and flats, which still continues, shows that the emigration only disposed of a surplus. Brokers repeat that this demand is felt in every part of the city and in every grade of property. The East Side is solidly filled, Harlem, except on a few blocks, is almost as full, and both the upper and lower West Sides are filling up rapidly. Neither is this state of things confined to residential property. As the Record and Guide showed in its news columns last week, loft buildings are also very well occupied, and the renting of this important class of property so far from feeling the pinch of hard times is in a very excellent condition, which means, of course, that builders will continue to erect them in large numbers during the coming year. Offices in the financial district are not in such good demand, but if the recovery in the stock market continues they are likely to be in much better demand next spring. General conditions are plainly improving, and the real estate market will not suffer from stringency of money rates as it has during late years. In spite of all these favorable conditions we do not believe, even if there is little danger of labor troubles next spring, that any very remarkable activity will supervene, just because confidence in the chances of successful speculation is so profoundly disturbed by the lockout. But there should be a sufficiency of wholesome and well-distributed activity, and something more than that in certain parts of Washington Heights and the Bronx. The great public works which are being undertaken by the railroads and the city will not only keep labor well employed for years to come, but will produce so many alterations in real estate values and the distribution of population that the mere necessities of readjustment alone will effect a great deal of activity.

THE new developments in respect to the lockout in the building trades during the past week have all looked towards an early and favorable settlement of the trouble. The resignation of Weinseimer removes the man who has been responsible more than any other single person for the existing lockout, and it is probable that he will disappear as a factor in the situation as completely as Sam Parks did. His successor is talking a settlement, instead of warfare, and can even find some good things about the arbitration agreement. It is consequently probable that the unions will reach the conclusion before long that a well-employed winter plus the arbitration agreement will be more to their interests than a winter minus the arbitration agreement. The loyal acceptance of the agreement means steady work for the mechanics, just as it means steady business conditions for their employers. The delegates of the plasterers' union, who complained that in spite of the high wages, a plasterer earned on the average only $11 a week throughout the year, simply proves that the existing conditions prevent the mechanics from earning anything like as much as they are entitled to earn. The man who earns only $11 a week, but who ought to earn between $20 and $25, is in a worse way than the unskilled workman who does not look for more than 15 cents an hour. Probably it will be found that the difference between the $24 which the plasterer ought to earn and the $11 which he does earn is accounted for chiefly by the time lost, because of strikes and lockouts so that the loyal acceptance of the arbitration agreement would do more to raise his wages than twenty-five years of aggressive striking and warfare. It is one of the absurd results of the present situation that although the skilled mechanic does not actually earn very much more than the unskilled laborer, the cost of building is as high as if he obtained his full wages, so that nobody, and least of all the consumer obtains any advantage from the poor pay which the mechanic receives.

THE New Haven Railroad has announced just what it intends to do in order to improve the character of its local service. The plans are very elaborate, and include the laying of six tracks between the Harlem River and New Rochelle, and possibly a branch from West Farms to Woodlawn. Four of the tracks will be equipped for electrical service, two for express and two for local trains, and the roadbed and equipment will be as good as money can buy and engineering skill can devise. It is the purpose of the company in case the traffic proves sufficient to run their cars without stop over the tracks of the Interborough Co. to lower Manhattan. These plans have been made most undoubtedly for the purpose of affording as excellent service as possible, one which will place the New Haven Company in a position to compete effectually with either the Port Chester or the Westchester Railroad Company, or both, and together with the proposed improvements on the Central lines the tracks of the competing companies mentioned above, and the plans of the Rapid Transit Commission for elevated roads on Boston, and Jerome Avenues, a rapid transit system will be provided for the Bronx and Westchester county, which will open up the whole of that beautiful and healthy region. Large as are the present boundaries of the Greater New York, the city will outgrow them within a few years after these rapid transit improvements are completed. Of course, the population will be much more widely distributed than it is at present, because accessible land will be very much cheaper, but it will all be essentially one city. There is no reason why a radius of fifty miles from the City Hall in every direction should not be inhabitated easily by people who work in Manhattan. The chief defect in the arrangements now being made is the lack of express tracks, which will carry long distance passengers to lower Manhattan. The efficiency of the whole service depends upon its ability to land passengers in and near the financial district without change of cars, and no sufficient preparations have yet been made to accomplish this result. In addition to the two express tracks already built, only one additional track has as yet been planned by the commission, whereas there will be needed within a few years at least four additional tracks for the express service alone.

IN a recent number of McClure's Magazine, Mr. Lionel Steffens, whose characterizations of municipal corruption in the different cities of the country, have recently attracted so much attention, insists vigorously on the idea that municipal corruption cannot be divorced from corruption in State politics. He shows, for instance, that the municipal reformers both in Chicago and Illinois could not accomplish their designs until they managed to exert an effective influence in the State capitol as well as in the City Hall, the consequence being that reform candidates are now running for the governorship both of Illinois and Missouri. In the same way, of course, the municipal corruption in Philadelphia and Pittsburg is ineradicable so long as the present Republican machine prevails in Harrisburg. The interest, however, of Mr. Steffens' remarks consists in their bearing upon the conditions in this State. The organization which stands for reform in New York City, the Citizen's Union, is an exclusively local organization. It has abjured State politics, because it claimed to be a non-partizan body and consequently wished to keep clear of all questions which involved party distinctions and loyalty. Yet it is almost as true in New York as it is in Missouri, Illinois and Pennsylvania, that the problem of good local government is essentially connected with State politics. The chief dilemma which helps to make every reform administration unpopular is of course, whether it will or will not enforce the State excise laws, and it is not to be questioned that as long as liquor selling is illegal on Sunday, except in "Raines Law" hotels, the cause of municipal reform in New York will have no chance of more than temporary success. At the same time, however, it must be admitted that the Republicans at Albany are allowing the city an increasing amount of local self-government, and do not interfere as much as they once did in purely local matters. Governor Odell has not given the city as much control over its local business as the city is entitled to, but he has at least prevented the perpetration of such an outrage on the principle of local self-government as that contained in the proposed State Police Department. And

the principle of local self-government is gaining so much in authority that eventually the city may be allowed local option in the matters of excise regulation and in the assessment of property for taxation.

The New Metropolitan Hotels

BOTH the Hotel Astor and the Hotel St. Regis are about to open for business, and New York will consequently soon be provided with two new hotels of the largest size and the most modern equipment. It is an interesting fact that these hotels have been built by members of the Astor family, which thus keeps up the tradition of owning some, if not all, the best hotels in the city. The tradition began with the erection of the Astor House, was continued when the Waldorf-Astoria and the Netherlands were built, and now receive further tribute in the Hotel Astor and in the St. Regis. Neither of the new hotels is comparable to the Waldorf in size or will attempt to compete with that institution in the patronage which it will seek. The Waldorf will remain the biggest New York hotel until (perhaps) it is displaced by the new Hotel Brunswick. But the Astor and the St. Regis will both of them add a distinctive and significant kind of accommodation to the existing stock of hotel facilities.

In no respect is New York becoming more the metropolis of the country than in the number and the different classes of its hotels. Other large cities have one very swell and expensive hotel, one or two houses in the heart of the business district, in which commercial travelers sleep, and in addition a greater or smaller number of more or less antiquated places for the accommodation of other people. Take the case of Chicago, for instance, there is the Auditorium for people, who want a pleasant location and good accommodations, and do not mind high prices. But the other Chicago hotels, such as the Palmer House, the Grand Pacific and the like, are all in one class and belong in their equipment and decorations to the same period as the Gilsey House in New York. They are all situated in that district of the city which accommodates the wholesale and retail trade, and the financial and commission business, and neither by their location nor by the character of their outfit are they adapted to any particular class of customers. New York, however, is a much more definitely organized city; and this organization finds illustration in its hotels. Just as the financial district occupies one location, the wholesale district another, the retail a third and the section devoted chiefly to amusements still another, so there are many different kinds of hotels corresponding to the many different classes of people who sojourn for longer or shorter periods in New York.

Leaving aside the old hotels, such as the Astor House and the Broadway Central, which are occupied chiefly by visitors for business purposes, there are several different grades in New York hotels—all excellent in equipment and decorations. In the first place there are the apartment hotels intended in the beginning chiefly for permanent residents, but now partly and increasingly occupied by transients, who come to New York for a stay of a week or more and want quiet surroundings and more privacy than they are likely to get in larger buildings. In the second place one can distinguish a pretty definite class of houses which, for want of a better designation, may be called Broadway hotels. These places are intended for people who like what Broadway and its vicinity have to give them. The proprietors of the Broadway hotels naturally devote much of their convenient space to their bars and restaurants, which, of course, offer attractions to residents as well as non-residents, and they derive a large part of their patronage from sporting men who happen to be flush. They also appeal to men who come to New York on business errands, but want to combine a little pleasure with their more serious work. It is this class that the Hotel Astor, on Long Acre Square, will belong, as well as the Knickerbocker and the new Sturtevant, which are still to be finished.

The Fifth Ave. hotels have still different characteristics. The biggest of them, the Waldorf-Astoria, makes a claim to be not only huge, magnificent and very comfortable, but also fashionable. It derives part of this fashionable atmosphere from the patronage of fashionable resident New Yorkers who dine there and use its public rooms; but the combination of being fashionable with being so enormous leads to queer mixtures of people at times, and gives an excuse for the gibe that the Waldorf "provides exclusiveness for the masses." There was consequently room for another type of hotel, which like the Waldorf should seek the patronage of people who were rich, and who were or wanted to be fashionable, but which also would be somewhat quieter and more exclusive. The St. Regis is the only hotel which has been designed throughout particularly for the purpose of supplying the wants of the richer class.

The St. Regis is a type of metropolitan hotel which has only been made possible by the social and economic changes of the past few years. The fact that New York is becoming more and more the business headquarters of the country to which rich men must come from all over the country for a longer or shorter period every year, has made room for luxurious and expensive but quiet hotels like the Lorraine or the St. Regis, which are intended more for people who remain several months than for people who stay only a day or two. Its location at 5th Avenue and 55th Street, is such that it cannot expect, and does not seek to gather a crowd. While it has some single rooms, its apartments are laid out mostly in suites, so as to provide pleasant accommodations for comparatively permanent residents. It wants the patronage of people who seek luxurious surroundings and the very best equipment and service, and who are prepared to pay for what they get. Consequently the standard of construction, decoration and furnishings is higher than it is in any other hotel in New York. Literally no expense has been spared to make the hotel as safe, as convenient and as luxurious as the most expensive private house in the city. It establishes, consequently, a new standard of quality in hotel building, and one which is not likely to be surpassed during the life of the present generation. That is its distinctive characteristic, and it will naturally draw the patronage of people to whom excellence of quality appeals. In this way it will make an emphatic contribution to the total impression which the increasing wealth of the highest standards of New York makes on outsiders.

Get Your Tax Bills.

Taxpayers who desire to obtain their bills promptly should make immediate written requisition (blanks may be procured in the borough offices), stating their property by section or ward, block and lot or map number, making copy of same from their bills of last year.

If a taxpayer is assessed for personal tax, the requisition should also request bill for such tax.

Each requisition should be accompanied by an envelope bearing the proper address of the applicant, and with return postage prepaid.

The requisition must be addressed and mailed to the Deputy Receiver of Taxes in whichever borough the property is located, as follows:

John J. McDonough, No. 57 Chambers street, Borough of Manhattan, New York.

John B. Underhill, corner Third and Tremont avenues, Borough of The Bronx, New York.

Jacob S. Van Wyck, Municipal Building, Borough of Brooklyn, New York.

Improvements Near the Grand Circle.

If there is one particular area or region in Manhattan which, more than another, seems to be on the eve of a building boom it is the neighborhood of the Grand, or Columbus, Circle. Particularly the activities and appearance of Broadway between Fifty-fifth and Sixty-fifth streets give one this idea. Large and imposing plots cleared for action wait for the builders, some of them the subject of rumors of fabulous prices offered and refused, others the scenes of unconfirmed stories of monumental edifices about to be erected, while the number of buildings actually in course of construction is considerable. But for the sharp enhancement of values there would be more work in hand than there is. For a frontage of fifty feet on Broadway $85,000 was paid only a few years ago and $150,000 refused this season. For the large vacant tract on the east side of Broadway between Sixtieth and Sixty-first streets neighborhood report says two million dollars was refused and half a million more asked. The Circle itself has been improved within a year or two by the erection of two new theatres, and within a few months by the alteration of the former Virginia Hotel into an imposing store and office building for Mr. Hearst, of the New York Journal and American. Evidently this gentleman has postponed for a period the erection of a skyscraper on this site, the alteration having produced an edifice so very satisfactory, for the time being at least, and constituting so distinct an improvement in itself.

A less visible, but still very important improvement went into effect this week by a change in the railroad arrangement permitting Broadway cars to run straight through the Circle without deviating from that thoroughfare. Mr. Reisenweber, who has already done much to give character to the Circle, is arranging for a large addition to his hotel and restaurant, having recently bought, through Joseph P. Day, a plot 50x100 feet, on which he will build. As he occupies but 25 feet front at present, his accommodations will be at least tripled, and the whole made into a very handsome place. As yet Mr. Reisenweber has not formulated plans, except in a general way. The plans for the present hotel were made by Joseph Wolff.

A feature in the evolution of the section has been the construction of the new Broadway Tabernacle, at the northeast corner of Fifty-sixth street and Broadway. A picture of the edifice is presented herewith. On the west side of Broadway, between Fifty-fifth and Fifty-sixth streets, a building is under construction for an automobile garage that will be the largest in the city. A building in contemplation is a 12-story apartment house for the Jermyn Realty and Construction Company at the southeast corner of Fifty-seventh street. This same company has already under way a handsome 12-story apartment hotel at the southwest corner of Sixty-first street and Broadway, just north of the Circle, with dimensions of 87.6x87.6x125.7.

On the northeast corner, diagonally opposite, there is a probability of another 12-story structure, the site having recently been acquired by a building company. On the block north, on the east side of Broadway, near Sixty-second street, excavating for a building of some kind has been suspended, pending, it is said, a change of plans, and the expectation now is that a large apartment house will appear there. The new Colonial Theatre, adjoining the Empire Hotel, will be finished in the fall by the U. S. Realty & Construction Company. It will seat nearly two thousand people and have the most approved conveniences. It is noticeable that the improvements are all of considerable importance, and this will necessarily be true of future undertakings. The opportunities for enterprise are present on every hand, in the cross streets as well as on the avenues, and the natural advantages are far greater than most neighborhoods nossess.

THE BROADWAY TABERNACLE.
Broadway and 56th St., New York City.
Chas. A. Cowen & Co., Builders. Barney & Chapman, Architects.

The exterior of the Broadway Tabernacle is finished, but the final flooring has not yet been laid or the furniture installed, though the pews are ready to be delivered. The interior of the auditorium has been painted, while the rest of the building has so far only been plastered. Heating, ventilating and lighting apparatus is complete.

Gossip of the Week.

The Bronx again comes to the front with a proportionately better showing than Manhattan, there being twenty-five sales reported from the former as against only sixty-five for the latter. In Manhattan there were sold a number of plots and old buildings suitable for improvement with six-story flats, but most of the business was the usual run of flats and tenements, with a few inexpensive private houses.

James L. Brumley will sell at auction Thursday, Sept. 8, at the Brooklyn Real Estate Exchange, 189 Montague st, Brooklyn, sixty-seven lots on 7th and 8th avs, 57th, 58th and 59th sts; 5805 8th av; 731 and 743 58th st, 498 and 500 Atlantic av, and 479 and 481 Pacific st. For maps, etc., apply to John D. Snedeker, 164 Montague st, or the auctioneer, at 189 Montague st.

SOUTH OF 59TH STREET.

16TH ST.—Charles H Easton & Co. have sold for James M. Corduke and William J. Harnisch 55 West 16th st, a 4-sty building, on lot 30x92, to Lewis J. Seleznick and Max Kurzrok. Mr. Seleznick is the president of a company which has a long lease on the adjoining corner. Plans are now being prepared by S. B. Eisendrath for a 10-sty loft building. This does not involve the corner lot.

BROOME ST.—The estate of Michael Price has sold the northeast corner of Broome and Essex sts, a 6-sty tenement, on lot 25.1x75.

ORCHARD ST.—Gordon, Levy & Co. have sold the 6-sty tenement 141 Orchard st, on lot 25x87.6.

8TH ST.—Louis Minsky has sold to Meyer Lefkowitz 328 East 8th st, a 6-sty tenement, on lot 21,9x97.6.

6TH ST.—L. Klinger & Co., in conjunction with A. Satzman, have sold for Liebenthal Brothers 538 and 540 East 6th st, two 6-sty tenements, on plot 46x97x irregular.

3D AV.—N. & I, H. Kempner have sold to a Mr. O'Keefe the southeast corner of 3d av and 25th st, a 4-sty tenement, on lot 24.8x97.7.

RECORD AND GUIDE QUARTERLY

The annual number of the Record and Guide Quarterly contains all the legal records for the past year concerning real estate and projected buildings, arranged alphabetically and numerically, with invaluable annotations. These are supplemented by tables of important transactions, with typical prices, covering the past quarter of a century or more, accompanied by expert comments; also by a list of realty corporations created during the past two years, with officers and the enterprises in which they are engaged. The whole makes a volume of reference which no real estate man can afford to be without. It should be on every desk and in every library. Its cost is as nothing compared to its value as a time-saver. This important work can be obtained, with three quarterly numbers, for the comparatively small sum of $20. It is published by the Record and Guide, at Nos. 14 and 16 Vesey St., where interested parties may see it and have its uses explained to them. If you cannot call, drop a postal card to the Publisher, or call him up on telephone 3157 Cortlandt.

Material Market.

BRICK.

The strikes and lockouts in some quarters have made no impression on the brick business, either in the production or use of bricks. The supply is being shipped from the yards as rapidly as produced in most cases, and the dispatch of barges is so much better than usual that records have been broken this season. Brick is in greater demand than in some years and commands a corresponding price.

Sand lime brick is getting a foothold in this market. Murtagh & McCarthy and the Underhill Brick Company are handling a product from the vicinity of Glens Falls. An apartment house in 79th st, west of West End av, one at Houston and Sullivan sts, and one at Mulberry and Worth, now in course of construction, are taking gray sand lime bricks for their fronts. Murtagh & McCarthy quote the price per thousand, delivered at the building, at $22.00.

The Peerless Brick Company is making progress with the buildings for its sand-lime brick plant at 118th st and East River, and Mr. Payne has removed his office to 541 East 118th st, that he may be near to supervise the work.

BUILDERS' HARDWARE.

The next annual convention of the American Hardware Manufacturers' Association will be held in Atlantic City on Nov. 16, 17 and 18. The headquarters of the association will be in the St. Charles Hotel. The National Hardware Association will hold its annual meeting at the same time and place, with headquarters in the Hotel Rudolph.

Though many independent manufacturers continue to shade prices on cut nails, no official action of this kind has yet been taken by the Cut Nail Association, though this body will hold a meeting on Sept. 8 to consider the advisability of such a move. The demand is increasing slightly, but local quotations are being shaded, according to the size of the order and the standing of the buyer. Carload lots, f.o.b. Pittsburg, may in a general way be quoted at $1.60 to $1.65 for steel and iron, respectively, although lower prices are being made in many instances. Local quotations are as follows: Carloads on dock, $1.70 to $1.75; less than carloads on dock, $1.80; small lots from store, $1.85.

NEW STANDARDS GOVERNING SHIPMENTS OF LIMOID.

The majority of the hydrated lime manufacturers of the United States met at Detroit in July and decided to adopt a general standard for bagging and selling this product. Conforming with their understanding, they have issued a card showing the standards adopted. This is a growing industry, there being now between fifteen and twenty manufacturers of hydrated lime in the United States, with a daily output of over 500 tons. Considering this, it seemed wise to adopt a general standard, such as exists in the cement industry. The following are the standards adopted governing all shipments of "limoid" and taking effect Sept. 1, 1904: Bags—A heavy, closely woven burlap or duck bag, containing 100 pounds, 20 bags to the ton. A paper bag containing 40 pounds, fifty bags to the ton. Quotations—All quotations are made including the cost of the package, no bulk quotations being made. Returned sacks—The burlap or duck bags will be repurchased from the customer at ten cents each, when returned to the mill in good condition, freight prepaid. Terms of Settlement—A discount of 1 per cent. will be allowed for cash in ten days, the discount to be taken on the full price, including the bags, f.o.b. manufacturer's plant or shipping point. Net cash 30 days.

A SLATE COMBINATION.

A meeting of the slate manufacturers of Granville, N. Y., and vicinity was held recently in Granville for the purpose of acquiring stock in the American Sea Green Slate Company, the new concern recently incorporated for the purpose of selling the product of the Granville quarries. The company is capitalized at $150,000 and will have headquarters at Granville. Every manufacturer will take stock; the sales will be effected through a single agency and there will be a greater economy of production. It will be easier to find profitable markets, it is promised, and to prevent cutting of rates, which has been a disastrous practice of the competitors in the business. Continual operation of the vast quarries and good prices for the output are aimed at. Under the proposed plans every manufacturer holding stock in the central company who has slate unsold will be advanced money in case of need or the company will purchase the stock.

The following directors have been chosen: E. R. Norton, John Edwards and Robert O. Owens. F. C. Sheldon was chosen to represent the Poultney Consolidated Slate Company, John G. Williams the Vermont Slate Company, Thomas R. Griffith and Thomas J. Nelson of West Pawlet, William Nathaniel of Griffith & Nathaniel, Poultney; Jonas Clark of Poultney, A. W. Conger of Auld & Conger, Poultney.

IRON AND STEEL.

Up to date the cut prices on iron and steel have not stimulated buying demands for structural material, nor increased consumers' confidence in the situation. The cut in tin plate, which was made several weeks ago, quite long enough to note whether it would prove a trade stimulus, has had no effect upon orders. It is predicted that practically the same result will follow in the steel trade proper unless bona fide cuts are made. Thus far the preliminary moves in the rate war appear more like skillful jockeying on the part of the people in charge than an attempt to put prices at bedrock so that consumers may confidently enter the market and buy. The result is likely to be an additional withholding of business until something is done that rings true.

It is understood that the M. A. Hanna Company will furnish one-half of the amount of pig iron and Rogers, Brown & Co. the balance required for the Pennsylvania Railroad New York tunnels. The amount of pig iron will be about 54,000 tons and the net price $11.85 at the furnace. The casting contract will be divided between the Buffalo Foundry Company and the J. B. & J. M. Cornell Company of New York.

The Labor Situation.

The election of a new president for the Building Trades Alliance Board marks a change for the better in the labor strike. Two forces seem to be at work among the unions, one contending for a settlement with the employers, and the other endeavoring to keep up the fight and conquer. During the week, however, a marked change of feeling on the part of the administration has been apparent, and at present, though no meeting has been arranged as between the Board of Governors' Committee and the representatives of the unions, still there are indications that overtures are soon to come from the men for a joint conference.

In the meantime the employers have been making steady gains. They have put new men at work in every trade but one, the marble cutters; they have organized a new union of electrical workers, and have made an agreement with a union of plasterers that was in existence last year.

The National Association of Plumbers, with which the local plumbers' union has not been affiliated, has signed an agreement with the employers.

The George A. Fuller Company report that their work is going along well. While they could use more men if they had them, in certain lines, yet their work is not materially interfered with under present conditions.

Workmen are daily coming forward and signing the individual agreement, and being put at work in the trades in which there is trouble. The employers declare that they will go right on organizing new unions in the respective trades until the strikes are declared off, and that these unions, as was the case last year, will be the only ones to be recognized. This does not apply to trades in which no new unions have yet been found if they declare off the strikes in the meantime.

William Nason, the new president of the Alliance Board, says preparations are being made for a joint conference for a settlement of the difficulties. "Nothing will be accomplished until after Labor Day, but we are preparing for the coming conference. There must be a way by which both sides may come together, as this fight cannot last indefinitely."

"I want to say," said Mr. Nason further, "that the various trades unions represented by the delegates in the Alliance have never individually repudiated the arbitration plan. It is a fact that the Alliance as a body did pass a resolution repudiating it, and in doing so I believe it made its first great mistake, for it thereby burned its bridges behind it. I do not think, however, that the trades unions themselves in their rank and file are opposed to the plan. There must be some modification of the present plan, so that it will give us real, and not one-sided, arbitration.

"The employers have said repeatedly that, while they will not recognize the Alliance as an organization, they are ready to deal with the unions individually. If they insist upon that position I see no reason why we cannot meet them on that basis, and I shall endeavor to have representatives of the various unions meet representatives of the different trades employers' associations and try to reach some settlement. If the bosses do not meet us half way then we may have to keep up the fight all summer. I, for one, wish for a speedy end of the troubles, but we do not intend to see our unions broken up."

A largely attended mass meeting was held under the auspices of the Building Trades Alliance on Wednesday night at the Grand Central Palace, at which Mr. Nason presided, and addresses were made by representatives of the carpenters, electricians, painters, plumbers and stone-cutting trades. A resolution was adopted in favor of the principle of arbitration, which the Alliance Board had repudiated. Another chapter in the downfall of Weinseimer was written this week, when the plumbers' union of which he was president compelled him to step down and out of office in that body.

Building Operations.

Madison Avenue Improvement.

MADISON AV.—Arthur E. Silverman, 241 West 113th st, will build a 6-sty, high class, elevator apartment house, on a plot 101.10x100, on the northeast corner of Madison av and 96th st, from plans by George F. Pelham, of 503 5th av. There will be 4 apartments on each floor. The front will be of limestone and brick. Specifications call for steam heat, electric lights, hardwood trim, etc.

Charles T. Wills to Build Columbia College Chapel.

AMSTERDAM AV.—Charles T. Wills, 156 5th av, has obtained the general contract to build the $250,000 chapel for the Columbia University, which will be situated on the west side of Amsterdam av, 232 feet north of 116th st. Howells & Stokes, of 100 William st, associated with McKim, Mead & White, 160 5th av, are the architects. Nicholas Murray Butler, is president; William H. Carpenter, secretary, and John H. Pinnle, is treasurer. (See Record and Guide of August 27.)

Improvement on Lower Broadway.

BROADWAY—Plans are ready for figures in the office of Robert T. Lyons, 31 Union sq, for extensive improvements to the 6-sty salesroom and loft building No. 374 Broadway. The brick walls will be rebuilt, windows, new stairways, iron columns, girders, a new elevator and toilet rooms installed. The work will cost about $25,000. The estate of William Astor, 23 West 26th st, are the owners. No contracts have been let.

Loft Building for West Eighth Street.

8TH ST.—Work will be started in about one month on the 7-sty brick, stone and limestone store and loft building which the Acme Building Co., of 32 Union sq, are to erect at No. 19 West 8th st. The structure will be 25.1x88 feet in size, with felt, tar and gravel roof, steam heat, terra cotta work, metal cornices, elevator, metal and glass skylights, etc., and is estimated to cost $50,000. W. G. Pigueron, of 7 East 42d st, is the architect, and the company consists of George H. Pigueron, president; William H. Buffett, vice-president, and Frank Golder, secretary and treasurer. George H. Pigueron, of 32 Union sq, will do the work.

A. J. Robinson Co. to Build School of Mines.

BROADWAY.—The A. J. Robinson Co., of 123 East 23d st, have obtained the general contract to build the new School of Mines, for the Columbia University, which will be situated on the east side of Broadway, 91.6 feet north of 116th st, immediately south of Earl Hall. It will be 4 stories high, with basement and sub-basement, measuring 145x57 feet in size, of Harvard brick, with limestone trim, copper roof, fireproof, and will contain laboratories, for the instruction of engineers. The structure is the gift of Adolph Lewisohn, and will cost $250,000. Arnold W. Brunner, of 33 Union sq, is the architect.

Tall Chimney for East River Front.

AV. A.—Plans have been prepared for a 300-ft. chimney to be built for the New York Steam Co., of 143 Liberty st (C. C. Upham), alongside the Manhattan approach of the Blackwell's Island Bridge for use in connection with its power house on the East River front between 59th and 60th sts. The chimney will be built, according to an agreement made by the city with the steam company last year. It is to be 300 ft. high, extending 14 ft. below ground, circular in form, with an outside diameter of 20.5 ft. at its base and tapering to 16.9 ft. at the top. It will be constructed in twelve sections, with walls varying in thickness from 32 inches in the lower section to 10⅝ inches at the topmost section. These walls will be of hollow fireproof blocks arranged to resist wind pressure, and will be laid in Portland cement and lime mortar. The chimney's total weight will be 2,165 tons. Its cost is estimated at $25,000 by the Alphons Custodis Chimney Construction Co., of 95 Nassau st, which designed it and will have supervision of its construction. The company's old chimneys were demolished in clearing the site for the bridge anchorage. The new chimney will be the third highest in the world, the second highest in New York, that of the Metropolitan Railroad Co. at 147th st and 7th av being 353 ft. In Dundee, Scotland, there is a chimney, the highest in existence, measuring 488 ft. in height.

TESTED.

The Question, "Is Life worth Living?" has been answered in this Way:—"It depends upon the Liver."

Similarly, in regard to a "Test" of, say, the Fire-proof Qualities of a Building Material,—a great deal depends upon the "Tester."

Almost all Fire-proof Materials are, according to the Catalogues, "Tested," and Everybody knows that there is a great deal of Difference between "Tests" arranged for and controlled by Interested Parties, and Tests that are really Rigorous and Scientifically approximated to the Conditions that are occasioned by Accident and are, therefore, of the very Sort that the Fire-proof Material is intended to cope with in Actual Service.

It is well known that a Paper Cone can be so devised that Water can be Boiled in it over a fire. This might Impress the ignorant with the Notion that Paper Possesses Certain Fire-proof Qualities. Little Wooden Sheds can be erected, and a Skillfully Planned Conflagration started, which will give the Lumber the appearance of being "highly fire-resisting." An Expert can tell us of a Great Many so called "Tests" in which the most "glowing" Element of the ordeal was the Final Phraseology in which the "Test" was described.

The Real Test for all Fire-proof Materials is One in which All Parties Concerned are Heartily bent upon the Destruction of the Material Tested. In this case there is no inclination anywhere to make a Good Showing or save the material from Disgrace—everyone concerned prefers to discover the Weakness of the Material, rather than to Fake the conditions and so bring about "results."

A Correct Test, therefore, is rarely a Commercial Test;—for instance, when the Pennsylvania Railroad tests a Locomotive, or when the Westinghouse Electric Company tests a Dynamo, the situation is such that the parties have nothing to gain from a false showing. Their Reputation is at Stake, their Capital is at Stake. They cannot afford to make a mistake.

Few, if any, Fire-proof Materials have been Tested as "Hecla Fire-proofing" has been Tested. The Hecla Tests were Scientific, the Tests were Unbiased. The owners had too much involved to permit anyone to countenance for One Moment the Slightest Sophistication.

The General Result of their Tests is to show that their Fire-proof System can safely be subjected to a Temperature of 2700 Degrees—a heat considerably above the melting point of cast-iron or steel.

We shall return again to this point, but in the meantime if you need any information address:

MISCELLANEOUS.

President Charles S. Mellen, of the New York, New Haven and Hartford Railroad, announces that $8,000,000 is to be expended by the system of which he is the head for improved transit from New York City to the Bronx and that part of Westchester lying along Long Island Sound. The plans for the vast improvement are ready for six-tracking the Harlem Branch of the road, running from the Harlem River at Willis av and 133d st, the end of the Second Avenue system, to New Rochelle. The work will begin as soon as it receives the formal approval of the State and city authorities. General offices at New Haven, Ct.

79TH ST.—Bids are all in and the contract will be awarded in a few days for the 4-sty store and office building, 102.2x90.6 feet, for Robert E. Dowling, of 332 West 83d st, to be erected at 227 to 233 West 79th st, at an estimated cost of $35,000. John H. Duncan, of 208 5th av, is the architect.

H. Wronkow, 23 Union sq, New York, owner of the West End Hotel, at West End, N. J., and cottages, will make extensive improvements to the hotel before next season. Seventy-five bathrooms will be added, new wide porches built, the buildings repainted, and the amusement hall and theatre adjoining the hotel redecorated. The work is estimated to cost $50,000. A Venetian garden will be laid out at a cost of $15,000, adjacent to the cottages. George W. Spitzer, 27 West 21st st, and other architects are making sketch plans for the proposed work.

The Pennsylvania Railroad Co., controllers of the Long Island Railroad, have recently been seeking options on property at Rockaway Beach, as the site, it is rumored, of a large terminal and amusement resort. At first the company sought to obtain a tract lying between the Seaside station and Rockaway Park, occupied by a tent colony and owned jointly by Ernest Ochs, the brewer, and the Ward estate. At present, however, it may be seen that the company is seeking a tract extending from the ocean to Jamaica Bay, between Fairview av and Division av, at Hammel's station. The company will probably erect a large freight terminal on the Jamaica Bay side, to be used as a distributing center for points on the north shore of Long Island. On the ocean front it is probably the intention of the railroad company to establish an amusement resort rivaling Coney Island.

Messrs. Thompson & Dundy have been led to propose building hippodromes in several other large cities than New York, their success at Luna Park in the summer and the opportunities of their all-the-year-round hippodrome in this city being sufficient guarantee of the venture. It is stated that Newark, N. J., will be one of the cities in the circuit of hippodromes, entailing a vast expense and great amount of building activity, and adding a new scope to the amusement business. Thompson & Dundy do not build theatres on paper. The hippodrome now being erected on the east side of Sixth av, occupying the block front from 43d to 44th sts, bears witness to their enterprise. It was all planned and contracts for its construction issued, in fact, actual work begun, before the project was announced to the public. It is now proposed to extend the field and build ten similar structures in other large cities.

Suburban.

NEW ROCHELLE, N. Y.—Walter Bros. have work on the residence of Frank H. Davis, at Highland Park, the mason work for which will be done by M. Bantel. The same firm will start operations for the cottage to be erected on Centre av for Mrs. Cornwell. They have also received contract for work on a 3-sty brick flat, on the Field place, North av, the mason work on which will be done by John F. New. Alderman Walter will commence work on a new house for himself on Lockwood av, while his brother will start work on his new cottage on Webster av.——Valentine Bros., plumbers, of Lawton st, who recently purchased the Traphagen property opposite the Pioneer building, have begun work remodeling and improving the frame building preparatory to occupying it as their business place. They will put a brick front in the building and have one good flat on the second floor.

Long Island.

The work of excavating for the new Columbarium, or receptacle for urns, to be erected in the rear of the present crematory on Mount Olivet av, Middle Village, for the U. S. Crematory Co., has been commenced. G. Pase & Son are doing the work. The new building will be two stories, 100x43 feet in size, with an extension 14x19, and will have gas and steam heat throughout. Estimated cost, $40,000.

Plans approved by Queens Building Superintendent Joseph Powers include a 3-sty brick electrical sub-station, 86x53 ft., to be built on Douglas st, Jamaica, by the L. I. R. R. at a cost of $35,000, to be used in connection with the station at Woodhaven to supply power for the Atlantic av division between Flatbush av and Jamaica, and the short cut Rockaway line from West Springfield direct to Cedarhurst, which the railroad company is to build soon over its old right of way. The L. I. R. R. will also erect a brick machine and carpenter shop, 60x200 ft. in size, at a cost of $20,000, for its big marine repair yard at Whitestone Landing.

PATCHOGUE.—This town is experiencing a building boom, and there have been several important sales of land which is to be improved and built upon at once. Cottages are to be built for employees of the lace factory, in which there are to be some new departments, resulting in additional employees being brought here. In six months Patchogue will have over 5,000 population. The cornerstone of the new $15,000 fire department headquarters was laid on August 27.

WESTHAMPTON BEACH, L. I.—It is expected that work will commence next week on the large summer hotel to be erected here near the ocean by Stephen F. Griffing. The hotel is to be one of the largest and finest on eastern Long Island. It will be three stories and attic in height, "L" shaped, the main buildng 140x54 feet, with an extension 64x24 feet. Cost, about $25,000, and will accommodate over 200 people. The plans, drawn by William Sydney Jones, of Riverhead, have been accepted by Mr. Griffing, and the contract for erection given to Elijah Raynor & Son, of this place. This firm has sublet the mason work to John Whitney, of Riverhead. The plumbing is to cost over $4,000, and will be done by Grimshaw & Redfield, of Westhampton Beach.

GERMANTOWN, PA.—Joshua M. Holmes, Wayne av and Apsley st, Philadelphia, Pa., will erect an operation of 18 houses in Germantown, Philadelphia. They will be erected on the following streets; Luray, Greene and Wayne av. They will be two

and three stories high, 16x64 feet, and will be built of brick, all modern improvements and conveniences. It is estimated that this operation will cost about $55,000.

PHILADELPHIA, Pa.—Harry Gill, Jr., 2200 Germantown av, will shortly begin the erection of six twin dwellings on Walnut Lane, east of Germantown av. Three stories high, porch fronts, modern interiors and all conveniences. Dimensions 20x100 feet. Bids wanted.

BALTIMORE, Md.—John R. Wiggins & Co., Heed Building, have received a contract to erect a 3-sty flatiron building at Liberty and Hopkins pl and Baltimore st, Baltimore, Md. It will measure 72x51x13 feet. Constructed of granite, Pompeiian brick and terra-cotta. Plans and specifications by J. E. Lafferty, Baltimore, Md. The estimated cost of the building will be $21,500 and work will proceed at once.

ALLEGHENY, Pa.—At Allegheny, is is stated that the residents of Perrysville av will erect a country clubhouse. The old Marshall estate is favored as the site for the proposed clubhouse. Golf links, tennis courts and ball field.

WARREN, Pa.—At Warren, a new brick engine house will be erected at a cost of $7,000. It will be well finished throughout and equipped with modern facilities. The contract has been awarded to J. A. Sampson, of Warren.

JOHNSTOWN, Pa.—At Johnstown, Cambria county, plans have been prepared by Architect George Kruger for a brick and stone church, to be erected at Johnstown, at a cost of $30,000. The Rev. Father Behan is in charge of the congregation.

QUITMAN, Ga.—A new Baptist church will be erected here at an early date.

WHEELING, Va.—The First Baptist Church will erect a chapel in the Beaumont section at an early date. For further particulars address Wm. Morgan, Cashier Merchants Mechanic's Bank, Wheeling, Va.

FT. GAINES, Ga.—A new Presbyterian church will be erected here at once. Address Pastor.

AUBURN, N. Y.—Mayor Osborne, Fire Commissioners Herron, Kosters and Haefneer, and Aldermen Holihan, Magler and Hennessy are inspecting sites for two new fire-engine houses.

COHOES, N. Y.—The plans of Thomas Grattan for a $10,000 Polish church, to be built on Page av, north of Ontario st, are finished. Rev. Father Gierlacki, pastor. No contracts have been let.

CORTLAND, N. Y.—R. H. Stark has a contract to build a 2-sty brick nail keg factory, 90x45, for Geo. M. Watson.

ALBANY, N. Y.—C. H. Brownell is making plans for four 2-sty and attic flat houses, to be built by J. Stephens & Sons, of 347 Broadway, in the 6 lots at 546-556 Madison av. Pressed brick will be used, and the trim will be Indiana limestone and Potsdam sandstone, with copper cornices. Each house will be built on concrete foundations and will have marble vestibules with separate entrances to the upper and lower floors.

CHARLESTON, S. C.—The preliminary plans prepared by W. M. Aiken, Building Department, New York City, for a 2-sty hospital to be erected on Calhoun st, also for remodeling the present structure, have been accepted by the Medical Society and City Council committee; estimated cost, $100,000.

GALENA, Ill.—Plans have been prepared by L. M. Drack, of Rock Island, for a high school, to be erected at a cost of $65,000, as report states

MANITOWOC, Wis.—Report states that competitive plans are wanted Oct. 1 for erecting a courthouse, including plumbing, heating and lighting; cost not to exceed $150,000. C. A. Groffman, secretary building commitee.

MILLEDGEVILLE, Ga.—The appropriation for the State sanitarium at this place has been raised from $330,000, as appropriated by the House, to $350,000.

Of Interest to the Building Trades.

Edwin Wilbur, architect, of 120 Liberty st, will be pleased to receive catalogues of all restaurant fixtures and furnishings, including heating.

Regarding the Erie Canal improvements, we are informed that plans and specifications for portions of the construction work are under consideration of the Canal Board, and that advertisements for bids will be issued in the very near future.

"Sundown" architects are under the ban of the government. An order is being prepared at the Treasury Department which has for its object putting a stop to the practice a large number of government architects are said to have gotten into of making drawings for outside firms.

Alterations to the Settlement House, Nos. 53 and 55 East 3d st, have been started. The buildings will be thoroughly renovated and will be occupied by the Society of Music School Settlement, now at 21 West 36th st. Grosvenor Atterbury, of 20 West 43d st, is the architect.

That branch of the New York Public Library at Nos. 331 and 333 East 10th st, facing Tompkins Park, is in the finishng stage, the exterior being completed. It is a 3-sty and basement building, with a facade of Indiana limestone, built by M. Reid & Co. from the design of McKim, Mead & White, of 160 5th av.

In East 11th st, at Nos. 538-40, a 2-sty public bath is making good progress. The building is being roofed, and much of the interior structural work has been done. It is of concrete, brick and limestone, and is being erected by the John H. Parker Co., 225 4th av, from plans by Arnold W. Brunner, of 33 Union sq.

Work is at last under way on the new building for the Hebrew Technical School for Girls on the southeast corner of 15th st and 2d av. The excavating is being done, and some of the foundation has been started. The building, as designed by Messrs. Buchman & Fox, of 11 East 59th st, will be seven stories high. George Vassar's Son & Co., of 111 5th av, have the general contract. The site faces Stuyvesant sq.

The Norwall Manufacturing Co., of 138 Jackson Building, Chicago, advises builders to "Get familiar with the Norwall valve dont's:" "The Norwall valves don't require adjustment; don't leak water; don't leak steam; don't fail to vent; don't do anything they should not do." The Norwall automatic air valve is a perfect air valve, scientifically correct, cannot be tampered with, and heats every loop in every radiator. No need to worry if you have a Norwall valve in your steam apparatus.

A 9-sty loft building has been started at Nos. 16 and 18 East 12th st, between 5th av and University pl, for the Middleboro Realty Co., 149 Broadway, from the plans of Messrs. Sass & Smallheiser, of 23 Park Row. The site has been cleared, excavation dug, and caissons are now being laid for pier footings. The improvement, though an innovation for the block, follows naturally upon the recent erection of loft buildings along University pl, the tendency being for them to extend into the cross streets in either direction.

The prospects are for a speedy completion of the connection of the Bronx and Manhattan systems of the subway. The engineers constructing the tunnel under the Harlem River have overcome the difficulty in the shape of a streak of quicksand, and the bore for a suitable foundation has been practically completed. Satisfactory terms have been agreed upon between the contractors of the subway and the New York Central Co. at the point where the subway runs under the roadbed of the steam railroad.

The old building of the General Society of Mechanics and Tradesmen, at Nos. 16-18 East 16th st, is to be enlarged and adapted for use as a modern store and loft building, according to plans filed in July by Horenburger & Straub, of 122 Bowery. The building has been vacant much of the time since the removal of the society, about four years ago, to its new home in West 44th st. It adjoins on the east the building of the Y. M. C. A., its other neighbors being mostly mercantile structures. It is owned by the trustees of Columbia College, who have leased it for a period of twenty-one years to Simon Bagovin & Co., furriers, of 49-51 West 21st st, who will occupy it.

This week marks the completion and opening of the new 28th st freight house of the Erie Railroad. The new freight house is 400 ft. long and 40 ft. wide, and has a capacity for unloading twenty cars at a time. Two additional stories will be added in the near future. According to the plans filed, the estimated cost was $30,000, but it is probable that the actual cost of the building greatly exceeded this estimate. The architect was George E. Archer, whose death occurred in December, and who has been succeeded by Mr. William Kaufman, architect to the Erie Railroad Co., 26 Cortlandt st.

The first hotel marking the development of Bronx Borough has been completed at Willis av and 134th st. The site was wisely chosen. It is contiguous to the Harlem River branch of the New York, New Haven & Hartford Railroad; it is passed by the Willis av and Southern boulevard trolley cars, and is within one block of the 133d st station of the Third av elevated road. The building itself is a 6-sty, fireproof structure, open to the air and sunshine on all sides, and was erected from the plans of R. Napier Anderson, of 63 5th av, at a cost of $200,000. Complete in all hotel requirements, it also combines the advantages of a bath building, the baths occupying the entire basement and being luxuriously furnished and appointed. A roof garden occupies the entire roof space of the building.

Sales on Maiden Lane.

Horace S. Ely & Co. and William A. White & Son have sold for Seth Sprague Terry 82 and 84 Maiden lane, running through to 19 Cedar st, a warehouse building, fronting 54.2 on Maiden lane and 26.7 on Cedar st, with a depth of 133.4 feet.

First Concrete Building in Manhattan.

The Guy B. Waite Company is now erecting a concrete building on their property at 31st and 32d sts, East River. It is to be a 5-sty factory for the company's own use, and is being constructed entirely by them in every detail. The walls are of concrete, to be finished with cement, and the floors are of steel and concrete, according to the Guy B. Waite system of fireproofing, with spans of 15-ft. arches.

This company has now one of the most completely equipped plants of any in this country for executing fireproof work in buildings, and its new concrete building when completed will be the first of the kind in Manhattan.

Secy. State Commission in Lunacy.

Notice to Taxpayers.

Department of Finance, Bureau for the Collection of Taxes, New York, September 1, 1904.

TAXPAYERS WHO DESIRE TO OBTAIN their bills promptly should make immediate written requisition (blanks may be procured in the borough offices), stating their property by Section or Ward, Block and Lot or Map number, making copy of same from their bills of last year.

If a taxpayer is assessed for personal tax, the requisition should also request bill for such tax.

Each requisition should be accompanied by an envelope bearing the proper address of the applicant, AND WITH RETURN POSTAGE PREPAID.

In case of any doubt in regard to Ward, Section, Block or Lot number, taxpayers should take their deeds to the Department of Taxes and Assessments and have their property located on the maps of that Department and forward to the Deputy Receiver of Taxes with the requisition a certified memorandum of their property, which will be furnished by the Department of Taxes and Assessments.

Taxpayers in this manner will receive their bills returned by mail at the earliest possible moment and avoid any delay caused by waiting on lines, as required in case of personal application.

The requisition must be addressed and mailed to the Deputy Receiver of Taxes in whichever borough the property is located, as follows:

JOHN J. McDONOUGH, No. 57 Chambers street, Borough of Manhattan, New York.

JOHN B. UNDERHILL, corner Third and Tremont avenues, Borough of The Bronx, New York.

JACOB S. VAN WYCK, Municipal Building, Borough of Brooklyn, New York.

FREDERICK W. BLECKWENN, corner Jackson avenue and Fifth street, Long Island City, Borough of Queens, New York.

JOHN DE MORGAN, Bay and Sand streets, Stapleton, Staten Island, Borough of Richmond, New York.

After receiving the bills, the taxpayer will see that they are properly rebated, then draw check for the net amount to the order of the Receiver of Taxes and mail bill and check, with an addressed envelope, with the return postage prepaid, to the Deputy Receiver in whichever borough the property is located.

Checks should be mailed as soon as possible after the bills have been received by the taxpayer.

All bids paid during October must be rebated before payment.

DAVID E. AUSTEN,
Receiver of Taxes.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A $20,000—$30,000 indicates the assessed value of the property. The first figures being for the lot only, and the second figures representing both lot and building. Letter P before 2d figure indicates that the property is assessed as in course of construction.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

Aug. 26, 27, 29, 30, 31, and Sept. 1.

JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

The Private Branch Exchange System of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

DYCKERHOFF PORTLAND CEMENT

is made in Germany. When first introduced in the United States, some twenty-five years ago, its superior strength, correct chemical composition and absolute uniformity were quickly appreciated and placed it above all other Cements in the market. The Dyckerhoff brand maintains the original superiority;—its perfection has not been approached by any other Cement.

Nothing we can say is stronger than the simple fact that there are fifty-year-old roofs wearing "Taylor Old Style" tin intact.

N. & G. TAYLOR COMPANY
ESTABLISHED 1810
Philadelphia

"Rufus the Roofer" is a breezy booklet, in which the roof question is threshed out in a new vein. It will be sent to anyone on receipt of ten cents in stamps, and is worth more than that simply as entertaining reading.

THE ROOFER

finds M F Ternes the most satisfactory of all roofing tins. The unusual pliancy and ease of working make M F Roofing Tin "most favored" by skillful roofers. It helps the worker and gives permanency to the work.

THE ROOFING

M F Roofing Tin is the most durable roofing made. Extra heavy coated and free from the slightest defect. Made entirely by hand labor. Lasts a lifetime. It is fire-proof and rust-proof. The standard for over 60 years. Warranted to give satisfaction.

"Entered at the Post Office at New York, N. Y., as second-class matter."

Vol. LXXIV. September 10, 1904. No. 1904

THE advance in prices on the stock market has been maintained so a long time, has made such considerable and general changes in the prices of securities, and has been supported by such a volume of business that it is fairly entitled to be considered a genuine recovery from the undue depression of prices which took place in 1903 and early in 1904. Such a recovery was certain to come, but very few people expected that it would take place during the canvass preceding the presidential election. That it did take place so soon is striking testimony to the recuperative power of the business and finance of this country. Just as soon as money became easy and it was discovered that agricultural prosperity would continue, prices rebounded from the low levels of last winter and spring. Moreover, there is no reason to suppose that the gain which has been made will not be maintained. Prices have so far simply been returning to their normal investment level; and there is probably room for even a further advance without super-adding any considerable speculative margin to the value of securities. At the same time conservative bankers are likely to discourage any very considerable further increase during the coming fall. Financial conditions have favored a return to the normal level, but they would not favor too lavish a use of credit for an exclusively speculative movement. At the same time it should be added that the year 1905 should be a good year, both for the business and financial interests of the country, and many of the projects which were cut short by the slump of 1903 will be resumed and will make the year one of active and profitable trade.

THE volume of the current real estate business is very small; but it preserves a wholesome and promising character. Our news columns register the occurrence of about 50 transactions in Manhattan property against 42 for the corresponding week last year. The increase is unimportant, but the character of the business is on the whole better. An increasing demand for private houses is developing, and the news of the week includes some 14 buildings of this class against only 6 during the corresponding week in 1903. Lots for improvement with tenements and flats continue to be purchased; but the movement in this direction is the tail-end of the building operations of the current year, and offers no anticipations of what we are to expect in 1905. Of course there is no doubt that the Bronx will be even more active than it is at present, and its present activity is in the number of transactions consummated almost equal to the whole of Manhattan. More than 35 Bronx sales are reported in this issue of the Record and Guide against only 9 one year ago. There can be no doubt that during the coming year many important operators and builders, who have hitherto confined their attention exclusively to Manhattan, will transfer their interests chiefly to the Bronx, and will help to carry the activity in that Borough to unprecedented totals.

ACCORDING to all indications the streets of New York will be more than ever congested during the coming winter by the enormous quantity of slow moving vehicles, which will be obliged to use them. Already people who try to go up or down town in automobiles and cabs are complaining of the inevitable and exasperating delays of transit. Broadway during the busy hours is practically impassable. The Bowery which, because of its width was once comparatively available, is becoming more and more crowded—partly because of the traffic, which seeks the new bridge by that route. Hudson st., except along its lower end, still has a little room left upon it; but 8th av. is very much crowded because of its use by the carts carrying dirt from the excavation for the Pennsylvania station. The delays and money loss which this condition incurs upon everybody who uses the streets, but particularly upon business men, who do much trucking and carting is enormous; and it is absurd that it is not receiving more serious and insistent attention. Whenever Elm st. is restored to use one more fairly capacious thoroughfare will be provided; but another one to the west of Broadway is even more necessary, and it should be laid out at an early date by widening Varick st., cutting it through to Broadway on the south, and to extensions of 6th and 7th avs. on the north. The present administration has so far been inclined to limit the improvements which it carries along, to projects started by its predecessors; but in this matter of dealing with the congestion of street traffic, it has an opportunity of initiating improvements of its own of the utmost importance. There could not be a more flagrant piece of short-sighted improvidence than that which the City of New York is displaying. It is increasing and improving enormously its equipment for the transaction of business. It is building larger and better loft buildings and factories than ever before, and it is improving the means of communication with all the outlying boroughs. But the end of all these improvements is to facilitate the transaction of business on Manhattan Island, and this object will not be obtained unless certain improvements and enlargements of the street system are carried out at the same time.

IN the beginning the presidential campaign promised to be very exciting and interesting, but instead of that it has become increasingly dull. Of course the really lively part of the canvass is still ahead of us, but it has already become apparent that if any enthusiasm is provided, it will be a forced rather than a spontaneous enthusiasm. There is nothing in the issues of the campaign to arouse any particular interest. The whole logic of the Democratic position forced the leaders of that party to draw up a negative platform, and to nominate a candidate who would be safe rather than positive and assertive in any one particular direction. Judge Parker filled the bill, but he and his canvass are now suffering from the defects of his qualiters. He is an eminently safe and estimable man, who can proclaim in turgid sentences a sufficiency of safe and commonplace ideas. But the negative program of economy, and legal and constitutional righteousness which he proclaims, will not give him much strength outside a few lawyers' offices. He carefully refrains from all references to the various reforms, in which independent voters are interested, and he apparently relies chiefly upon the opposition and dislike which the aggressive and positive policy of President Roosevelt has aroused. We fear that he will be disappointed, in case he expects the dislike and distrust of Roosevelt to win him many votes, which he would not otherwise get. The American people like a vigorous, positive and aggressive man, even if he does make mistakes, and such a man, provided he keeps a level head, will always be preferred to the cautious lawyer, who makes a platform out of the Constitution and the Declaration of Independence. In the meantime the apathetic campaign has an excellent effect on business. For the first time since 1884 both the tariff and the money questions are not dangerous issues, and Wall Street is not afraid to carry on a bull campaign in the midst of the canvass.

DURING the period of 1901 to 1903, the number of expensive buildings erected was so considerable that several large construction companies were organized to obtain a share in the business. These companies, together with the construction companies and building firms which date from before 1900, are now complaining of a scarcity of work. They, all of them, still have some good contracts on hand, which will take a year or more to finish; but they declare that there are very few big new building contracts on the horizon of trade, and they do not like the outlook. Well, while we have every confidence that the outlook for new building contracts calling for large expenditures will be better some months from now than it is now, still it is improbable that at any time during the next few years will be as much business of this class offered as there was during 1901 and 1902. If the construction companies want to keep fully employed, they should adapt themselves to the times, and use their capital in erecting the kind of buildings, for which there is an immediate demand. For the next few years there will undoubtedly be a pressing demand for flats and residences, both on Washington Heights and in the Bronx, and there is no reason why this class of improvement should be left to builders with small capital. The large capital and the efficient organization of the construction companies should enable them to erect a great many cheap buildings with as much profit as a very few large and expensive buildings. The appearance as operating builders both on the Heights and in the Bronx would be welcomed and should not be delayed.

The Value of the New Subway.

TO the great majority of New Yorkers, the new Subway means merely a new and to some a quicker and more convenient method of transit. Those who live on the West Side and in the Bronx expect by means of the underground road to travel the length of the island in considerably less time than that journey takes at present, while even the neglected residents of the East Side expect to obtain some relief from the overcrowded condition of the elevated and surface cars, because of a certain diversion of traffic, which will occur at competitive points. That these advantages will follow from the opening of the Subway is undoubtedly true. Too much, indeed, should not be expected in the way of relief from overcrowding. Within a year or two the Subway, elevated and surface cars will all be packed as full of passengers during the rush hours as the elevated cars are now. But the people to whom it is convenient to use the Subway will save a good deal of time in their daily travels, and for this reason the Subway cars are likely to be more overcrowded than are the elevated cars. The consequence will be that the passengers on the West Side elevated can make a pleasant and useful choice between less comfort and more speed on the one hand and more speed and less comfort on the other. The point is, however, that whereas the service provided by the Subway will not be sufficient in quantity to handle even the existing overflow of traffic, its quality will be superior to any which is now offered and this merit will have far-reaching consequences.

The great fact about the Subway is a fact which New Yorkers do not appreciate as yet, but which nevertheless transcends in importance every other advantage which it will give in its train. This fact is that the quality of the service afforded by the express trains of the underground road will open up to New Yorkers large areas of cheap land for residential purposes. That people should be jammed against their neighbors while traveling and should rarely be able to ride in seats is unpleasant; but one would not have to travel far to find worse evils even in New York City. That people should spend from a half an hour to an hour more than is convenient in reaching their offices and homes is an economic and a social loss; but the economy of metropolitan life seems to be able to afford the loss. What is much more serious, however, is the fact that the millions of people who elect to live in Manhattan are for the most part obliged to inhabit small, cramped and uncomfortable tenements and flats, which exercise a bad influence both upon the physique of their tenants and upon the character of their domestic lives. New Yorkers lack good air, good sunlight, and enough space for comfort, and the great want of the Subway is that it will begin the process of restoring to the inhabitants of the city sufficient allowance of habitable room, air and sunlight.

The Record and Guide has frequently pointed out the gradual change in the domestic habits of well-to-do New Yorkers. The poor of New York have, of course, almost always lived in some kind of tenements, as they do in other large cities, the only difference being that the Manhattan tenements have become higher, deeper and more crowded than they are elsewhere. But the process whereby people whose rents were $500 a year or more have gradually been forced to move from private houses into flats has taken place pretty well within the life of one generation. It began about 1870, and it has continued with increasing momentum until the present day. From 1870 to 1889, an average of from 1,000 to 1,100 private houses were built every year in Manhattan, and were bought or rented by people who wanted to live in that way. During the following years the same average was reduced to about 600. In 1904 plans will be filed for not more than 50 dwellings to be built in Manhattan. These figures tell the story better than do those of the increasing number of tenements and apartment houses built, because the typical tenement and apartment house has increased considerably in size as well as in number. It is evident that had existing transit conditions continued, the building of private houses would have been restricted to the demand, derived from very rich people, and that the enormous majority of New Yorkers would have been housed in tenements of a constantly increasing capacity, or else would have had to sacrifice more and more time and energy in traveling from their homes.

The Subway is the first rapid transit railroad built in New York, which is really adequate to the exigencies of the traffic problem created by the shape of Manhattan Island. It will enable people who work south of Chambers st. to ride to the middle reaches of the Bronx in a comparatively short time. It will begin the process of restoring cheap residential land to the Manhattanites. But, of course, it will soon be suffocated by the traffic it creates, unless it is promptly supplemented by other tunnels; and the most important condition to be observed in relation to these supplementary subways is the condition that no concessions must be made in the quality of the service provided. Every subsequent rapid transit road must do as well, if not better, than the one soon to be opened in the amount of space given to the express service, and in the speed of the trains; and no route should be considered which does not supply space for two express, as well as two local tracks. Indeed eventually it is probable that a deep four-track tunnel to be used exclusively by express trains, will be necessary to give the millions of people who will live in the Bronx the service to Manhattan which they need, and in the meantime the necessity of more and quicker express trains must never be forgotten in planning extensions, connections or parallel routes with the new Subway.

THE labor troubles in the New York building trades are nearing their end, and apparently will be settled within the week by what is practically the complete surrender of the unions. This was bound to be the result, and one cannot but wonder at the perversity of the leaders of these unions in provoking a contest, the chances of which were all against. They had little to gain from breaking the agreement, and very much to lose, but nevertheless they preferred to go out and bring down on themselves a lockout, which will keep them poor throughout the winter and perhaps longer. Now at the end of a long tie-up ninety per cent. of the mechanics are very anxious to get back to work and will make any ordinary concession to that end. What these ninety per cent. should do is to make sure that they will not be forced to suffer a similar loss again. When laborers are ill-paid, or are obliged to work excessively long hours, they are wise in making as troublesome as possible for their employers until the grievances are redressed; but the mechanics employed in the New York building trades are better paid than any in the country and work under exceptionally easy conditions. All they need is steady employment to make them prosperous and thrifty, and this is the one thing which they throw away—and for no apparent reason. It is time for the mechanics who want to work to assume and to keep control.

Defiance of Law in Attorney Street

The loss of life by the fire in the 5-story tenement house at 164 Attorney st, on last Sunday morning, is directly ascribable, it would seem, to defiance of the law and the legally constituted authorities. The two lower stories of the building had been almost entirely torn out to make an arcade which was to run through the lower part of the building to Ridge st on the east. The fire-escapes from the third story down had been removed, and the means of exit for tenants in this emergency were inadequate, so that the victims, who were mostly children, were trapped in the top stories. The lower walls having been removed, the rest of the building was supported on needles and spur braces. The stairways had been taken down also, and the only means of ingress and egress was a common ladder in the backyard, to the first story. It was found, furthermore, that even before the makers of the alterations in the building had torn away the fire-escapes the original builders had attached fire-escapes that were little better than death-traps.

Leon Sobel, the owner of the Attorney street house; Morris Lavine, the lessee, and Henry Breiterman, the foreman in charge of the alterations, were arraigned before Magistrate Whitman in the Essex Market Court and held to await the result of the Coroner's inquest.

Coroner Scholer says: "The District Attorney will aid me in my investigation. I have visited the building and found that the fire escapes were not bolted to the walls. It stood to reason that they would stand no unusual strain. I have also had a talk with a fire-escape manufacturer, who tells me that this same condition exists in many parts of the city, and that the accident might happen again at any time."

A report on file at the Building Department shows that no permit was ever obtained to make the alterations, and though a violation was filed against the building, the builder proceeded in defiance of the authorities.

The unexpected always happens. The builder and owner did not mean to make their house into a death-trap, but they took a chance they had no right to take, to say nothing of their disregard of the law.

A well known manufacturer of fire-escapes, when interrogated for the Record and Guide, said he did not believe that the regulations were being violated in any appreciable degree, so far as bolting through the wall is concerned. The building inspectors were strict, and especially during the last ten or fifteen years he did not believe there had been any omissions in this respect among manufacturers of any account. He had heard of owners who had protested against the bolts being put through the walls,

but never of a contractor or manufacturer who had neglected to do as the law required.

THE LAW AS TO RAILINGS AND BRACKETS.

The Tenement House Act reads as follows: (See "New York Laws Relative to Apartment and Tenement Houses," edited by William J. Fryer, 1903, Published by the Record and Guide, page 9.)

"Railings.—The outside top rail shall extend around the entire length of the platform, and wall cases shall go through the wall at each end, and be properly secured by nuts, and four-inch square washers at least three-eighths of an inch thick, and no top rail shall be connected at angles by cast iron. The top rail of balconies shall be one and three-quarter inches by one-half inch of wrought iron, or one and a half-inch angle iron one quarter inch thick.

"The bottom rails shall be one and one-half inches by three-eighths of an inch wrought iron, or one and a half inch angle iron, one-quarter inch thick, well leaded or cemented into the wall. The ends of all rails which go through the walls shall be worked out to not less than three-quarter inch bolts size for top rails, or one-half inch bolt size for bottom rails, and if constructed as separated pieces shall be properly secured to the rails with not less than two one-half inch rivets. The standards or filling-in bars shall not be less than one-half inch round or square wrought iron, well riveted to the top and bottom rails and platform frame. Such standards or filling-in bars shall be securely braced by outside brackets at suitable intervals, and shall be placed not more than six inches from centers; the height of railings shall in no case be less than two feet nine inches.

"Brackets:—The brackets shall not be less than one-half inch by one and three-quarter inches wrought iron, placed edgewise, or one and three-quarter inch angle iron, one-quarter inch thick, well braced; they shall not be more than four feet apart, and shall be braced by means of not less than three-quarters of an inch square wrought iron, and shall extend two-thirds of the width of the respective balconies or brackets. The brackets shall go through the wall and be turned down three inches, or be properly secured by nuts and four-inch square washers at least three-eighths of an inch thick.

"On new buildings the brackets shall be set as the walls are being built. When brackets are put on tenement houses already erected, the part going through the wall shall not be less than one inch in diameter with screw nuts, and washers not less than five inches square and one-half an inch thick. If the end going through the wall is separately constructed, it shall be properly connected to the bracket with not less than two five-eighths inch rivets staggered."

The Labor Day Parade.

For the Building Trades, the public parade of organized bodies of workingmen last Monday had comparatively little interest. Compared with the enormous possibilities, the show of numbers was scarcely representative; and so far as the building trades were concerned, the representation was confined to only a few unions. The Housesmiths, the Architectural Iron Workers, Lathers, Waterproof Workers, Stone Masons, Cement Masons, and the Brotherhood of Painters, were there, but the Bricklayers, Carpenters, Plumbers, Amalgamated Painters, Steam and Gas Fitters, Sheet Metal Workers, Electricians, Plasterers, Stone Cutters, Marble Workers, and other prominent trades were not marching that day.

The exercises of the day were under the auspices of the Central Federated Union, and the procession was for all kinds of good workmen as well as mechanics. The pattern makers turned out several hundred strong, and the striking butchers made a good showing. A powerful body of teamsters and another of smaller dimensions, of dock builders in uniform, presented a fine front. Foundrymen's organizations from cities in New Jersey crossed the Hudson to march with the Metropolitan organization of their craft. Another feature was the participation of German labor societies, said to be strongly Socialist, and which for years had not identified themselves with any public demonstration of the labor organizations in the Central Federated Union.

Some unions named in the official program, caused disappointment by their non-appearance, and the total strength of the procession was, by actual count, about seven thousand.

With bands playing and banners waving, the head of the procession started from 59th st and Fifth av at 11 o'clock. The participating organizations formed on the streets crossing Fifth av between 40th and 59th sts, and the route of the march was down Fifth av to Washington sq. Some of the organizations had floats in the procession illustrating their methods of work. The absence of the principal building trades was generally remarked, and while a number of reasons might be given for it, all can be embraced in one,—general apathy. Dissatisfaction with the course of things this season and humiliation over the downfall of Weinseimer had something to do with it. Another year, after a season of peaceable, uninterrupted work, we may yet see a truly representative procession of the Building Trades of New York marching down Fifth av under the banner of Arbitration, masters and journeymen side by side.

New Bronze Doors at Jno. Williams's.

Through the courtesy of the Trustees of the Boston Public Library and Daniel Chester French, the firm of Jno. Williams was permitted this week to exhibit Mr. French's sculptured bronze doors for the Boston Public Library, at its foundry, 556 West 27th st, New York City, where the process of casting has just been completed. There are three sets of double doors, which differ from the usual bronze doors of many panels in that they are simply large reliefs of separate figures. The subjects are Music and Poetry, Knowledge and Wisdom, Truth and Inspiration. These allegoric figures enveloped in graceful drapery are treated in a low relief, and as Mr. Lorado Taft has said in his new history of American Sculpture, they will rank among our choicest examples of that elusive form of sculpture, for it is recognized that low relief work is one of the final tests of a sculptor's skill.

Yellow and glistening like gold, they are indescribably elegant, even when seen on temporary hinges and in the dim of light of the foundry. On each door is inscribed beneath the figure an appropriate legend in characteristic letters; and above each figure, on a classic tablet with garlands, is its name.

That is all. Nothing else is on the door; neither border nor panel. It is as if the figures in their almost ethereal draperies had been painted with some magical brush on these great sheets of yellow metal. True, the subjects are such as any artist might choose, but who else could have molded the figures so delicately and beautifully, and bestowed the sweetness and refinement that will impress every beholder?

But that other art, the one which took the fragile models from the sculptor's hands and wrought from them these forms of solid metal, should not be forgotten. The mechanical work that was necessary here must have been extremely delicate and patient; skillful, of course. American art is fortunate in being able to have its designs and models so accurately interpreted. Each door is eleven feet by six on the surface, four inches in thickness, and about fifteen hundred pounds in weight.

Obituary.

Mr. George W. Koch, who was long prominently known in the building trades of New York, died on Saturday, Sept. 3d, at his country home at Dillsburg, Pa., in his 78th year. He was born in York County, Pa., March 8th, 1827. His ancestors came to this country from Germany in the year of 1753. At the age of 18, after his father's death, he left home to learn the joiner trade. In 1850 he went to Philadelphia, continuing in the same trade, and in 1852 he entered the city of New York with a capital of $42. Having acquired the art of designing, as well as of being a master mechanic, he soon extended his business to fine cabinet work, and in 1874 laid the foundation of the present business of George W. Koch & Son, by laying the parquet floor in the Lenox Library on Fifth avenue. In a short time, by devoting his energy to this particular line, he gave it the impetus which to-day makes it one of the leading features of woodwork in fine residences, and placed himself at the head of the business.

Twelve years ago he retired from active business, and returned to his native town, leaving his son in active charge of his business, which has a factory in West 53d st and an office at 450 Fifth avenue.

Mr. Koch improved and beautified his home at Dillsburg, Pa., which is considered one of the finest homes in that section, and is noted for its hospitality. He was a consistent Christian, and thoroughly domestic in his tastes, and his greatest pleasure was in having his many friends enjoy his beautiful home with him. He leaves, besires a widow, one son, Frank, who succeeds him in his well established business.

Rents on Eighth Avenue.

The following letter has been addressed to the Real Estate Department of the New York Herald:

Gentlemen:—In your issue of Sept. 4, 1904, relative to 8th av rentals, we find one item which especially concerns interests of clients of this office, you specify by street and number 223 8th av. What you say with reference to this property is absolutely false in every particular. We represent the entire block, of which this number is one. At no time within the last 20 years has said store been rented for $1,200, or even as low as $1,400.

If you will take the trouble to examine the record, you will find that the leases of record heretofore have been $2,000 per year on this particular piece of property. Similar premises in the same row are under five years' lease at $2,200 and Croton water charges. Such is the record in the register's office of this county. It is true that the last tenant refused, after having verbally accepted a new lease at $2,200 on the day or two before the same expired, to renew at any figure. This was for reasons entirely extraneous to the matter of increase of rent. Family reasons, of which we are not at liberty to publicly speak, were controlling with the said tenant.

We refused a number of applicants who were willing to pay the amount of rent asked, for the reason that the business which they proposed to carry on conflicted or failed to harmonize with the line of business conducted by our other tenants on the block.

Your representative must have some good and sufficient reason for depreciating values in that portion of 8th av referred to in your article. We had a client of this office some few months ago who was offering a premium to secure a vacant store of full width anywhere on 8th av, from 14th to 59th st, and in a legal proceeding, in which we represented him, several witnesses so testified in confirmation of the fact that no vacancies then existed, and that no lessees were willing to assign their leases even at a premium.

If you are inclined to be fair-minded and are not intentionally endeavoring to injure a certain locality, you will give this letter the same prominence as you gave the article complained of.

Yours very truly,

(Signed) Adams & Hahn.

Gossip of the Week.

Trading at private contract this week was again comparatively more active in The Bronx than in Manhattan. The totals for the week are thirty-three for The Bronx and forty-eight for Manhattan, as compared with seven and forty-two for the corresponding week last year. Dealings in the lower priced private dwellings are on the increase, there being fifteen reported this week for Manhattan, which is a larger number than has been reported for any one week this year. In the same week last year there were but six sales of dwellings reported. Of the other thirty-three sales reported this week, twenty-three were flats and tenements, one an apartment hotel in the Long Acre district, the first in many months, and ten plots of lots and old buildings, the lots representing forty-five lots.

SOUTH OF 59TH STREET.

RIVINGTON ST.—Abraham Sivermintz has sold the northeast corner of Willett and Rivington sts, a new 6-sty tenement, 25x100, in part payment. Mr. Sivermintz takes eight lots, 200x100, on the north side of 137th st, 245 feet east of 5th av. Mr. Sivermintz will erect five 6-sty flats, with stores, on this property.

18TH ST.—Charles E. Duross and George W. Mercer & Son sold the 3-sty house 323 West 18th st, to Stephen W. Collins.

12TH ST.—Golding & Hillman have sold to Fannie Wolf 339 to 347 East 12th st, two 6-sty tenements, on plot 100x103.3.

56TH ST.—John J. Clancy and William A. A. Ewing have sold 234 West 56th st, a 4-sty dwelling, on lot 20x100.5.

New Tenements for Second Avenue.

2D AV.—The Fourteenth Street Presbyterian Church has sold to Louis and Benjamin Nieberg its property at the southeast corner of 2d av and 14th st, on plot 103.3x139. The buyers will erect 6-sty tenements on the site. The sale is made subject to the confirmation of the court.

43D ST.—Ray Isaacs has sold to Jennie Reiss the 5-sty flat, 345 West 43d st, 25x100.

36TH ST.—John Miller has sold for a Mr. Brown the 5-sty flat, 147 East 30th st, on lot 26.8x98.9.

23D ST.—John V. Allen and John Finck have sold for Benjamin F. Spink to Mary S. Hunzinger 327 West 23d st, a 4-sty dwelling.

47TH ST.—The Long Acre Realty Co. have sold to H. M. Swetland 157 and 159 West 47th st, a 9½-sty apartment hotel on plot 40x100.5. It is said that property in Passaic, N. J., is given in part payment.

HOUSTON ST.—Wm. A. White & Sons have sold for Samuel Woolverton, trustee, to Lowenfeld & Prager, 126 West Houston st, northeast corner of Sullivan, a 3-sty building, on lot 25x100.

NORTH OF 59TH STREET.

74TH ST.—J. D. Layng, Jr., has sold 57 East 74th st, a 5-sty American basement dwelling, on lot 18x102.2. C. M. Williams is the buyer, and Pease & Elliman the brokers.

The Allied Boards of Trade in Brooklyn has appointed a committee to protest to the Mayor against the new contract for transit facilities on the Williamsburgh Bridge. It is pointed out that inasmuch as the present contract does not specifically provide for any definite number or lines of cars to be run across the bridge, it rests entirely with the car companies as to how many or how few shall be run. This, it is said, will result in a totally inadequate service.

The new real estate firm of E. Tanenbaum & Co., of 656 Broadway, makes an announcement in our advertising columns, to which attention is called. Mr. Emanuel Tanenbaum, long a member of L. Tanenbaum, Strauss & Co., is the head of the firm.

Heil & Stern have leased for Randolph Guggenheimer four lofts comprising a total space of 40,000 square feet, in the Commercial building, 725-727 Broadway, corner Waverly pl, to an importing millinery house. The lease is for a tern of years, and involves a total rental of $100,000.

The search for apartments and houses on the Heights in Brooklyn is as keen this season as ever, but the supply is very limited. Of course, most of the renting demand is for apartments, and as buildings of this character are fewer, comparatively, on the Heights than in any section of Brooklyn, it is not possible to supply one-quarter of the demand. Builders make frequent inquiries for apartment-house sites, but they rarely conclude to pay the prices asked. The only vacancies at present are a few expensively furnished houses, and also a few vacancies in bachelor apartment houses.

Eugene L. Clarkson, real estate and mortgages, 31 Nassau st, has for sale a very desirable property in John st. The plot is No. 20 John st, measuring 24.11x64.5x25.3x64.2, and is situated on the south side of the street in the middle of the block between Broadway and Nassau st. The ancient aspect of this block has been modified thus far by the erection of only two modern structures, yet prices maintain a high level, being in the neighborhood of $75 a square foot. The plot at No. 20 is offered at $60 a square foot. This year has seen several improvements under way, as planned for Maiden lane between the same thoroughfares, and it is an interesting problem whether anticipated improvements in John and Fulton sts will finally crowd out the jewelry trade from its present location.

—Architect Long, of Jersey City, who prepared plans for a three hundred thousand dollar hospital in that city, has found it necessary to sue for his commission, of twenty-five thousand dollars, and the trouble that he has encountered ought to be a hint to all architects whenever engaged by a municipal board to have the terms of the contract explicitly stated under seal. Mr. Long was engaged by the City Hospital Board of Jersey City to

prepare the plans for a three hundred thousand dollar hospital, and did so, and, later, when it was found that an appropriation of two hundred thousand dollars only could be secured, he was required to make a new design, and did so. Unfortunately for him, a quarrel arose between the Hospital Board and the Mayor, in spite of which the Board awarded the contracts and attempted to go on with the work; but the Board of Finance sided with the Mayor and would not ratify the contracts or allow drafts to be made on the appropriation. The Mayor procured from the last Legislature an act creating a new Board of Health and maintains that the new Board must provide the new hospital. The old Board asserts that in some way it was not legislated out of office, and is still competent to act; so the situation, so far as Mr. Long and his services are concerned, is a deadlock, and he has brought suit against the city for his commission on both schemes.

The WORLD OF BUILDING

The Labor Situation.

A meeting that is expected to have a very important bearing on the present regretable condition of affairs in the building trades was in session last evening. From the action which it was thought would be taken at this meeting,—the decision not having been announced at the hour of going to press,—it is confidently expected that the strikes and lockouts will be brought to an end within a week or ten days.

In contradiction of a report generally circulated, the Record and Guide is positively informed that the Bricklayers did NOT decide not to work in company with non-union men. Three of the eleven unions in Manhattan voted not to work with men of that class, but the others voted to adhere to the Arbitration plan, and the majority rules. This determination on the part of the Bricklayers was a great disappointment to the Stone Cutters and others who have been carrying on the fight against the employers' arbitration plan; for, as one of the Alliance leaders had said: "If the Bricklayers will help us, we will win."

Among the bricklayers, as in every other union, there is a party always eager to wage war against the principle of arbitration, but the majority, taking the advice of representatives tried and true, said, "No, we have made an agreement with the employers for eighteen months on the Arbitration basis, and we mean to stick to it. But we think something ought to be done to bring about a settlement of disputes in certain other trades, or else our trade may have its work interfered with."

The meeting of Bricklayers last night consisted of the members of the Greater New York Executive Board, representing twenty-one unions, two of these being stone masons' unions, which are now affiliated in the same national body as the Bricklayers. The question of first importance before the board was a resolution introduced at a previous meeting, demanding that the Board of Governors of the Building Trades Employers' Association convene a meeting of the General Arbitration Board to settle the present troubles. If this demand is granted it means peace within a few days, so far as the resumption of work is concerned.

The General Arbitration Board is made up of the representatives of every trade, including journeymen as well as employers, and is supposed to be all-powerful. One of its first acts would be to order all strikes and lockouts off, pending arbitration; then to proceed to a consideration of the matters in controversy, which are expected to include some revision of the fundamental law, whose processes seem in practice too slow to be satisfactory to all interests, and too easily disregarded for the good of real estate interests at large.

As the Employers' Association had already decided to call a conference to revise the Arbitration Plan, the request of the Bricklayers may not be disagreeable to grant. The only matter likely to interfere is that negotiations for peace are already in progress in all the trades, save one, which have been at war. These negotiations are being conducted on the part of the individual unions and the employers in each trade, and have been going on all this week, and are very likely to terminate successfully. On Friday a meeting between the plumbers and their employers was said to be in session. This trade has been one of the most persistent in fighting the employers, and the Governors have said they would never recognize the old union again. The latter has built a Chinese wall around itself by refusing to affiliate with any national body or recognige the cards of outside plumbers' unions, and now, unless its members can make terms, they may be slaughtered with their own weapon.

Conferences are also being held between the striking stone cutters and their employers, though this trade is not a party to the General Arbitration Plan. Also, between the marble cutters and their employers, who are expected to reach an agreement so that work may be resumed next week. "I believe another week will show a considerable clearing up of the situation," said President Nason of the Alliance Board. It is understood that the Building Trades Alliance will not force itself as a body into any negotiations for peace that may be brought about.

The number of men actually thrown out of work by the lockout, and still unemployed, is hard to determine. A great many of the locked-out have found something to do, and somehow the owners in a number of cases have taken things in hand. A large number of mechanics have signed the arbitration plan individually, and have been put to work, including about seven hundred carpenters, a new union of electrical workers and a union of plasterers. In spite of serious reports, the idea is general that the condition of affairs might be much worse. In Brooklyn and the Bronx work is brisk.

Building Operations.

Elevator Apartment for 114th Street.

114TH ST.—The Central Building Improvement and Investment Co., of 587 Lenox av, will erect a 6-sty high class elevator apartment house, 125x87.11 feet in size, on the north side of 114th st, 225 feet west of Broadway, at an estimated cost of $200,000. Designs call for 4 apartments on a floor, limestone and brick, elevator, steam heat, electric light, marble and tile work, hardwood trim, etc. Henry Fouchaux, of Broadway and 162d st, is preparing the plans, and states that estimates will be taken in about four weeks.

Flushing Armory Plans.

Capt. John F. Klein, of the Seventeenth Separate Company, of Flushing, has received the plans for the new state armory to be erected on the site of the Quaker Meeting House on Broadway, in that town. The building will be 100x192, and will be built of brick, with stone trimmings, and will contain the usual features, including shooting-range, bowling alleys, reading and billiard rooms and officers' and company rooms. Bids have not yet been advertised for.

Roman Catholics of Ozone Park to Build.

OZONE PARK, L. I.—The Roman Catholics of Ozone Park have acquired a strip of land for a building site on Broadway, between McCormack and Wyckoff avs, extending back to Liberty st, on which they will erect a church, priests' house, and a seminary for young girls, which will be in the charge of the Grey Nuns, a French sisterhood. The Rev. R. M. Le Clair, M. C. M., and Bishop McDonnell, of Ozone Park, have the matter in charge. So far as can be learned, no plans or architect have been selected.

New Factory for Brooklyn.

HENDRIX ST., Brooklyn.—Michael Cooper, a manufacturer of wrappers and sacques, with headquarters at Nos. 29 and 35 West Houston st, Manhattan, has just purchased from the Linton Park Realty Co. the plot 100x100 feet, on the southwest corner of Hendrix st and Dumont av, Brooklyn, on which he proposes to erect at once a modern factory building. The new enterprise will give employment to over 500 hands. On the remaining lots on the same block it is proposed to build a number of dwellings for the employees. No architect has been selected.

Borough of Queen's New Hall.

Plans are now before the Art Commission for a new borough hall for the Borough of Queens, which will be erected on the plot of land on Thomson av, recently acquired by the city.

The new structure is to be large enough to furnish accommodations for all departments of the borough government and branch offices of other departments in the borough. Those offices at present situated in Jamaica, will move into the new building. The plot of land is such that the building, in order to be large enough, will have to stand broadside to Thomson av, and will be in close proximity to the Long Island and Pennsylvania tunnel tracks. It is estimated that a suitable building will cost fully $400,000. Nothing can be learned of the details of the plans, the character of the building and materials to be used until after the Art Commission has made a report.

Another 34th Street Change.

34TH ST.—Charles E. Birge, architect, of No. 5 West 34th st, has completed plans for a 12-sty mercantile building to be erected at No. 29 West 34th st for Mrs. Elizabeth A. Wilcox, of 85 Ocean av, Jersey City. The plot, 25x98.9 in size, is now occupied by a 4-sty and basement brownstone front dwelling of the high-stoop type already partly given over to business uses. The new structure will be of skeleton steel construction, with a front of Indiana limestone, enamel brick and terra cotta. It will contain elevators and electric lighting and steam heating apparatus. The ground floor will be used as a store, the upper floors being devoted to offices and lofts. Ranald H. Macdonald & Co., of No. 5 West 31st st, agents for the building, will be the general contractors, receiving all estimates and issuing all sub-contracts. The structure is estimated to cost $125,000. This is the latest development in the transformation of 34th street, destined to be for many years an active business thoroughfare. The new building will adjoin on the west the new home of the North River Savings Bank, for which plans are now being drawn by Mr. Birge, and on the east a modern mercantile building of five stories. Still further east the excavation is being dug for the new 11-sty Revillon building, and it will be recalled that Adolph Frankfield & Co., jewelers, have their new building under way opposite at No. 38. The Goldsmith building, the Thirty-fourth Street National Bank building, the Century building, and the Knickerbocker Trust Co.'s new structure complete the list of recent improvements for this block.

Tested—Test No. 1.

Last Week we spoke here of Tests in General.

Let us Now refer to just One Particular Test of "Hecla Fireproofing."

It was made at the Testing Laboratory of the Department of Mechanical Engineering, Columbia University, City of New York. Clearly there could be no better place, nor one more likely to guarantee, even to the sceptical, the Completest Scientific Confidence.

It was conducted by Professor Ira H. Woolson, E. M., and the following statement of facts is taken from his carefully detailed report:

Object of the Test.—To ascertain the effect of the continual application of fire to one side of "Hecla Fireproofing" for one hour, maintaining a temperature of 1700° F. or over for the last 30 minutes of the period, then removing the specimen and immediately plunging it under a ¾-inch stream of cold water at practically 60 lbs. of pressure. At same time to note the transfer of heat through the specimen of conductivity.

Character of Samples Tested.—The test sample was a white block 1 foot square and 3¼ inches thick. The top or wearing surface of the block was composed of a layer ¾-inch thick of white "Hecla Fireproofing"; this was laid upon a 2½ inch "Hecla Fireproofing" backing, and formed with it a solid block. The backing was composed of ordinary "excelsior" wood or fiber used for packing, combined with "Hecla Fireproofing" mixture, the whole pressed into a block and dried.

Method of Tests.—The sample was first laid with the smooth surface of the "Hecla Fireproofing" down over a 6-inch furnace with strong air blast, and directly beneath the sample was placed the couple of a Le Chatlier pyrometer by which the heat applied was accurately and continuously measured. The test was started at about 600° F. and gradually raised for 15 minutes, when it was about 1700° F. The temperature was maintained at 1700° F. to 1800° F. for 35 minutes, then rapidly raised during the remaining 15 minutes of the hour with a final record of 2485° F. No attempt was made to maintain a constant heat through the middle portion of the test. It sufficed if the average was between 1700 and 1800 degrees.

To measure the conductivity of the material, a thermometer was placed upon the top side of the sample, directly above the furnace fire with the bare mercury bulb resting upon the sample, and suitably protected from the surrounding heat. A maximum of 60° was recorded.

At the end of the heat test the sample was removed from the fire, and the red hot portion plunged under a strong ¾-inch stream of cold water.

Condition of Specimen after Test.—About ¼-inch of the "Hecla Fireproofing" covering was washed away by the force of the water on the calcined material. The remaining portion of the "Hecla Fireproofing" partially charred and softened, and about ⅛-inch of the backing was in the same condition, so the total depth to which the block was effected by the test was ⅞ of an inch. Beyond this burned layer, the material seemed to be uninjured. *No cracks were produced.*

It is thus that "Hecla Fireproofing" stood a Maximum Temperature of 2485° degrees!

BROOK AV., Bronx.—James E. Ware & Son, 1170 Broadway, are preparing plans for a 6-sty flat, 95.3x26.1, to accommodate 21 families, for August F. Schwarzler, 18 East 90th st, to be situated on the west side of Brook av, 100 feet south of Wendover av, Bronx, at a cost of $28,000.

CLINTON AV., Bronx.—Moore & Landsiedel, 148th st and 3d av, are making plans for three 5-sty brick flats, 2, 38x93, and 1, 35x90, to be built on the southeast corner of Clinton av and 170th st, Bronx, for Wahlig & Sonsin, of 1353 Boston rd, at an estimated cost of $150,000.

74TH ST.—Geo. Fred. Pelham, 503 5th av, is making plans for a 6-sty 27-family flat building, 62x59.7¾, for A. Forman and Geo. Aronson, of 431 East 80th st, same to be erected at Nos. 421 and 425 East 74th st, at a cost of $65,000.

UNION AV., Bronx.—Moore & Landsiedel, 148th st and 3d av, are making plans for four 5-sty brick flats, each 37.6x88, to be built on the east side of Union av, 171.10 north of 161st st, Bronx, for the Union Avenue Realty & Construction Co., of 7 Pine st, at an estimated cost of $140,000.

Dwellings.

MORRIS PARK AV., Bronx.—Chas. Gillis, of Morris Park av, will build on the north side of Morris Park av, 96 feet east of Graham st, Bronx, two 3-sty frame dwellings, 24x53.6, at a cost of $9,000. Gustav Schwartz, of 554 East 158th st, is the architect.

Estimates Receivable.

137TH ST.—Arthur Arctander, 520 Willis av, is ready for estimates on a 5-sty brick academy, 35x80, to be built on the north side of 137th st, 175 feet west of Alexander av, Bronx, for the Ursuline Academy, of Bedford Park, Bronx. The estimated cost is $40,000. There will be all the usual modern improvements, and much copper will be used for bay window projections.

40TH ST.—Mulliken & Moeller, 7 West 38th st, have plans ready for the 5-sty factory building, 25x95 feet in size, for B. Holzman, of 2d st, near Union av, Bronx, which will be erected at No. 406 East 40th st, at a cost of $15,000. Slag roof, low pressure steam, brick and frame.. No contracts have been let.

110TH ST.—Rouse & Sloan, 396 Broadway, have plans completed for $5,000 worth of improvements to No. 54 East 110th st, for George Marinus, of 230 Duffield st, Brooklyn. The work consists of adding a 1-sty front extension, 16.8x44.10 feet. The contract has not been let.

LEROY ST.—Carrère & Hastings, 28 East 41st st, are now ready for bids, on the 3-sty 56x104 foot fireproof Carnegie Library, No. 28, for the city of New York, which will be erected at No. 68 Leroy st. William W. Appleton, is chairman of the committee, and Dr. John S. Billings is a director.

SOUTH ST.—Max Muller, of 3 Chambers st, will take bids in about two weeks for the 5-sty concrete, brick and stone stable building, 25x145.6, for Paul Viane, of 46 Beekman st, to be erected at No. 212 South st and 415 Water st, at a cost of between $20,000 and $25,000.

By the Department of Parks, Sept. 22d, for erection and completion of the library stack work in the New York Public Library, Astor, Lenox and Tilden foundations, 5th av, 40th and 42d sts.

By the Commissioner of Docks, Tuesday, Sept. 13th, for building a third-story addition to the inner end of the building on Pier "A," N. R., and for making alterations and repairs to present building incidental thereto; also, for furnishing and delivering about 10,000 barrels of Portland cement.

By the Armory Board, Sept. 15th, for making and completing the repairs and alterations to the several armories of the organizations of the N. G., N. Y., in the Boroughs of Manhattan, Brooklyn and Queens, as follows: No. 1, Squadron "A" Armory; No. 2, Armories of the Eighth Regiment, Twelfth Regiment, Twenty-second Regiment, Squadron "A," in Manhattan; Fourteenth Regiment, and Twenty-third Regiment, in Brooklyn; Seventeenth Separate Company in Queens.

By the President of the Borough of Manhattan, Wednesday, Sept. 14th. No. 1, for the erection and completion of a public comfort station (excepting the plumbing and gasfitting) at the intersection of East Broadway and Grand st, Manhattan; No. 2, for the erection and completion of the plumbing and gasfitting for a public comfort station at the intersection of East Broadway and Grand st, Manhattan.

Bids will be received by the Department of Education, Monday, Sept. 19th, as follows: For the general construction, also plumbing and drainage, of new Public School 85, on the southwest corner of 117th st and 1st av, Manhattan. Sanitary work of additions to and alterations in Public School 15, on the northerly side of East 4th st, about 256 feet westerly of Avenue D, Manhattan. Forming classrooms on fifth story of Public School 188, Manhattan, East Houston, Lewis and East 3d sts, Manhattan. Installing, heating and ventilating apparatus for addition to and alterations in Public School 11, on the west side of Ogden av, between East 169th st and Merrian av, Bronx.. General excavation and construction, item 1, also plumbing and drainage, item 2, of new Public School 43, westerly side of Brown pl, between 135th and 136th sts, Bronx. Sanitary work and gasfitting of two additional stories to Public School 130, on south side of Fort Hamilton av, between Ocean Parkway and East 5th st, Brooklyn. Installing heating and ventilating apparatus in new Public School 80, on the west side of West 17th st, 145 feet south of Neptune av, Brooklyn. Installing, heating and ventilating apparatus in addition to and alterations in Public School 132, on the south side of Conselyea st, corner of Manhattan av, Brooklyn. Installing electric equipment in new Public School 112, on the southerly side of 15th av, between 71st and 72d sts, Brooklyn. Sanitary work at Bryant High School, on northerly side of Wilbur av, between Academy and Radd sts, Long Island City, Queens.

JOHNSON CITY, Tenn.—Sealed proposals will be received at the office of the National Home for Disabled Volunteer Soldiers, 346 Broadway, New York, N. Y., until 12 o'clock m. Friday, Sept. 30, 1904, and then opened, for furnishing materials, labor, etc., for the construction of a Memorial Hall at the Mountain Branch, N. H. D. V. S., near Johnson City, Tenn. Plans may be seen, and copies of instructions and specifications, together with blank proposals and other information had, upon application to the architect, J. H. Freedlander, 244 5th av, New York; to the Superintendent of Construction, Mountain Branch, Johnson City, Tenn.; and to Moses Harris, General Treasurer, 346 Broadway, New York.

Contracts Awarded.

125TH ST.—Hermanny & Son, of 479 St. Ann's av, Bronx, have obtained the contract for improvements to the 5-sty store building, No. 335 East 125th st, for John Baltes, on premises. Gerber & Zimmermann, 287 4th av, are the architects.

The Knickerbocker Construction Co., of 15 Cortlandt st, New York, has obtained the contract for the installation of 5,000 feet of underground cable for the Buffalo, N. Y., fire department. The cable is being manufactured by the American Electrical Works, of Phillipsdale, R. I., and 26 Cortlandt st, New York.

The Board of Education has awarded the following contracts for work in public schools: For the erection of temporary buildings on the southerly side of Manhattan approach to the Williamsburgh Bridge; No. 1, to William Werner, at $14,354, and Nos. 2, 3, 4, 5, and 6 to Edmund D. Broderick, at a total of $72,500. Under the contracts the buildings must be completed within sixty days. In the six buildings, which are to be constructed, one on each block, between Ridge and Goerck sts, on the southerly side of the approach, there will be forty-one class rooms with a capacity of 2,050 children. The buildings will be constructed of brick and stone and contain every improvement, for they will be in use, it is expected, at least five years. For sanitary work in School No. 24, Manhattan, the contract was awarded to H. P. Mills & Bros., at $9,230. Heating and ventilating in No. 146, Brooklyn, to the James Curran Mfg. Co., at $31,750, and sanitary work in School No. 37, Bronx, to William C. Ormond, at $16,780.

Mercantile.

Work is to begin this month on the large freight terminal that Arbuckle Bros., foot of Jay st, Brooklyn, will build, adjoining their coffee warehouses on the East river from Jay to Bridge sts. The cost is estimated at over $1,000,000. The improvement includes the erection of a 7-sty warehouse, 350x125; a slip, able to receive the largest car float serviceable, and the laying of many new car tracks.

Miscellaneous.

19TH ST.—Estimates are all in and the contract will be let in a few days for the 6-sty storage building, 50x75 feet, for the American Carbonate Company, which will be erected in East 19th st, Nos. 436 and 438. The cost is placed by Julius Kastner, of 1133 Broadway, at $50,000. The officers of the company are: August Mictz, of No. 30 Mount Morris Park, president; Edward F. Hassey, 46 West 75th st, treasurer; and Emil Rueff, of No. 30 Mount Morris Park, secretary.

Any one passing through 42d st cannot fail to observe the front of the Lincoln Safe Deposit Co.'s building covered, as it is,

with scaffolding throughout its full height. The actual work of altering the building is finished, however, the scaffolding remaining merely for clearing down the front and for some painting. The building covering six lots in 42d st, between Park and Madison avs, was originally 7 and 8 stories high, and 9 stories in 41st st where it also covers six lots. The entire structure, which is used as a storage warehouse, has been raised to the height of 11 stories, and elevators, stairways and partitions have been extended to this level. The plans were drawn by William B. Tubby & Bro., architects, of 81-83 Fulton st, and the masonry work was done by John Thatcher & Son, 45 East 41st st, the iron work by the Cooper-Wigand-Cooke Co., of 152-154 West 34th st.

McKim, Mead & White, 160 5th av, will plan and design a new casino for Saratoga Springs, to be built at Congress Park and to be completed for the summer racing season of 1905. Preliminary sketches have not been started, though the architect's surveyors have already made a careful map of the property. Thus far $160,000 have been subscribed toward the project. Among the prominent men interested are Clarence H. Mackey, James R. Keene, John W. Gates, Charles G. Gates, Wm. S. Fanshawe, Spencer Trask, Harry Payne Whitney, and August Belmont.

The plans of Messrs. Whitfield & King, of 160 5th av, for the Engineers' Club to be erected in West 40th st, are expected to reach completion in about a month's time. The old brick dwellings on the site, Nos. 32-34, are being demolished by the F. M. Hausling Co., of 620 East 14th st, and the plot will soon be clear. The plot has a frontage of 50 feet and a depth of 98.9. The building will cover the entire space with the exception of a court on the west side. It will be 12 stories with a basement and subbasement. The Engineering building, plans for which are being prepared by Herbert D. Hale, of Boston and New York, is to occupy the plot at Nos. 25 to 33 West 39th st, in the rear of the Engineers' Club, and the work of removing the old dwellings is almost completed. Both structures are expected to be finished early in 1906.

Government Work.

Bids will be received by Lieut-Col. C. E. Powell, Corps Engrs., U. S. A., New London, on Sept. 17, for dredging at Milford Harbor, Conn.

Bids will be received Sept. 27 at the Bureau Supplies and Accounts, Navy Department, for furnishing at the navy yards, Norfolk, Va., New Orleans, La., and Mare Island, Cal., about 218 tons wrought iron; flat, round and square; and 1,435 tons steel, comprising bars, shapes, plain and galvanized plates, etc. H. T. B. Harris, Paymaster-Gen., U. S. N.

By Treasury Department, Washington, D. C., until October 12 at 3 p. m., for the construction (including plumbing, heating apparatus, electric wiring and conduits) of the U. S. post office at Found du Lac, Wis.; until Nov. 7, at 3 p. m., for a mechanical ventilating apparatus and changes in connection therewith for the U. S. Treasury building, Washington, D. C., in accordance with the plans and specification therefor, copies of which may be had of James Knox Taylor, supervising Architect.

Bids were opened at the Navy Department at Washington, Sept. 3, for the construction of a new dry dock at the New York Navy Yard, for which an appropriation of $1,000,000 was made last winter by Congress. The lowest bidder was George B. Snearin, New York, at $673,292. The next lowest bid was that of John Peirce, of the same city, at $833,000, and the others ranged from that figure to $996,400. This is the second time bids have been advertised for, as only one bid was received the first time, and that exceeded the appropriation. In order to secure offers below the million mark, the proposed length of the dock was reduced by one hundred feet, and bids were again advertised, to be opened Aug. 27. Several would-be bidders failed to get their figures in in time, and they requested an extension. The time was accordingly extended one week. The work will be done under the general supervision of the Department of Yards and Docks.

Suburban.

CLIFTON, S. I.—H. A. Hasenstein, 28 and 32 Whitehall st, New York, is preparing plans for a 2-sty brick and stone office building, 28x150, for the Bachmann Brewing Co., of Clifton, S. I., to be erected here. There will be steam heat, electric light, mosaic floors, parquet and cabinet work. The building will cost about $15,000.

Of Interest to the Building Trades.

The Bureaus of Supplies for the Public Schools, for all boroughs, have been consolidated into one, which is in 68th st, between Avenue A and First avenue, Manhattan.

The building tendency in the Bronx is altogether for flats, and not for two-family houses. Evidently the Bronx is destined to be another Manhattan, and not another Queens or Brooklyn.

Erisman & Meyer are a new firm of architects, at 427 Woolworth Building, Lancaster, Pa., and they would be pleased to receive catalogues and samples from material manufacturers and dealers.

A civil service examination to secure eligibles for a position as electrician in the United States court house and post office at Brooklyn, N. Y., will be held in that city on Sept. 21. The position pays $1,000 a year.

The New York Contracting Co. has got on to its job, having three steam shovels and a few men at work excavating for the Pennsylvania railroad station. Thus far the soil is being carried to the river in wagons.

The St. Regis, the latest thing in Astor hotels, opened its doors this week to the public. A detailed description, with many illustrations, of this elegant house will be found in the "Architectural Record Magazine" for June.

The total loss in the Baltimore conflagration of Feb. 7 is now set at $30,500,000. The general loss committee organized by the underwriters has adjusted 3,788 separate claims, on which the total insurance paid was $29,074,358.

The Northern Electrical Manufacturing Co., Madison, Wis., has issued a little booklet describing its exhibit at the World's Fair, St. Louis. This company is exhibiting there a large line of dynamos and motors adapted to different purposes, its exhibit of electrically driven machine tools being particularly interesting.

Over on West 23d st, north side, 125 feet east of 11th av, a two and three-story office and storage building has been started for the United States Express Co., from plans by Ernest Flagg, of 35 Wall st. The site is being excavated and foundation walls are being laid. It adjoins the new Dominick & Hoff building recently completed.

The Carnegie Branch Library Committee report that the Brooklyn Library trustees and the Board of Estimate and Apportionment have approved as a site for the new Prospect Branch Library, the plot on the east side of 6th av, running from 8th to 9th sts, South Brooklyn. R. F. Almirall, of 51 Chambers st, New York, is the architect, and Engineer Frank Sutton, of 82 Wall st, will have charge of heating and ventilating.

It will be impossible now to open Public School No. 165, in Manhattan, in September. This school will accommodate 800 pupils when it is finished. The other schools of the city that are now suffering from the strike are Nos. 24, 57, 106 and 110, in Manhattan; No. 112 and the Commercial High School, in Brooklyn; Nos. 39 and 65, in The Bronx, and No. 26, in Richmond.

The subway power house, at the foot of West 59th st, is near enough done to furnish all the power needed for the opening of the road, which will be about the 15th of October. The tunnel under the Harlem was finished last week, and tracks are now being laid through it. Duncan McBean was the builder, and the tubes extend from 144th st, Manhattan, to near Girard av on the Bronx bank. The wonderful road is almost done; the hopes of generations are about to be realized.

On the northeast corner of 7th av and 15th st work is under way on the 7-sty publishing house for Street & Smith, of 238 William st, to be erected from the plans of Henry Kilburn, 156 5th av. The excavation has been dug, plank retaining walls have been placed as the soil is sandy, foundation walls and pier footings are being laid, and some steel columns are in place. The cost of the structure is estimated at $225,000. It is an innovation for this neighborhood.

Voigtmann & Co. have removed from 8-12 Jones st to 430 West 14th and 427 West 13th sts. The removal to larger quarters is important as showing their need of increased facilities for manufacturing their several specialties in hollow metal windows for carrying wire glass. These windows are being very generally adopted in building operations, attributable in a large degree to the preferences over the commonly used window in combination with the iron shutter, as expressed and demonstrated by fire insurance underwriters in their rating.

Work has begun toward repairing the damage done to the Germania Life Insurance Co.'s building on the southeast corner of Cedar and Nassau sts by the settling of the foundation along the easterly line. It is probably due to defective underpinning during the construction of the adjoining structure, that of Harvey Fisk & Son, recently completed. The settling is quite apparent, and ugly cracks in the wall are visible, but it is stated that no serious damage was done to the main body of the building.

In Other Cities.

NEW HAVEN, Conn.—The entire contract for the building to be erected on Chapel st, by the Knights of Columbus, has been awarded to the Connor Brothers' Construction Co. of Lowell, Mass. It will be a 4-sty building of fireproof construction. The heating will be by steam. The two passenger elevators are to be let by separate contract. Faxon & Wright, of Boston, are the architects.

BALTIMORE, Md.—Mr. Henry Walters, Mt. Vernon pl, Baltimore, has commissioned Architects Delano & Aldrich, 9 East 61st st, New York city, to prepare plans for his large new art gallery to be located at the northwest corner of Charles and Centre sts.

ITHACA, N. Y.—The Board of Supervisors have adopted the recommendations of the building committee that a new county building be erected in this city, at a cost not to exceed $200,000. Members of the building committee are Eugene Terry, chairman; R. N. Mount, W. H. Baker, H. C. Fairbanks and J. H. Hine.

COLUMBUS, O.—The Baltimore & Ohio R. R. Co., Baltimore, Md., will soon have plans ready for figures for a new freight depot, to be erected at Columbus; $300,000.

BINGHAMTON, N. Y.—The Erie R. R. has made plans for a freight depot, in this city. Two stories, 50x100 feet, brick; $15,000.

THE GREAT MARKET
FOR
Guaranteed Mortgages

This company organized and established the business and during the past twelve years has furnished $140,000,000 of guaranteed mortgages to all classes of investors without the loss of a dollar to any one of them.

It has grown stronger with every additional risk taken and steadily increased its surplus from accumulated earnings, the only way in which an insurance company can keep strong.

It recognizes the fact that wise provisions in a policy protect the insured and that too sweeping contracts of guarantee are the worst a policy holder can have, in his own interest. He does not wish the company insuring him embarrassed by reckless promises to some one else, but wishes it to be safe and sound when he needs to have it respond to him.

Notice to Taxpayers.

Department of Finance, Bureau for the Collection of Taxes, New York, September 1, 1904.

TAXPAYERS WHO DESIRE TO OBTAIN their bills promptly should make immediate written requisition (blanks may be procured in the borough offices), stating their property by Section or Ward, Block and Lot or Map number, making copy of same from their bills of last year.

If a taxpayer is assessed for personal tax, the requisition should also request bill for such tax.

Each requisition should be accompanied by an envelope bearing the proper address of the applicant, AND WITH RETURN POSTAGE PREPAID.

In case of any doubt in regard to Ward, Section, Block or Lot number, taxpayers should take their deeds to the Department of Taxes and Assessments and have their property located on the maps of that Department and forward to the Deputy Receiver of Taxes with the requisition a certified memorandum of their property, which will be furnished by the Department of Taxes and Assessments.

Taxpayers in this manner will receive their bills returned by mail at the earliest possible moment and avoid any delay caused by waiting on lines, as required in case of personal application.

The requisition must be addressed and mailed to the Deputy Receiver of Taxes in whichever borough the property is located, as follows:

JOHN J. McDONOUGH, No. 57 Chambers street, Borough of Manhattan, New York.

JOHN B. UNDERHILL, corner Third and Tremont avenues, Borough of The Bronx, New York.

JACOB S. VAN WYCK, Municipal Building, Borough of Brooklyn, New York.

FREDERICK W. BLECKWENN, corner Jackson avenue and Fifth street, Long Island City, Borough of Queens, New York.

JOHN DE MORGAN, Bay and Sand streets, Stapleton, Staten Island, Borough of Richmond, New York.

After receiving the bills, the taxpayer will see that they are properly rebated, then draw check for the net amount to the order of the Receiver of Taxes and mail bill and check, with an addressed envelope, with the return postage prepaid, to the Deputy Receiver in whichever borough the property is located.

Checks should be mailed as soon as possible after the bills have been received by the taxpayer.

All bids paid during October must be rebated before payment.

DAVID E. AUSTEN,
Receiver of Taxes.

CONVEYANCES.

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d —B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A $20,000—$30,000 indicates the assessed value of the property, the first figures being for the lot only and the second figures representing both lot and building. Letter P before 2d figure indicates that the property is assessed as in course of construction.

September 2, 3, 6, 7 and 8.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

September 2, 3, 6, 7 and 8.

The Private Branch Exchange System of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

Buildings Projected in Other Cities.

(Continued from page 534.)

NEW HAVEN, Conn.—Bishop Tierney will lay the cornerstone of the new church of St. Joseph's parish Sunday, Sept. 11, in the presence of many prominent churchmen and laymen. The church is to be erected at a cost of $75,000, and will have a seating capacity of 1,100.

CHICAGO, Ill.—The largest apartment house building project in the history of the North Side is now being undertaken by William H. Barry, the builder. It involves altogether an expenditure of about $2,000,000, of which amount $1,500,000 will go into buildings and $500,000 into land. On this land he proposes to erect 104 apartment houses. The buildings will be principally three stories high, fronting 40 to 50 feet, and about 70 feet deep.

BATAVIA, N. Y.—Although definite orders have not been issued by Bishop Colton, of Buffalo, it is understood that a new Roman Catholic church will be erected in Batavia, for the use of the Polish and Italian members of St. Joseph's parish, in the near future.

BALTIMORE, Md.—N. S. Hill, chairman, St. Paul st, near Pleasant st, Edward L. Bartlett of Bartlett, Hayward & Co., Wilson Building, Charles and Saratoga sts, and H. C. McComas, 536 Light st, have been appointed a building committee in charge of the erection of the new clubhouse for the Merchants' Club to be located on its old site on German st, after plans and specifications by Sperry, York & Sawyer, architects, Builders' Exchange Building, 2 East Lexington st.

FAIR HAVEN, Mass.—It is stated that a new hotel will be built at Fair Haven, Mass., near New Bedford, by H. H. Rogers, of the Standard Oil Co. It is to cost $100,000, the plans having been drawn by Charles A. Brigham, of 8 Exchange st, Boston.

SOUTH M'ALESTER, I. T.—E. P. Williamson, of Krebs, I. T., has secured contract for the erection of the Busby Hotel, after plans and specifications by McKibban & McKibban, architects, Homestead Building, Muskegee, I. T. Structure will be 140x150 feet, 4 stories high, and will cost about $100,000.

CLIFF HAVEN, N. Y.—Rev. F. M. McGuinness, of St. Paul of the Cross Church, and John F. Lynch, of Grove st, Jersey City, N. J., are leading a project to erect a $20,000 hotel at Cliff Haven, Clinton County, N. Y., the hostelry to be known as "The New Jersey Cottage," and to be ready for guests May 15, 1905. The company is to be capitalized at $50,000. Architect E. S. Child, of 60 New st, New York, has prepared the plans.

SUTTON, Va.—Holmboe & Lafferty, architects, of Clarksburg, Va., have been commissioned to prepare plans for a new county jail and sheriff's residence to be erected in Sutton, Va.

NASHVILLE, Tenn.—The Russell Street Cumberland Church, of Nashville, Tenn., will soon make arrangements to build a new church to cost $25,000.

POLLACKSVILLE, N. C.—A modern new schoolhouse will soon be erected at Pollacksville, N. C. Address the school commissioners.

SAVANNAH, Ga.—The Westminster Presbyterian Church, of Savannah, Ga., will erect a handsome new building to cost $50,000. Rev. W. A. Nisbet is pastor.

JACKSONVILLE, Fla.—W. B. Camp has plans for a 3-sty and basement brick business block for Brinkley & Bains to cost $20,000 (plans ready for estimates); 2-sty frame residence for W. Q. Sperring, to cost $3,000; frame residence for B. T. Mayo, to cost $2,500, and a 2-sty brick business block for C. W. Perkins, Tallahassee, Fla., to cost $10,000.

BALTIMORE, Md.—Plans have been completed by Architect J. Appleton Wilson, 303 Courtland st, for a 3-sty banking house to be erected at 216 East Baltimore st, for Wilson, Colston & Co. The building will have a frontage of 20 feet, with a depth of 95 feet. The front will be of terra cotta to the second floor, above which it will be red brick.

BALTIMORE, Md.—Charles E. Cassell & Son, 411 North Charles st, have plans for the Merchants and Miners' Transportation Co.'s new building, on the corner of Light and German sts. The structure is to be 4 stories and basement high. It will have a granite base and the rest of the exterior will be of brick and terra cotta. The main entrance to the building is very ornate and has a massive appearance. The interior partitions will be of solid metal cement. The first floor will be fireproof throughout. The building will be equipped with steam heat, electric elevator, modern ventilators and both electric and gas lights.

HORNELLSVILLE, N. Y.—The contract for the new Masonic Temple, plans and specifications for which were made by Architect J. H. Considine, of Elmira, has been awarded to Contractor William H. Spink, of Hornellsville, for $6,900.

ROME, N. Y.—Those who are taking steps toward the erection of a new opera house, have received from Architect Leon Lempert, of Rochester, the working plans for the proposed theater. The matter will now be brought before the Citizens' League and Employers' Association.

ROCHESTER, N. Y.—Foote & Headley, Cutler building, have plans for a new morgue to be attached to the penitentiary and almshouse.

CINCINNATI, O.—Plans for the memorial hall of the Hamilton County Memorial Association are in progress and the architects, Samuel Hannaford & Sons, will have the plans ready for submission to the Board of Managers within the next thirty days. The Board of Public Service will erect nine new engine houses for the accommodation of the proposed new fire companies. Plans for these structures are being drawn and work will commence within a short time.

JUNCTION CITY, Tenn.—The congregation of the Presbyterian Church of Junction City, Tenn., will build a handsome new church at an early date.

ELMIRA, N. Y.—Although it cannot be announced that this city is to have a new theater, it can be said appearances indicate that there will soon be something done in that line. W. F. Spiegel, a local junk dealer, has taken a contract to remove all the old iron from the ruins of the Lyceum Theater. This may be intrepreted to mean that the ruins are to be cleared away and made in readiness to lay the foundation for a new building. Colonel Robinson, of Elmira, is the owner of the property.

ATLANTA, Ga.—The Chandler Investment Company, of Atlanta, Ga., will soon erect a handsome 17-sty office building here, to cost about $600.000. It will be modern in every way.

CONVEYANCES

Whenever the letters Q. C. and C. a. G. are preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all right, title and interest of the grantor is conveyed, omitting all claims and warranty.

2d.—C. a. G. means a deed containing a Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

JUDGMENTS

In these lists of Judgments the names alphabetically arranged and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real names being unknown. Judgments entered during the week and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

The Judgments filed against corporations, etc., will be found at the end of the list.

"Entered at the Post Office at New York, N. Y., as second-class matter."

Vol. LXXIV. September 17, 1904. No. 1905

THE stock market has shown unmistakable signs during the past week of having been worked up into an overwrought condition. The transactions were very large; the changes in prices considerable and dependent chiefly upon speculative conditions, and there was every evidence of manipulation on a large scale. It has looked very much as if the speculators who have been responsible for the advance have been getting rid of their stocks as fast as they could, and that as soon as the operation was completed the stock market would be deprived of the support, which has been chiefly responsible for the recent rise in prices. On the other hand there has been evidence, also, of a more general interest in stock exchange speculation than has been apparent for some time. On the whole, however, we cannot believe that the existing market can run its course much further without bringing about a sharp reaction. Bankers have every reason to discourage a top-heavy speculative movement, which would simply prepare the way for another collapse. It was all very well to run prices up to a point which was justified by the earning power of railroad and industrial corporations; but there is no excuse for running them up any further. Business prospects are better it is true; but they are not so much better as to warrant the belief that the railroads or the industrials will earn any more money than they have been doing. On the contrary the general conditions are of a kind to act as a drag upon business activity and prospects. Commodities, which enter into general consumption, like wheat and cotton, are high, and wages are high also. The foreign trade of the country is not likely to be profitable or large. Bankers cannot depend upon the same large foreign credits, and this will have its reaction upon the domestic money market. In short it is time for conservatism, for slow and wise readjustments; and a revival of unwholesome speculation in securities can only be attended by eventual disaster.

ALMOST every successive week shows a seasonable increase of real estate business. During the past six days, for instance, the total number of sales reported of Manhattan and Bronx property came to over 110, against a total of about 80 for the preceding week, and a total of only 61 for the corresponding week last year. These sales contain no news of any particular importance, because all such news will naturally be either withheld as long as the lockout lasts. But they do indicate a normal and growing demand for real property in the city. The number of dwellings sold each week is increasing, the majority of them being situated on the West Side, and this is, perhaps, the most encouraging sign of all. It is encouraging because the demand for private dwellings is the best test of the popular interest in the real estate market and of the popular power of purchasing real estate. Furthermore, a good demand for private dwellings throughout the coming winter and spring will encourage builders to begin the erection of such buildings on Washington Heights, which will be a good thing for everybody connected with the real estate and building material markets. Private dwellings erected and sold in large numbers means more money for brokers, builders and material dealers, than do flats. The general conditions certainly favor a revived interest in real estate. The low prices for standard stocks and bonds which prevailed until recently diminished the general demand for real estate in several different ways. In the first place, it tempted people who had any money to invest to buy the cheap and excellent securities which were available. Then it prevented a holder of securities who might want to buy a house from selling, because he would not be able to obtain a price corresponding to the investment value of his stocks. Now, however, stocks are much less tempting to buy than they were, and they are much more tempting to sell—a fact which should have a good effect upon the demand for real estate by individual investors.

HOW long it does take to erect an important public building in New York City! The new Library and the Custom House have already been under construction for more than five years, and are still several years away from completion. As to the new Court House, it takes as long for the city or the county to decide what it wants to do as it would for a private corporation to construct a building of the same cost. The commission constituted by the Legislature for the purpose of selecting a site for the Court House and superintending the construction, have been unable to agree even upon the site, and are going to the Legislature for a change in the terms of the enabling act. The law under which they were constituted forbade them to go north of Franklin Street to find a site for the new Court House, and they wish to have this limit removed. They want to be able to select a site on Union or Washington Squares; and apparently they would have no object in seeking to abolish the restriction in the present law unless they knew that they could agree upon a site further uptown. Consequently it looks as if they had practically decided in favor of a location on one of the two squares mentioned above. It remains to be seen whether the influence of the big legal firms whose offices must necessarily remain in the financial district, will be sufficient to defeat this project; but certain it is that if the site on Chambers Street is not large enough, it would be better to seek a good site further uptown than to be content with a poor one in the district between Center Street and Broadway. The sites uptown would unquestionably have every architectural advantage; and they would have the additional advantage of increasing the beauty and interest of parts of the city which are in danger of being passed by in the march of improvement. In a city like New York where there is such intense concentration of activity in certain small areas, coupled with comparative dullness elsewhere, it is good municipal policy to distribute the public buildings, which add to the attractiveness to the business of the sections in which they are situated, and so increase the number of really interesting and lively districts. Lawyers, who were able to move, could get better offices for less rent uptown than they can downtown, while the vacancy they would leave in the vicinity of the existing Court House, would soon be filled up. Of course the Chambers Street site must eventually be improved with a public building; but it is better adapted to the needs of a municipal office building than to those of a county court house.

IN spite of the fact that there is much to criticize in the way that Mayor McClellan's administration has insisted upon drawing new plans for the Manhattan Bridge, the Municipal Art Commission has adopted the wiser course in approving the wire cable and plans and designs drawn by the present Bridge Department and Messrs. Carrère & Hastings. It should have been enough for the Commission that the new designs were as they are architecturally acceptable. The plans and designs prepared by Messrs. Lindenthal & Hornbostel were preferable; and it is too bad that they were rejected; but the present Administration wanted wire cables, and it was bound to get them. Moreover, inasmuch as its successor is likely to be of the same opinion, the refusal of the Art Commission to accept the new plans and designs would have meant that the Bridge would be indefinitely delayed in its construction; and such a delay would have been the worst of all evils that could happen in relation to it. The Manhattan Bridge will be an extremely useful structure, which is necessary to the growth of Brooklyn and which should be erected as soon as possible. The Municipal Art Commission, in case it had accepted the advice of the Municipal Art Society and appointed an engineering commission to pass upon the adequacy of the engineering plans, would have transcended its function. Its function is the negative one of not permitting the erection of ugly monuments and buildings in New York City; and as Commissioner Best's bridge will be a perfectly respectable architectural composition, there was nothing to do but to approve it. The Art Commission would become a mere obstructer of public business in case it interferes in relation to other than purely aesthetic questions.

WHAT a center of amusement New York is becoming. It will soon surpass any European city in the number and variety of the places of popular pleasure within its limits. Owing to Luna Park and Dreamland, Coney Island has begun a new and better career. The new hippodrome will introduce into the heart of the city a Luna Park adapted to the cold weather; and now another Dreamland is to be laid out at the northern end of Manhattan Island. The proposed park on the Harlem River Ship Canal will not have the advantage of the air fresh from the water or of the surf bathing which draw so many people to Coney Island; but it will have certain other merits peculiar to itself. It will be much more accessible to the people who live north of 59th St. than are the Coney Island resorts, and the

largeness of the site together with the natural beauty of land will enable the architects to plan an attractive lay-out and to multiply the opportunities for amusement. There is no reason to suppose consequently that it will not be as popular as its managers have the ingenuity to make it. These big places of popular amusement are making New York more than ever a summer resort. Just as during the winter the well-to-do people from all over the country come to the city in order to do their shopping, and attend such functions as the Horse Show, so during the summer people of moderate means flock in even larger numbers to the city for their vacations. The great and growing popularity of the vehicles which carry around the sightseers is one evidence of the interest which the city, merely as a city, provides among American residents elsewhere; and it is a striking indication of the extent to which New York is becoming in a very real sense the metropolis of the country. What draws people to New York is, of course, partly its shops, partly the unusual character of its buildings and partly the many ways it offers to its visitors for having a good time. In all these respects there has been a tremendous advance since 1900, and there is every reason to believe that the advance will be continued.

Taxes, Rebates and Penalties.

This years taxes will become due and payable October 3. At the same time they become liens upon the real estate, in accordance with the Charter provisions that taxes shall be due and payable and become a lien on the property affected on the first Monday of October of each year. The Charter also provides that anyone paying his taxes before November 1st shall receive a rebate at the rate of six per cent. per annum, from the day of payment until December 1st. Taxes paid on or after November 1st, and until December 1st, are net to the city. On and after December 1st, and until January 1st, a penalty of one per cent. of their amount is charged on unpaid taxes, and thereafter they are arrears and subject to an interest charge at the rate of seven per cent. per annum from the day upon which they become due and payable. The longest period for which the rebate can be obtained this year is 58 days, and the shortest, as is the case every year, 30 days. Col. Austin, the Receiver of Taxes, has prepared and issued for the guidance of taxpayers a calculation of the rebate per $100 which can be obtained for any part of the period during when the privilege may be obtained, which is as follows:

Activity in Thirty-Second Street.

Work is progressing on an 11-sty store, loft and office building on the northwest corner of Fifth av and 32d st for Henry Corn, of 105 Fifth av. The property which measures 65.10 on the avenue and 123.6 in the street, is owned by Mrs. Mary Bell, (care of DeWitt, Lockman & DeWitt, 88 Nassau st), and is separated from the Hotel Cambridge by a single dwelling. The old dwellings have been demolished, the excavation dug, sidewalk bridges constructed, pier footings laid, foundation walls started, and some iron columns and first tier beams have been placed. Materials for the foundations only are so far on the grounds. The structure has been planned by Architect Robert Maynicke, of 298 Fifth av, to eclipse in construction and adaptability to commercial purposes anything yet accomplished in the neighborhood. Its cost is estimated at $700,000. Some of the firms holding contracts are Charles A. Cowen & Co., masonry; Henry Hanlein & Son, cut stone; Hay Foundry & Iron Works, structural iron; J. B. & J. M. Cornell Co., architectural iron work.

The announcement in January of this improvement was the signal for activity in the block from the avenue to Broadway, and it now appears that 32d street, which has thus far maintained much of its old-time residential character, will follow the example of 31st street and before a great while be given over almost entirely to business uses. Thus far two 11-story store and loft buildings are projected for the block, both on the north side, one at Nos. 11 and 13, the other at Nos. 25 and 27. Buchman & Fox, of 11 East 59th st, have prepared the plans for both and the owners are the J. C. Lyons Building & Operating Co., and Leon S. Mendel, respectively. Work on the latter structure has not begun, the old dwellings still being allowed to stand. At the former site, however, come progress has been made. Masons and bricklayers are laying foundation walls and pier footings. This is not the initial step toward a change in the dwelling house aspect of the street as two modern apartment hotels have already been completed and three of the old low buildings have been transformed on the first and second stories into shops. It is, nevertheless, a new departure and will doubtless be quickly followed by more of its kind. One need only recall the rapid changes in the blocks immediately south of this one to forecast the future of not only this but of the blocks north as far perhaps as 40th st.

Will Use Concrete.

AGITATION TO USE STONE INSTEAD OF CONCRETE—BARGE CANAL PLANS.—THE DIFFERENCE IN COST WOULD BE ABOUT $16,000,000.

The request made by representatives of the labor organizations of the State to the State Canal Board early in the summer, that the use of stone masonry instead of concrete in the construction of locks and other structures be decided upon in the building of thousand-ton barge canal, as the fixed policy of the State, is not to be granted.

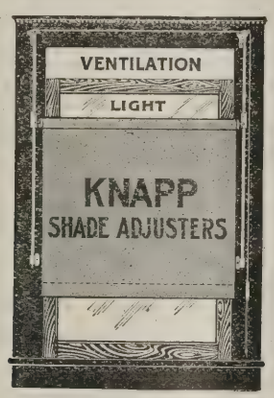
At a recent meeting of the Canal Board which was attended by Lieut.-Gov. Frank W. Higgins and the State officers, a report on the advisability of using the masonry in the place of concrete was received from the advisory board of canal engineers in which it was declared that any such substitition would cost the State sixteen millions of dollars over and above the $101,000,000 estimated cost of the barge canal, the present estimates of cost and the plans and specifications now ready having all been based upon the use of concrete. The engineers gave it as their opinion practically that the use of concrete could not be dispensed with. The report of the advisory engineers' board on the matter was supplemented with a report to the same end from Engineer William B. Landreth, who recently made an extended trip through the Middle and Western States investigating the use of concrete in connection with large public works.

These contracts include drawings, specifications and estimates of cost. Contracts one and three are in the Champlain canal extending from Northumberland to Fort Edward. Contract two is on the Erie, covering locks two and three, and that part of the canal between the Hudson River and a point about a mile west. Contract four is at the east end of Oneida lake, covering five miles of canal. Contract five is across the Montezuma marshes, west of Syracuse, covering six miles of canal. The excavations on these two contracts will probably be made with a hydraulic dredge. At Sylvan Beach, where the canal enters Oneida lake, a harbor will be built to afford dockage facilities for navigation. A long breakwater will extend out into the lake on the north side of the channel to protect and guide vessels into the harbor. Contract six covers about four miles of new canal between Rochester and South Greece. Contract seven is for a movable dam at Northumberland, and contract eight for the substructure for a bridge over the Hudson River at Northumberland.

Towing War.

The Cornell Steamboat Company has reduced the round-trip rate for towing between this city and Albany to a nominal price, following the appearance upon the river last week of an opposition line, which offered to do the work at half the price formerly charged by the Cornell Company. For a number of years the towing business of the Hudson has been practically in the hands of one company. Previously it was shared by the Schuyler, the Ronan and other lines, which, however, gave their attention more particularly to the Albany trade, leaving the lower Hudson to the Cornell line, whose headquarters are at Rondout, where the Delaware and Hudson Canal, now for the most part abandoned, enters the river. Of late years the trade from the Erie and Champlain canals has greatly fallen off, compared to what it formerly was, and the business which originates along the river itself has been more important to steamboat men that what comes through from the lakes. The Arbuckle line, the new competitor, has so far been able to give its attention only to the Albany trade, its facilities being small, and thus far there has been no cutting of rates for points south of Albany. When the Arbuckle line cut the Albany rate to $30, the Cornell Company retaliated by reducing its charge to $5.

While thus far the central and lower Hudson shippers have received no benefit from the rate cutting, it is promised, or threatened, by the Arbuckles that their operations will be extended in time to all parts of the river and continued as a genuine business enterprise. Arbuckle Bros., Brooklyn sugar refiners, are the owners of the new line, which is called the Independent Towing Company.



Building Activity in the South.

Never before in the history of Baltimore, Washington and the South has there been everywhere such activity in building as at this time. Owing to the conditions due to the great fire, rebuilding is a natural consequence in Baltimore, but operations in Washington are nearly as active, and millions of dollars are to be expended at the national capitol in constructing government buildings, the union depot and other mammoth projects. In Baltimore, since the fire, about 300 building permits have been issued in the burned district, which involves an expenditure of over $6,000,000, exclusive of the cost of ground and interior finish. These operations cover but a small area of the destroyed section, and it is estimated that the work of reconstruction will require expenditures aggregating from fifty to eighty millions. In addition to the work going on in the fire area, there are at this time going up, in various parts of the city, rows of dwelling houses, churches, theaters, hotels and factories, which represent from one to two millions more.

In Washington there is an enormous amount of building either in progress or in contemplation. The report of the building inspector, Snowden Ashford, shows that during the fiscal year ending June 30, the amount spent on public improvements in the District of Columbia, was $13,385,255, of which $12,033,916 was expended for new buildings and $928,904 for repairs to old structures. This is exclusive of the immense amount the United States Government will spend in the erection of the projected Federal buildings, the beautifying of Washington, or the $5,000,000 union depot. In the government work alone, it is computed not less than $30,000,000 will be appropriated and expended.

Light and Ventilation.

The accompanying illustration gives a clear idea of the working of the Knapp Adjustable Shade, which, it is stated, is making remarkable progress in the better grade of apartment houses. As will be noted from the cut, the use of this fixture makes it possible to have light and ventilation from the top of the window as well as the bottom, and it is also easy to light a room

entirely from the upper sash. The appliance is simple, strong and inexpensive, and an inquiry at the office of the Knapp Adjustable Shade Company, 1 Union Square, will bring full information as to the prices as well as a workingsample for examination. The value of this fixture for office lighting and ventilation is at once apparent.

—After being closed for a time, for alterations that were found after the initial trial to be necessary, the public bath in Seward Park, the first of a series of this kind to be opened in New York, has now been in successful operation for several weeks. The bathing pavilion, which is of brick exterior, with a liberal use of marble for interior appointments, was erected and equipped at a cost of about $110,000. The style of the architecture is Ionic, and the baths are in the lower story of the building, which is three stories in height. There are accommodations for fifty-one persons to bathe at one time. The bathrooms are all of marble, the tubs of enameled zinc, and the plumbing is of the most modern and up-to-date type. Precautions have been taken so that no one can be injured through ignorance of the working of the spigots, for no one can turn on the hot or cold water enough either to be scalded or to be injured by the extreme cold.

—The State Labor Bureau and the Central Federated Union are pressing for the enforcement of the eight-hour law, and have served notices upon Borough Presidents Haffen of the Bronx, Cassidy of Queens, and Ahearn of Manhattan. President Haffen has therefore declared six contracts abandoned for alleged violations of contract, as follows: Paving with asphalt Jerome av from 162d st to Kingsbridge rd, Barber Asphalt Co.; paving with asphalt 187th st, from 3d av to the Southern Boulevard, Continental Asphalt Co.; paving with asphalt Bathgate av for its entire length, Barber Asphalt Co.; regulating, grading, etc., Vyse av the West Farms rd to 172d st, J. J. Hart Co.; regulating, grading, etc., Fulton av from St. Paul's pl to 175th st, Peter Handibode, Jr.; regulating, grading, etc., Trinity av from Westchester av to Dater st, Charles W. Collins, per John C. Rodgers, sub-contractor. The contractor in each case makes specific denials, and the cases will be taken to court.

How New York Will Dispose of Its Rubbish.

Plans are on foot for installing nine more public incinerators in Manhattan and the Bronx, which number it is estimated will dispose of the entire daily accumulation of dry rubbish. This done, it is estimated that the saving to the city will be over $1,000,000. A miniature or model of the incinerator that is in operation is one of the exhibits at the St. Louis Exposition.

Except in the portion of the city where the incinerator takes care of the dry rubbish, thirty cents a yard is paid by the city authorities for the disposition of this kind of accumulation. Since the installation of the incinerator two years ago at the foot of West 47th street, the plant has been operated by a contractor who pays all expenses of operation and in addition turns over to the city $13,000 annually for the privilege. Under the old system of paying 30 cents a yard for the disposition, it is estimated that the cost to the city of disposing of the amount of rubbish that daily goes through the incinerator was $100,000 a year. Added to the $13,000 paid the city by the contractor, the saving is $113,000 besides having a thorough and satisfactory method by which the city gets rid of its trash.

The accumulation of refuse matter in New York is divided into dry ash, garbage and dry rubbish. Only the latter kind is disposed of in the incinerator. In dry rubbish is included broken furniture, store sweepings, fruit crates, baskets, paper, rags, bottles, tin cans and numberless other discarded articles. These are collected in carts by the city and delivered to the contractor at the plant. The accumulation is dumped on a wide carrying belt which carries the trash. Employees pick out the paper as it is conveyed toward the incinerator, others the rags, still others the bottles, and so on, until nothing of any value whatsoever finds its way to the furnace. Two-thirds of the entire accumulation of dry rubbish is thus saved and disposed of by the contractor. After paying the city $250 a week, a handsome profit is left the operator.

Bricklayers to Vote on Consolidation.

On Saturday, September 24th, a vote will be taken in the Bricklayers' Unions of Manhattan and the Bronx, on the question of consolidating them into one. The meeting will be at the Murray Hill Lyceum, 34th st, near 3d av. The polling of the vote will begin at 12.30 P. M., and conclude at 9 P. M., under the personal supervision of one or more members of the Executive Board. Ballots will be prepared by the General Secretary of the I. U. The qualifications necessary to cast a vote shall be that a member is not five months in arrears. Each member of the several Unions voting will present his working card for inspection.

The results of this ballot will be tabulated and presented to the Thirty-ninth Annual Convention for its further consideration. The Executive Board therefore urges upon all members of Unions 4, 7, 11, 33, 34, 35, 37, 47 and 72, N. Y., to turn out on the date set for the vote to be taken, and give expression to their wishes on this important question.

A prominent member of the craft in expressing his views on the question, writes: "I fail to see what good could come to us by having our Manhattan and Bronx bricklayers' unions surrender their several charters and merge into one union, as is proposed. On the other hand, there are strong reasons why this consolidation would be foolish and perhaps dangerous.

"Where would we get a hall big enough to hold our meetings in? And even though we could get such a hall, how very inconvenient it would be for any considerable number of our members to leave their homes after a hard day's work and travel to the meeting.

"Of course there would be members who could attend almost every meeting, but the number of these would be so few, comparatively speaking, that a mere handful would run the affairs of this immense local union; and in time the inevitable would present itself—a clique would be in control. If any one thinks this is only imagination, let him look at the experience of the Housesmiths' Union.

"One trade union is the strongest and best that is ruled by the majority; and the majority could not rule in the affairs of the organized bricklayers of this city if there would be but one union. Let us correct whatever evils there may be in our present system, but not give up that system for something that may bring greater evils in their stead."

Street Improvements in the Bronx.

The following designated streets, or sections thereof, in the Bronx are the subject of improving operations, the contracts having just been awarded by the Borough President:

Gossip of the Week.

The total number of transactions reported this week shows a considerable increase over last, and the corresponding week last year, there being a total of one hundred and seven as against eighty-one for last week and sixty-one for the same week last year. The encouraging feature of the market is the continued demand for private dwellings of which there were fifteen sold, one of them being 833 Fifth avenue, a house valued at $500,000. Loft buildings are represented by one sale, and lots by eleven transactions representing a total of nearly sixty lots; this, of course, does not include the sale of the Dyckman tract. There were ten old buildings sold and forty-two tenements. Of the old buildings, one was 230 Bowery, corner of Prince street, which is the first sale in this section of the Bowery in many weeks.

SOUTH OF 59TH STREET.

The estate of Isaac M. Dyckman has sold a tract of 26 acres, embracing substantially the entire tract lying west of Broadway from 218th st to the new ship canal with the exception of forty lots along the canal, which are owned by the American Real Estate Co., and have also been secured under option by the buyers of the larger plot. This united tract has a frontage of about 1,200 ft. on the west side of Broadway from the center line of 218th st to the ship canal, and extends westerly about 1,500 ft. to a bend in the Spuyten Duyvil Creek. The present buyers of this great tract of land will hold it permanently as an entirety. Their intention is to use it as the site for a huge amusement park. For such purposes it has great advantages, not the least of which is 2,300 ft. of water front, partly on the ship canal and partly on the sloping shore of the Spuyten Duyvil Creek. The land rises gradually from Broadway to a height of nearly 100 ft. above tide water, and then falls away to the west and slopes gently down to the creek.

Steuer, to a client, 338-340 East 51st st, a 6-sty four-family flat, on lot 37.6x100.5, at an aggregate rental of $24,000; and the house 235 West 13th st, for the Acton Estate to Joseph Gonzales, for a term of five years.

E. V. Pescia & Co. have leased for Herman Baum, to a client, the 5-sty tenement 242 East 75th st, at the aggregate rental of $7,000.

L. Tanenbaum, Strauss & Co. were the brokers who negotiated the loan of $1,250,000 for Boehm & Coon, on the property occupying the entire block front on Central Park West, 73d and 74th sts. A 12-sty apartment house will be erected on the site.

Polizzi & Co. have leased for Ferrara & Bagarozy the 5-sty double tenement 524 East 13th st, for a term of three years, at a gross rental of $9,068.

Mr. Chris. Schierloh real estate broker and agent, of No. 774 9th av, has by diligence and intelligent work added largely to his clientele, who appreciate his services as their real estate is successfully managed. To serve this large increasing business Mr. Schierloh recently moved to the above address where he has larger and better equipped offices; the sales department is managed by Mr. Daniel J. McDonald, well and favorably known on the upper west side.

The old established real estate firm of Ogden & Clarkson have removed their uptown office from No. 127 5th av to No. 11 West 27th st, where they have a pleasant suite of offices. Their downtown office is at 69 Liberty st.

Mr. Charles I. Fleck, formerly of the real estate firm of Charles Rubinger & Co., has formed a new company, with P. D. Brown and Joseph Tea, under the firm name of Fleck, Brown & Tea, and opened offices at No. 301 East 5th st near 2d av.

Bridge Commissioner Best has asked and been allowed an appropriation of $2,500,000 to pay the awards for property acquired for the approaches to the Williamsburg Bridge, and for another appropriation of $600,000 for awards to property owners whose property was taken for the Blackwell's Island Bridge. Both requests will be considered by the Board of Estimate at a meeting to be held Friday, Sept. 16.

Mrs. G. Nicholson and R. L. Nicholson returned from Europe on the Oceanic, which arrived here on the 14th.

Ex-Chief McCullagh in Real Estate.

Mr. John McCullagh, the first chief of police of Greater New York, is hereafter to be identified with the real estate business, as he has formed a connection with the new firm of E. Tanenbaum & Company, 656 Broadway, corner of Bond street. Mr. McCullagh needs no introduction at our hands. His honorable career as a police officer, and later as Superintendent of Elections, is well known. Real estate has hitherto been a side issue with him, but he has had long experience in handling property and is considered an expert on West Side values.

M. Emanuel Tanenbaum, the head of the new firm, was until recently a partner in L. Tanenbaum, Strauss & Co., and previously in L. Tanenbaum & Brother. His many years of experience in the field, coupled with the number of important connections he enjoys, give him peculiar advantages for the conduct of his business.

Messrs. Tanenbaum & Company will make a specialty of business property—for rent, sale or exchange—and will be particularly interested in the Fifth avenue business district.

Panama Canal Contracts.

The Panama Canal Commissioners, who have been inspecting the route of the great waterway at the isthmus, have returned to New York, and as a result of the trip, and progress made by them, orders have been given for the purchase of material and tools, and it is expected that some large contracts will soon be let. The purpose of the survey was made for deciding upon a general plan of work, the letting of contracts and the purchase of necessary material.

Acting upon orders from President Walker and Chief Engineer Wallace, Secretary Murphy has authorized Alfred Anderson, who is to be purchasing agent for the Panama Railroad Company, 21 State st, New York, to make open market purchases for shipment to the isthmus at the earliest practicable date. The most important lot will include a complete plumbing outfit for the big hospital at Ancon, and will include about 10,000 feet of 4 and 5 inch soil pipe with complete fittings and a large quantity of plumbers' supplies. Another large contract, for which proposals will be opened on September 21, will be for 4,300 tons of cast-iron pipe, intended to be used in the installation of a modern system of water works for Panama. A report recently received at the Commission's headquarters from Chief Engineer Wallace contains the interesting information that maps furnished by the French Company have been found to be so full of errors as to be almost valueless.

The New Jersey Zinc Company of New York is considering the question of building a large new plant in the Chicago district. It is probable that it will not only be devoted to the manufacture of spelter and of zinc oxide, but that a rolling mill will also be built.

The WORLD OF BUILDING

The Labor Situation.

Work is going on in every craft in Manhattan, so far as the members of the Building Trades Employers' Association are concerned, except marble cutting and mosaic laying. The marble men would be at work but for a feeling of loyalty to their chieftain, Mr. Nason, the new president of the Alliance Board of Delegates. Negotiations are progressing between the operatives and their employers in this industry, and the expectation is that a reconciliation will be effected so that work will be resumed next week.

During the past week a new union of carpenters was organized and chartered, which makes three new unions that have been evolved from this war, not counting the agreement which the employers in the plastering trade have made with a union that was organized last year. Of electricians there is practically a full force, and of carpenters, plumbers and tile-layers about thirty-five per cent. of a full force, with the ranks of the workers increasing every day. No building has been tied up completely since the late Mr. Weinseimer started in to break up the arbitration system; in fact, building operations on the whole have not been seriously delayed. Depending on the stage of general construction, some parts can be done as well one time as another. Such contracts on schools as are held by association employers have been or are to be at once manned; but most of the schoolwork is being done by non-association men, and they are not involved in the present war. This is a summary of the situation. Practically the end of the trouble is in sight, if it has not already arrived. As always, there will be some ragged edges, and these may have to be dealt with for a few weeks longer.

With some amendments inspired by experience, the policy of the Building Trades Association has been the same this year as last. After a fair warning to certain rebellious unions the Association has broken off all relations with these unions and has organized new ones with such material as has offered. In the tile-laying trade it has opened a school of instruction, and there will presently be a new union. Whenever a new union is formed it is made a part of the charter that the organization shall remain independent of any other union in the same line for a period of years, and that no one shall be elected an officer who has held office in any offending union. These provisions are intended to prevent an old union from absorbing or getting control of a new one.

It has been conceded by both sides that the General Arbitration Plan can be improved in several particulars, but the Employers decline to discuss that feature in any negotiations now pending, insisting that it shall be a matter for the future after the present trouble have been settled. Nothing has yet come from the meeting on last Friday night of the executive meeting of the Bricklayers of Greater New York, who it was thought would demand that the General Arbitration Board be convened. The mechanics in this trade have given no trouble since last spring.

A prominent member of the Association said this week: "We have needed just such trouble as this to weld us more firmly together, and that has been the effect. Real estate interests, by the victory we have won, are assured of our ability to cope with any emergency that may threaten in the future to disrupt business."

Between 56th and 57th sts, on Park av, the New York Central Railroad has erected an iron structure, which has caused the property owners much worry, not only on that block, but on the streets farther down. Inquiry made of Mr. Cortell the

terminal engineer of the company, and Mr. Lewis, the engineer of the Board of Estimate and Apportionment, shows in the first place that the company has the right to build the structure as shown on the original plans on file in the office of Mr. Lewis. It is to be used to support a switch and that part which shows above the surface of the street will be covered and made ornamental.

Building Operations.

Contract for Edison Building.

Work on the new Edison power-house, which has been hanging fire for a year or more will have a visible start next week, when building contractors will begin to clear the site. On Friday of last week the contract for the foundations was awarded to Isaac A. Hopper & Son (Incorporated). This contract amounts to about $200,000. The contract for the structural steel, 10,500 tons, has also just been placed, but to whom is not divulged, as General Manager Murray prefers to wait the sanction of the board of directors before giving out or confirming information. However, the project as a whole is one of immense proportions, involving between four and five million dollars. The station will be built on 1st av, between 39th and 40th sts, and will measure 450x200 ft. on the ground, be five stories high, and equipped to produce 112,000 horse-power, which means that it will compare in size to the Subway power-house at 59th st and North River. There will be 72 boilers, 4 brick stacks, two 50-ton traveling cranes, and a vast amount of electrical machinery.

Proposed Amusement Park for Upper Manhattan.

Plans were announced this week for what promises to be the greatest amusement park in this country. Andrew J. Cobe, president of the Corporation Liquidating Co., Park Row Building, is at the head of the company promoting the scheme. Thus far title has been taken to a plot of nearly 50 acres, bounded by Broadway, 218th st. and the Ship Canal, being part of the Isaac M. Dyckman tract. It is proposed ultimately to extend the southern line, acquiring a plot for a permanent industrial exhibit. Plans for the amusement park are being prepared by Kirby, Petit & Green, of 21 West 34th st, the architects of "Dreamland," and Nathan F. Barrett is in charge of the landscape effects. Mr. T. R. Hart, of the Corporation Liquidating Co., will have charge of the construction, receiving all figures and letting the contracts. The general layout and details of the scheme exceed in scope and elaborateness anything of the kind yet attempted. Contracts are now being negotiated for various concessions, some already being signed. It is hoped to have the park ready for opening next June.

Sixty-fifth Street Dwelling to Come Later.

65TH ST.—Plans are well under way in the office of Charles A. Platt, 36 East 20th st, for the erection of a 4-sty and basement stone residence, 35x68 feet, for Mrs. Frederic J. Lee, of 122 East 65th st, to be erected at Nos. 125 and 127 East 65th st, now occupied by two high-stoop brownstone front dwellings. The front will be of brick, with marble trimmings, steel frame, concrete and expanded metal floors, metal and glass skylights, one elevator, marble cornices, copper bay windows, steam heat, electric light, etc., at a cost of about $60,000. Lyman & Dixon, of 36 East 20th st, will superintend the construction, but the architects inform the Record and Guide that work will not be commenced for some time yet.

Church of St. Thomas the Apostle to be Completed.

118TH ST.—The Church of St. Thomas the Apostle, situated on the south side of 118th st, 34 feet west of St. Nicholas av, of which the Rev. J. J. Keogan, is rector, is to be completed with a handsome superstructure, over the present basement foundations, in which the Church has held services for sixteen years. The building will measure 65x151.6½ feet, 1-sty in height, and will have facades of light brick and terra cotta, with a roof of slate, gravel and asphalt, fireproof, iron staircases, vitrified glazed coping, with terra cotta, steam heat and electric light. T. H. Poole & Co., of No. 13 West 30th st, are the architects, and place the cost at $75,000. No contracts have been let for the work, and it is learned that operations will not be started for some weeks yet.

High-Class Apartment House for Gramercy Park.

GRAMERCY PARK.—A high-class housekeeping apartment house will be built at Nos. 35, 36, 37 and 38 Gramercy Park by Ratkowsky & Simon, furriers, of 58 East Broadway, from plans by Duboy & Jallade, of 178 5th av, architects of the Ansonia. The new building will be ten stories high, 83x64 ft. in size, and will cost between $175,000 and $200,000. There will be three apartments on each floor, making a total of thirty. They will be finished and equipped in the best style and with all modern conveniences, such as electric elevators, electric lights, telephone service, steam heat, hot water supply, hardwood trim, tile-lined bathrooms with porcelain tubs, open plumbing, shower baths, etc. The building will, of course, be fireproof. The exterior will be of light brick and limestone with ornamental wrought iron window balconies, and in design it will be similar to the Ansonia. A distinctive feature is to be a front light court overlooking the park. Final plans will be finished about Oct. 15th. No contracts for the work have been issued. The architects will receive all figures and let the contracts. The work will begin in about two months, and the building is expected to be ready for occupancy Sept. 1, 1905. The old structures are now being torn down. The site is a fine one on the eastern side of Gramercy Park, and the plans provide that each apartment shall overlook this beautiful square. The new building will stand between the Gramercy Park Hotel, on the 20th st corner, and the Park, two remodeled dwellings occupied as a family hotel, on the 21st st corner. The latter, it was announced some months ago, will ultimately be replaced by a modern apartment house. The proposed improvement may hardly be called an innovation for the neighborhood, as the Irving at No. 26 has been in successful operation for nearly two years, but it is a departure in a way as the Irving is an apartment hotel with a general and semi-public restaurant on the ground floor, while the new building is planned for housekeeping purposes.

Plans for New Public School.

1ST AV. AND 117TH ST.—Plans have been completed by C. B. J. Snyder, 500 Park av, for another new public school building, to be situated at the southwest corner of 1st av and 117th st, for the City of New York, at an estimated cost of $125,000. The building will be 5 stories in height, slag or gravel roof, with facades of brick, concrete, terra cotta, and limestone, measuring 142.4x61 feet in size. There will also be wire and ribbed glass and copper skylights, terra cotta and copper cornices, fireproof stairways, steam heat, electric light, hard wood trim, and best plumbing, etc. As soon as plans are approved bids will be advertised for in the usual way.

New Plans for St. Regis Annex.

As the case regarding the St. Regis annex now stands, Messrs. Trowbridge & Livingston will have to prepare new plans for the building if the Astors want to proceed with the work without a lawsuit. Present plans call for a building 18 stories in height on the 50 ft. plot and five stories on the 20 ft. lot. They show that 19 per cent of the area of the former is left for air and ventilating spaces, whereas, according to the law, there should be 42½ per cent. Corporation Counsel Delany has notified Supt. Hopper that the plans are a violation of the Building Code and that the original approval is not binding, since it was for a dwelling house and not for a hotel. Mr. Delany rejects the contention of the Astor lawyers that the building is to be a dwelling, and says that an attempt was made to evade the law by that statement. A list of contracts for the work was printed in the Record and Guide for June 18.

Huge Gas Tank for Brooklyn.

The Brooklyn Union Gas Company is making rapid advancement in the construction of a huge 5,000,000 cubic-foot gas tank at the foot of 12th st, near Gowanus canal, Brooklyn, and it is said it will equal in capacity and size any tank yet constructed in the United States. Piles have been set, and capped, and upon this a circular wall 200 ft. in diameter of concrete has been built. The interior of this will be filled with gravel to within one foot of the top, and then a flooring of solid concrete will be laid to form the foundation. A large proportion of the framework has already been piled on the ground, and it is expected that the structure will be completed by July, 1905.

111TH ST.—Sass Smallheiser, 23 Park Row, are making plans for a 6-sty 22-family flat, 35x87.11, for Pearson & Dunn, of 74 Monroe st, to be erected at Nos. 205 and 207 East 111th st, at a cost of $40,000.

140TH ST.—Plans are being prepared by R. E. Fichtner, 60 Liberty st, for a 5-sty flat, 50x87.11, for John H. Steinmetz, Jr., 559 West 149th st, same to be erected at Nos. 503 and 505 West 140th st, at a cost of $40,000.

Alterations.

BROADWAY.—Mulliken & Moeller, 7 West 38th st, have completed plans for alterations to the 8-sty Grand Hotel, on the southeast corner of Broadway and 31st st. This building will be connected with a new 12-sty addition, at 34 and 36 West 31st st, by fireproof doorways on the 7 lower stories and will also be equipped with 3 new staircases and with a mezzanine floor. New fireproof walls are to be erected and the older building partially remodeled to harmonize with the design of the new srtucture. The cost is estimated at $20,000. The property is owned by the Higgins estate, of 16 West 23d st.

Estimates Receivable.

ST. NICHOLAS AV., Brooklyn.—Estimates are still being received on all lines of work, for the three 3-family houses which George and A. Bauer, of 396 Ralph st, are about to erect at the northwest corner of St. Nicholas av and Bleecker st, Brooklyn. Plans designed by L. Berger & Co., 300 St. Nicholas av, call for 3-sty buildings, 20x55x60 feet, of brick and stone, tin roof, with all improvements.

39TH ST.—George B. Will You Use It?

Last Week we spoke of Tests. Evidence was given that at last a System of Real Fireproofing is provided for Architects, Builders, and Owners,—a System that is Abundantly Capable of withstanding a Temperature greatly in excess even of the Temperature that is required to Melt Steel or Wrought Iron.

The Important Question for YOU is—will YOU, with this Information now in your Possession, make any Particular Use of it! Or, will you be like the Unstudious Student of the Fable?

There was once a Young Man who was sent to College to Study. His Devoted Parent sent him a Book to aid him in his Studies. The Young Man used it, because it was Large and Voluminous, to Prop open his Window and Crease his Trousers. Some time later the Parent visited him, and asked him whether he had found the book of any Value.

"You bet," was the answer. "I've been through that book many times."

"Then," said the Parent, "You have undoubtedly obtained from the Book all that there is in it." Upon which the Parent opened the volume at page 250 and extracted the One Thousand Dollar note which was in it, and returned the Bill safely again to his own pocket.

The value of an invention lies not in its theoretical virtues but in its practical application.

Mercantile.

SMITH ST, BROOKLYN.—A large force of wreckers are now at work dismantling the old Smith street mansion, No. 16 Smith st, Brooklyn, which will be replaced by a store building by Balch, Price & Co., of No. 376 Fulton st. The old structure has been successively a private residence, a central telephone exchange and at last a police headquarters. The recent removal of the department and the presence of the house wreckers is attracting much attention. The building was erected in the early forties by ex-Mayor Samuel Smith, of Brooklyn. (See Record and Guide of August 27.) The owners inform the Record and Guide that no architect has yet been commissioned to prepare plans.

Miscellaneous.

C. Dewey, 31 West 19th st, general contractor. Mr. Wegmann's telephone number is 1823 Riverside.

Questions and Answers.

ASSIGNMENT OF BUILDING CONTRACT.

Can I assign a building contract on a Sunday, or is it illegal; and, if signed, could we not date it the next Monday? Would that be all right?

Answer.—In the state of New York, it is lawful to assign a building contract on Sunday. (See Boynton v. Page, 13 Wendell, 425; Batsford v. Every, 44 Bronton, 618; Miller v. Pressler, 4 E. D. Smith, 234.)

OWNER IS RIGHT.

Broker (A) leases for owner (B) building for two years, with an option of three years on same terms, at $2,100 per year and all inside repairs. At the expiration of first term, tenant refuses to renew, unless owner consents to make certain repairs. This the owner agrees to do, and then makes a new lease with tenant for two years on same terms. Is the broker entitled to any commission on the last lease? Owner says no.

Answer.—No.

OUT OF PLUMB.

A is the owner of a house five stories high which is built on his own lot, but which being out of plumb projecting over "B's" lot 4 inches. B intends to build a 6-story house, and as he finds A's wall projects is B compelled to build his wall around A's wall, which is out of plumb, or must A remove said wall. A's house was built 25 years ago.

Answer.—The case of Croker vs. Manhattan Life Insurance Company, 31 Miscellaneous, 687, on appeal to Appell. Div. 226, is the leading case in that point. It was there held that the court would not require the wall to be taken down, but would allow adjoining owner a lump sum as damages, and let the wall stay.

Material Market.

GENERAL CONDITIONS.

Now is the time to build. It is probable that the labor troubles are about over, and improbable that costs on the whole will be less another year. If anyone is waiting for a return to the level of ten years ago, he will have to wait a long time. Present standards, in wages, in cost of living, in costs of construction, will endure in all likelihood for years to come, and such undulations in the material market as there may be under conditions so fixed in their place, will not sink lower than the averages of this fall. A presidential year is always a consumer's year. The only important material exceptionally high is brick, but what the builder should reckon on is the average for all kinds of materials.

The bottom has simply dropped out of cement. Sash, doors, blinds and lumber generally are 10 per cent. lower than last year. The beam and plate associations have just reduced the price of structural iron and steel to a $1.40 base (Pittsburgh), which is a cut of 15 per cent. Sheet metal, that is, tin, copper and galvanized iron, is not as high as last fall. Plate glass is 25 per cent. lower, and ordinary window glass 15 per cent below. In electrical material there is nothing to complain of.

Nothing short of a panic will ever shiver wages in the building trades, and the fears and conditions which generate these are beyond the range of vision. In the last decade the country has been pretty thoroughly unionized, and even the building trades of New York have seen important changes in that time, changes that have tended to strengthen unionism and increase the wage scale.

Therefore, we may not ever see again a standard of costs such as prevailed previous to 1898, and if one needs to build, this would seem to be his time.

LIME.

An immense amount of lime is being consumed, but the companies to furnish the supply are numerous. A lime man gave vent to his feelings the other day in this way: "The regular lime business in this town is getting on a worse and worse basis yearly, and there is no chance for you unless you have some special brand. There is plenty of building going on, notwithstanding the labor troubles, and there ought to be enough for every one and at fair prices. But what is the condition? Here is the biggest and most responsible lime company in the country makes its price 87 or 88c. per barrel. This is no more than a reasonable figure to the builder, while it holds the price at a point which gives other lime concerns a decent profit. But in come the Pennsylvania manufacturers who deliver lime at 65 or 70s. at the job. There is nothing in it for them at such figures nor to any one else, yet in the last two months they have put in 30,000 barrels and are now sending in 700 to 800 barrels per day. As if this was not bad enough, I ran across a Western lime man who said that with his unequaled facilities he was going to put 200,000 barrels of lime into New York yearly at a price that would skin the Pennsylvania men to death. What a cheerful prospect!"

POPULARITY OF METAL LATHS.

There is always a risk in putting ornate decorations upon ceilings or walls that may yield or crack with any change of temperature or humidity. Metal laths are used in such buildings as the Library of Congress and the Boston Free Library, where the decorations are elaborate. Owing to the rigidity imparted by the metal laths, the decorations suffer no deterioration. The house-holder desirous of having ceilings, walls and partitions that will be rigid and inflexible can attain his object by means of the metal lath.

Walls, partitions and ceilings thus constructed are proof against fire, water, vermin and sound. Metal protected by plaster is free from corrosion. All wooden beams or supports are so insulated as to be practically fireproof. Gas pipes, electric wires and other necessary connections can be made through the walls without difficulty. The metal lath with plaster is also adapted to air shafts, dumbwaiter shafts, chimney stacks, alcoves, architraves, cisterns and vaults.

Some of the most attractive residences in the Eastern, Middle and Western States have adopted the metal lath overlaid with cement for their external construction. A stone finish may be imparted to the cement; and the various colors of the cement and the adaptability of the metal lath render possible any architectural effect that may be desired. The same method of construction is adapted to other buildings. The Pennsylvania Railroad station at New Brunswick, N. J., is covered with cement over metal laths, giving a uniform and pleasing effect. Churches, greenhouses, stables and factories can adopt the same materials advantageously for external construction, and they are adapted for the construction of stoops, archways, porticos, vestibules, cornices, fountain basins, gate posts, fences, walks and similar outside features. Bruce & Cook, of 190 Water st, quote meta. laths at 22 and 24 cents a square yard.

Guaranteed Mortgages
OF THE
Bond & Mortgage Guarantee Co.
THE MOST DESIRABLE INVESTMENT BEFORE THE PUBLIC TO DAY.

The Mortgages are carefully selected on New York City property and have back of them the *strongest guarantee*, and from the standpoint of the insured, the *wisest policy* to be had.

This Company has accumulated a large surplus from the earnings of a profitable business, the only way for an insurance company to grow in strength. The paying in of large sums of money by stock holders is not enough to make a strong insurance company, neither do conservative companies put out unconditional policies.

Wise provisions conserve the rights of all the insured.

Notice to Taxpayers.

Department of Finance, Bureau for the Collection of Taxes, New York, September 1, 1904.

TAXPAYERS WHO DESIRE TO OBTAIN their bills promptly should make immediate written requisition (blanks may be procured in the borough offices), stating their property by Section or Ward, Block and Lot or Map number, making copy of same from their bills of last year.

If a taxpayer is assessed for personal tax, the requisition should also request bill for such tax.

Each requisition should be accompanied by an envelope bearing the proper address of the applicant, AND WITH RETURN POSTAGE PREPAID.

In case of any doubt in regard to Ward, Section, Block or Lot number, taxpayers should take their deeds to the Department of Taxes and Assessments and have their property located on the maps of that Department and forward to the Deputy Receiver of Taxes with the requisition a certified memorandum of their property, which will be furnished by the Department of Taxes and Assessments.

Taxpayers in this manner will receive their bills returned by mail at the earliest possible moment and avoid any delay caused by waiting on lines, as required in case of personal application.

The requisition must be addressed and mailed to the Deputy Receiver of Taxes in whichever borough the property is located, as follows:

JOHN J. McDONOUGH, No. 57 Chambers street, Borough of Manhattan, New York.

JOHN B. UNDERHILL, corner Third and Tremont avenues, Borough of The Bronx, New York.

JACOB S. VAN WYCK, Municipal Building, Borough of Brooklyn, New York.

FREDERICK W. BLECKWENN, corner Jackson avenue and Fifth street, Long Island City, Borough of Queens, New York.

JOHN DE MORGAN, Bay and Sand streets, Stapleton, Staten Island, Borough of Richmond, New York.

After receiving the bills, the taxpayer will see that they are properly rebated, then draw check for the net amount to the order of the Receiver of Taxes and mail bill and check, with an addressed envelope, with the return postage prepaid, to the Deputy Receiver in whichever borough the property is located.

Checks should be mailed as soon as possible after the bills have been received by the taxpayer.

All bids paid during October must be rebated before payment.

DAVID E. AUSTEN,
Receiver of Taxes.

CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that ne hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A $20,000—$30,000 indicates the assessed value of the property. The first figures being for the lot only, and the second figures representing both lot and building. Letter P before 2d figure indicates that the property is assessed as in course of construction.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by he name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

September 9, 10, 12, 13, 14, 15.

The Private Branch Exchange System of supplying **TELEPHONE SERVICE** is particularly adapted to the requirements of **LARGE HOTELS** and **APARTMENT HOUSES**

By means of a Private Branch Exchange the general telephone service, local, suburban and long distance, is available in every room and apartment. A complete interior service is also supplied, adding largely to the efficiency, and decreasing the cost of the hotel service proper. No modern Hotel or Apartment House should lack a

PRIVATE BRANCH TELEPHONE EXCHANGE

Buildings Projected in Other Cities.

(Continued from page 580.)

PHILADELPHIA, Pa.—Henderson & Co. have plans by Parker & Thomas, Baltimore architects, for a bank and office building at the northwest corner of Main and Atlantic sts, Norfolk, Va., for the Commercial Realty Co., of that city. It will be a 12-sty, fireproof structure, with exterior walls of brick and terra cotta with a granite base. The dimensions will be 44.8¼x 133.1 feet.

SALEM, Mass.—The City Council has appropriated $2,000 for competitive plans for a new high school building, to cost about $200,000. Address John N. Perkins, superintendent of schools.

URBANA, Ill.—Plans are wanted for a brick and stone church for the Parks Chapel congregation, the cost not to exceed $25,000. For further information address Rev. W. N. Toby, pastor.

CANON, Ga.—Plans and specifications are wanted for a school building. An election will be held Sept. 24 to vote on the question of issuing bonds for the erection of same. Address Dr. A. N. Bowers, Mayor.

ITHACA, N. Y.—The proposition to erect a county building will be submitted to the people in November. Grant Curry, sheriff.

NIAGARA FALLS, N. Y.—The Toronto & Niagara Power Co. will let the contracts during the next few weeks for the new power house and sub-station at Niagara Falls. The new power house will be a magnificent building, costing about $300,000, 500 ft. long, built of white granite. The sub-station, like that on the Davenport road, will cost about $100,000.

NORTHAMPTON, Mass.—The contract to erect the Hawley Grammar School has been awarded to John L. Mather, of Northampton, at $57,497.

CHICAGO, Ill.—Plans and specifications for the Majestic Theatre and office building at 71-75 Monroe st have been submitted to the City Department. They provided for a 20-sty office building with a frontage of 82 ft., a depth of 60 ft., and a height of 260 ft., with an apex reaching a height of 274 ft. Estimated cost, $1,000,000.

CAMDEN, S. C.—A new court house will soon be arranged for at Camden, S. C. Address the Mayor for particulars.

MELBOURNE, Fla.—Mr. George M. Brown, of Melbourne, Fla., will erect a handsome new building here.

BALTIMORE, Md.—Competitive plans are being prepared by local architects for the building to be erected at the southwest corner of Baltimore and Charles sts for the Sun, which, it is understood, will occupy the entire structure. The architects who are reported to be in the competition include Baldwin & Pennington, Charles E. Cassell & Son, Wyatt & Nolting, and Sperry, York & Sawyer. The lot acquired by the A. S. Abell Co. has a frontage of about 50 ft. on Baltimore st, and extends 115 ft. along Charles st.

BALTIMORE, Md.—Architects are also preparing competitive sketches for an office building to be erected at the southeast corner of German and Calvert sts for the William Keyser estate. Eighteen architects are now busy on the competitive plans to be submitted for the Eastern High School.

WISSAHICKON HEIGHTS, PHILADELPHIA, Pa.—A 2-sty gymnasium building, 90x30 ft., and a swimming pool, 95x50 ft. are to be erected on the grounds of the Chestnut Hill Academy, which occupies the old Wissahickon Inn property, at Wissahickon Heights, opposite the Horse Show grounds. The plans have been prepared by Frank Miles Day & Brother, architects, of Philadelphia, Pa., and Stacy Reeves & Sons are taking estimates.

BALTIMORE, Md.—It has been decided to revise the plans for the Church of the Messiah, which is to be erected on its old site at the southwest corner of Gay and Fayette sts, as the estimates submitted involve the expenditure of a great deal more than the members of the building committee anticipated. The plans are by Charles E. Cassell & Son, 404 Law Bldg., Baltimore, who will make the necessary revision.

PHILADELPHIA, Pa.—Robert Killough, builder, Land Title Building, will build an operation of 151 residences at 21st and Mifflin sts. They will be two stories high, and will be built of brick. They will have every modern convenience and appointment. In a short while the owner will take sub-bids.

PITTSBURGH, Pa.—The plans for the Pennsylvania R. R. passenger station, at East Liberty, are finished and await the approval of President A. J. Cassatt. The waiting room will be 40x80 feet. There will also be a women's room, men's smoking room, offices, etc. Work will be started this fall.

ALBANY, N. Y.—The contract for the construction of the filtering plant at the Hudson River State Hospital has been awarded to A. Gillispie, of New York, for $35,000.

LEESVILLE, S. C.—The Leesville Bank, of Leesville, S. C., are about to arrange for the erection of a fine new brick bank building. Write to the president for further particulars.

BALTIMORE, Md.—W. J. Beardsley has prepared plans for a 7-sty apartment house, 60x90 feet, which is to be erected at St. Paul and Franklin sts, at an estimated cost of $150,000. Harry E. Gilbert is reported to be one of the promoters of the project.

NEW HAVEN Conn.—The Conner Bros.' Construction Co., Lowell, Mass., has obtained the entire contract for the erection of the building, on Chapel st, New Haven, for the Knights of Columbus, at $113,275. Plans were prepared by Faxon & Wright, 120 Boylston st, Boston, Mass.

TAFTVILLE, N. Y.—H. Blackledge, Norwich, Conn., has the contract for the Congregational church, at Taftville. Torrence & Matthews will do the stone work and Cruthers & Lillibridge the brick work. Plans were made by Architect F. J. Sawtelle, Providence, R. I.

PHILADELPHIA, Pa.—The Philadelphia Rapid Transit Co., 8th and Dauphin sts, want bids for an addition to car barn, at 13th and Jackson sts. One story, brick and steel, slag roof, cement floor and electric light.

BALTIMORE, Md.—The Court House Comn. on Sept. 2 approved the plans of Wyatt & Nolting, of Baltimore, for repairs and alterations to the St. Paul st. front of the Court House. Working plans are to be prepared, the cost to be kept within the $150,000 appropriation. Bids will be received Sept. 21 by the Bd. of Awards for rebuilding conservatory in Patterson Park; probable cost, $10,000. W. W. Crosby, Gen. Supt. Bd. Park Comrs.

BOROUGH OF BROOKLYN.

CONVEYANCES

Whenever the letters Q. C. and C. a. G. are preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all right, title and interest of the grantor is conveyed, omitting all claims and warranty

2d.—C. a. G. means a deed containing a Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given and the amount. The general dates used as head lines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

DYCKERHOFF PORTLAND CEMENT

is made in Germany. When first introduced in the United States, some twenty-five years ago, its superior strength, correct chemical composition and absolute uniformity were quickly appreciated and placed it above all other Cements in the market. The Dyckerhoff brand maintains the original superiority;—its perfection has not been approached by any other Cement.

Ninety-four consecutive years is a record of which we are proud. We must have done our work right, or we would not be here to-day. Anything could come out in ninety-four years.

Cambridge
Metal Lath

This metal lathing possesses positive advantages over any other mode of construction for ceilings, walls and partitions, and is perfectly adapted for inside plaster, or outside cement work. It is convenient to handle, and far superior in every way to wooden laths. The aim of

Advanced Building Methods

is to eliminate inflammable material, wherever possible. Cambridge Metal Lath is practically fireproof. It is also exceedingly strong, rigid and durable. Building experts have been prompt to recognize its practical value. It has been employed in many public edifices. Houses constructed with Cambridge Metal Lath are cooler in summer and more economically heated in winter. The use of Cambridge Metal Lath is fast becoming general. Write for descriptive pamphlet.

"Entered at the Post Office at New York, N. Y., as second-class matter."

Vol. LXXIV. September 24, 1904. No. 1906.

THE stock market has had both its ups and its downs during the past week; but it has gone down more than it has gone up. Its character, however, has not essentially changed. It is still the creature of flagrant manipulation; it still moves after a very irregular fashion, some stocks advancing while others are receding; it still has a tendency to be more active when prices are declining than it is when they are advancing; and the commission business is still exceedingly small. In short the bull campaign has been checked, and while the speculators are keeping up their tactics, it looks as if prices would fall somewhat further before they can advance again. The speculative movement in favor of higher prices was based upon a correct reading of the general situation; but it was carried a little further than was justified by the conditions—particularly in view of the fact that both the wheat and the corn crops will be smaller than was anticipated. These commodities as well as cotton will sell for good prices, and the farmers will remain prosperous; but the railroads will not get the tonnage they expected and will do well to keep their present earnings intact. The industrial corporations on the other hand are likely to do much better than they have been doing and will probably advance still further before the end of the year. There is no occasion for any considerable fall in the quotations for securities; but the current situation apparently favors in the immediate future a weaker rather than a stronger market.

THE power of the Building Trades Alliance is practically broken. Two of the unions have seceded during the week and another union has been split up. In the meantime a great many individual members of the plumbers' and plasterers' organizations have gone back to work, so that operations are being resumed on many important buildings. There can be little doubt that within a week or two the other unions in the Alliance will come to terms and the lockout will be declared off. The result will be consequently as decisive a victory for the Employers' Association as was the result of last year; and it will mean a substantial increase in the power and the prestige of the Association and its policy. The arbitration agreement, instead of being moribund, as so many of the daily papers declared, will have more vitality and authority than it has yet possessed. Doubtless it will be necessary again and again to uphold it with all the power of the Association, for the unions are too much in the habit of striking not to lapse occasionally into violations of the agreement. It will still remain true, consequently, that the permanence of the agreement depends absolutely upon the extent to which the Association is able to keep its existing organization and unity of action. But the success of the Association in twice breaking down determined resistance to the agreement proves that its policy commends itself to the element in the unions which want steady work. The resistance would unquestionably have been much more determined, provided the mechanics could have convinced themselves that they were fighting for anything essential to their prosperity; and this combination of almost complete organization and great power with a programme that is fair to both parties is and will be irresistible. That the interests of the mechanic are protected by the agreement is sufficiently shown by the experience of the past year. The year has been one of declining business in which fewer workmen could be employed than formerly. The conditions were such as would, in an open market for labor, have led inevitably to reductions in wages. But nothing of the kind has either happened or even been attempted, for the mistake in dealing with the masons' laborers was merely an effort to equalize conditions, not to lower the standard. On the contrary, wages have been in several instances increased, in spite of the fact that the cost of building was already too high. Of course, all the demands of the unions have not been granted and could not be granted. But their demands secure a fair hearing, and are agreed to, whenever they possess any show of reason. The unions will come more and more to realize the fact that they are being fairly treated, just as they will come to realize the fact established by the experience of the past year, that the real union is the union recognized by the Employers' Association.

New York City and the State Election.

THE state conventions of the two national parties have been held, and two party tickets and platforms have been submitted to the voters of the State for approval or rejection early in November. Since the interests of New York City are vitally affected by the poitical influences which prevail at Albany, it is relevant to inquire whether either the candidates or the platforms of the two competing parties offer anything particularly tempting to the voters in New York City, whose ownership of real estate gives them a personal as well as a public interest in the result.

We wish it could be said that the action of either convention promised in the event of success advantages to New York; but such is not the case. Property owners in this city know precisely what they have to expect from Governor Odell and his party. The policy of the organization is naturally determined by the ideas and the interests of the voters in the rural counties—the counties in which the Republican vote resides; and the ideas and interests of these voters are generally inimical to New York City. Their representatives have resolutely refused to give to the city that extent of local control over taxation, the saloons and its corporate business, to which it is entitled; and whenever its representatives claim anything of this kind its demands are almost contemptuously ignored. Neither can anything in this respect be expected from the Democrats. The platform, indeed, contains the usual declarations in favor of home rule; but inasmuch as that party, no matter how good its chance of electing its candidate for Governor, has no prospect of controlling the Legislature, it is hopeless to expect the passage of any legislation, which will give the city any more effective control over its local affairs. Moreover, even the Democratic Governor cannot be depended on to take any particular interest in New York City. It is extremely unfortunate that the party leaders failed to nominate a candidate from this city. Either Mr. Grout Mr. Shepard or Mr. Jerome, each in his own way might have served the city well in Albany; but they were all of them rejected in favor of a man who, whatever his merits, has no special knowledge of New York City or interest in it. Our local interests, consequently, have no prospect of being furthered by the outcome of the State election during the current year.

While, however, New York City has little to gain from the issue of the State election, the probabilities are that it will also have very little to lose. Next to legislation at Albany in favor of a larger measure of home rule, the best that can happen to New York City is a political situation which tends to prevent the enactment of any important legislation at all; and this is just the situation which is likely to occur. There can be no doubt that the present leader of the Republican party in the State has made himself very unpopular. One meets Republicans on every side, who propose to vote for Roosevelt, but against the Republican State ticket. The Democrats have done their best to alienate these voters by failing to nominate a man who would appeal to electors of independent mind; but it is doubtful whether they have succeeded wholly in blotting out the advantage, with which they started. At least it seems entirely possible that even if Roosevelt carries the State and the Republicans control the Legislature, the Democratic candidate for Governor will be elected. In that case, of course, the coming session of the Legislature will be a sterile one and nothing of any importance will be accomplished. The matter upon which action is most urgent—the matter viz. of finding some new source of state revenue, which will be sufficient to pay interest on the canal bonds—this matter will necessarily have to be postponed; and such postponement is very desirable, because if the Republicans are free to deal with it as they please, the additional revenue is likely to be raised in a manner displeasing to New York City—such for instance as a tax upon real estate conveyances.

In conclusion, it should be added, that while the administration of Governor Odell has been in some respects deservedly unpopular, he has, on the whole, by the legislation he has caused to be enacted done some good and but very little harm to New Yory City. He has prevented the constitution of such an iniquity as a State Police Department; he has stood consistently behind the movement towards tenement house reform and has prevented the emasculation of the existing tenement house law; and he has left the fiscal system of the State in a much better condition than that in which he found it. We are aware that

there is considerable difference of opinion on this last point, and that even the Republican platform looks towards the repeal of the tax on the surplus of the savings banks. But whatever the faults of Governor Odell's series of tax reform laws from the point of view of a scientific system of taxation, they have at least had the great merit of abolishing the State tax on real estate, and of diminishing by some $4,000,000 the contribution which the real estate owners of New York City paid into the State treasury. At the present time when the Governor is apparently so very unpopular, it is just as well to keep in mind that his enemies in the Republican party have not anything like as good a record on the vital matters mentioned above as has the Governor himself.

CONSIDERING the time of the year, the real estate market is showing unusual and wholesome activity. About 120 transactions are recorded in our news columns against only 59 for the corresponding week last year. A large percentage of the transactions are given up to the usual speculative purchases of tenements and flats; and the speculation in this class of property promises almost to equal the totals which it attained last spring; but the proportion of new buildings being sold is much larger than formerly. The demand for dwellings is also satisfactory, and has the advantage of being distributed over the West as well as over the East Side. Furthermore there are signs of a revival of speculation on a larger scale. Transactions of considerable size both in Broadway and William Street property have been consummated during the week, and they indicate both that the speculative season is beginning early and that reasonable confidence exists that labor troubles are over for the present. It is probable that the large speculators, both individuals and corporations, will be much more conspicuous in their operations during the coming season than during the past season. Not that a return to anything like the activity of 1901-1902 is to be anticipated; but the conditions will favor large operations more than they did in 1903. Money will be plentiful and opportunities will not be lacking. It is very obvious that these opportunities will exist chiefly in residence property on Washington Heights and in the Bronx, and we shall expect to see the big speculators appearing in those fields; but the middle district of Manhattan will not be neglected, although it is by no means certain just what class of property will be favored. We expect, however, to see many new loft buildings erected in the wholesale district south of 23d Street; and we expect that this very fact will intensify the motives which now tempt the fine retail shops which remain south of 23d Street to obtain locations in or near 5th Avenue. There is a constant increasing of carting in that neighborhood, which renders it more than ever unsuitable to the so-called carriage trade. The movement in the 5th Avenue section is likely to spread more and more into the side streets—particularly on those side streets which lie between the Subway and the Avenue.

BOTH the Republican and Democratic State conventions have been so completely dominated by the machines of the two parties, and in each instance the spectacle has been so distressing that it ought to give impetus to a movement in the direction of reforming the present nominating system. The conventions of the two parties are almost always controlled by the professional politicians; and it is only in rare instances that popular preferences have anything to do with the selection. Such must necessarily be the result of the conventional or caucus systems. The only effective method whereby the power of nominating as well as electing candidates can be restored to the people is the method recently adopted in Wisconsin and worthy of imitation elsewhere. According to this system the enrolled members of each party decide by plurality vote the party candidate. The name of any man who is supported by a petition from a sufficient number of electors can be placed upon the ballot and the election is conducted in precisely the same manner as the regular elections. Even the party candidates for United States Senator are to be selected in this way. It will be seen that by this system the party machine would be deprived of much of its present power and that the party voters would have no one but themselves to blame in case they were obliged to put up with undesirable candidates. The result of this Wisconsin experiment will be watched with the utmost interest.

That group of hotels in 27th and 28th sts, so long delayed, is at last well under way. At No. 3-7 East 27th st, running through to 4-8 East 28th st, the structural work is up through 5 stories, though the walls have not been started. Nos. 9-15 East 27th st, extending through to 10-14 East 28th st, is further advanced. The structural work has nearly reached the height of its 12 stories and the front walls of Indiana limestone are in through 2 stories. The building at Nos. 17-19 East 27th st, does not extend to 28th st. The foundations only are under way. Full particulars of this interesting group of buildings were printed in the Record and Guide for March 12, 1904.

Bridge Terminal Case.

PROPERTY OWNERS CLAIM THAT THE COMMISSIONER IS EXCEEDING HIS AUTHORITY.

Further steps were taken this week in the proceedings to acquire title to certain property needed for the proposed new terminal of the Brooklyn Bridge in Manhattan. The property is contained in the four blocks bounded by Centre street on the west, Tryon row on the south, Park row on the east and Duane street on the north and east; and the small block bounded by Centre street on the west, Park street on the south and east and Pearl street on the north; and the small block bounded by Park row on the west, the property of the New York and Brooklyn Bridge on the south and North William street on the east; and also certain parcels of land on the south side of Duane street between City Hall place and Park street, on Centre street between Pearl street and Worth street.

The construction will consist of an extension of the New York and Brooklyn Bridge tracks over Tryon row and over private property, to the southerly side of Worth street; the construction of a large terminal building covering a portion of the westerly end of the present bridge station and extending along the easterly side of Centre street to a point at or near the northerly side of Duane street, the building to be about 140 feet wide. From the northerly end of this building a steel structure will be built to carry four tracks of elevated road to the southerly side of Worth street, with adequate provision for switches at the end of the station. The assessed value of the property required is $3,800,000, and the station and other construction is estimated at $2,500,000.

Application having been made some months ago for an injunction to restrain the City from taken certain parts of this property, the trial of the case began before Justice Giegerich, in special term, on Friday morning. The respondents were Frances J. Storms, Alfred Storms, Alfred Rae Storms, Louis Johnston, Aaron Hanover, Amelia Schmidt and Anna C. Kean, whose attornevs were Johnston & Johnston and David Kean. They alleged that Chapter 712 of the Laws of 1901, under which the City has taken these proceedings, is unconstitutional and void. The true meaning of the statute, if valid, they declared, is that it is the duty of the Commissioner of Bridges to prepare plans and specifications for the improvements thereby authorized, of such a character as to show with reasonable certainty the manner in which it is proposed to carry the improvement into effect, together with its nature and extent, and to indicate a reason, if any exists, why it is necessary to take private property therefor.

No power to take private property is vested by the statute, it was argued, until after plans and specifications of this character shall have been prepared by the Bridge Commissioner and approved by the Board of Estimates, and such have not been prepared, as the only attempt on his part to comply with the statute consisted in a drawing, or plan, transmitted to the Board of Estimates last April, indicating that it was his intention to provide for some sort of a structure containing six railroad tracks in extension of the railroad tracks now upon the New York and Brooklyn Bridge. This plan does not indicate any structure other than such extension of railroad tracks, nor whether the structure indicated thereby is to be under or over or upon the ground level of the property sought to be acquired, and so far as the conclusion of the Commissioner is indicated by this plan, it does not appear that it is necessary, or that he considered it necessary to acquire all of the property sought to be acquired in this proceedings, or to take any greater right or interest in the property than would suffice for the extension and operation thereon of the railroads now upon the Bridge.

The plan does not indicate in any respect the character of the structure which is to be erected, nor, except that it provides for railroad tracks, does it indicate the uses to which the structure is to be put; nor is it possible from an inspection of the plan to ascertain the extent which it involves the taking of the property of these respondents and their easements of light, air and access in the public street adjacent thereto.

The respondents alleged that all action taken by the Board of Estimates pretending to authorize these proceedings were unlawful and void, inasmuch as the commissioner did not present nor the Board approve such plans and specifications as are required by the statute.

Furthermore, the respondents averred, it is unnecessary that the city should acquire this real estate, and the Commissioner never in good faith selected such real estate and determined that the same was necessary for the purpose stated. His intention is to make use of it for a purpose not authorized by the statute. Otherwise it would not be necessary to acquire the fee of such real estate, as an easement alone would suffice. The real purpose for which it is sought to acquire the property is the construction of a street railroad, which cannot be built without the consents in writing of the necessary number of property owners, and these have not been obtained; nor has there been obtained from the Appellate Division of the Supreme Court

such sanction for the construction and operation of a railroad as is required by the constitution of the State of New York.

Frances J. Storms testified that the city owned the premises known as No. 78 Park row, and that she leased them from the city on March 20, 1893, for the term of 21 years from May 1, 1893, and that there is now erected upon the premises a building of great value, and that she owns the lease and leasehold estate subject to certain rights or interests therein vested in Alfred Storms.

Alfred Storms is the owner in fee of No. 76 Park row, and Nos. 8 and 10 Centre street. Alfred Rae Storms has an estate for life in these premises. Louis Johnston has an estate for years in a portion of Nos. 8 and 10 Centre street. Aaron Hanover has an estate for years in No. 12 Centre street, and Amelia Schmidt has an estate for years in No. 6 Centre street. Anna C. Kean owns the lease of the land on the southwest corner of Park row and Chambers street and also owns the building. The last named said the city has never made any offer to purchase her property, and until the city has made an attempt to agree with her for a purchase this proceeding could not be maintained.

At conclusion of the hearing, October 17 was appointed as a day for submitting briefs.

The Palisades a Growing Suburb.

Recent activities on the Palisades draw attention to the real estate possibilities of that sightly stretch of country. The Palisades are one of the seven wonders of the continent, beautiful to behold and amazing in their construction. Geologists tell us that while this part of the earth was still beneath the waters of the ocean these trappean rocks were, in a molten state, pressed through and between the fissures and strata of other rocks in dykes from two to six hundred feet wide, overflowing on top toward the west. On the east side precipices rise straight from the river's edge, but the western side is for the most part a gentle slope covered with rich soil and wooded, and the top is a tableland having a grand outlook and every natural qualification for suburban living. The trouble has been to get there within a New York's business man's limitations.

The Palisades have waited all these generations for rapid transit, which in their peculiar situation steam power was unable to supply; the swift electric street car was the one thing needed, and within the past two years the trolley companies have so extended their lines that every desirable part of the heights is accessible, from "Highwood Park" on the south, which was the scene of the former Eldorado festivals, to Fort Lee, which is opposite our Fort Washington Point. A new ferry plies between West 130th street and Edgewater, whence a new trolley system runs to Fort Lee, Bogota, Englewood, Hackensack, Passaic, and Paterson. The New Jersey and Hudson River Railway Ferry Company is to be credited with a considerable improvement here. One passes from its handsome ferryboats to its electric cars, which slowly but surely climb the Palisades, unfolding a panorama or unexcelled beauty until the summit is attained and the cars turn inland.

On the crest of the mountain the trolley companies have laid out for the public pleasure a large park, named "The Park on the Palisades," from which there is a grand prospect. A little way north a realty company has acquired a tract of twelve hundred acres, sixty of which are now being laid out in streets, and an avenue is being built to the Edgewater ferry. The park-like aspect of the place is being carried into the street plan, in which there are few, if any, square corners. No lot of a less frontage than fifty feet can be purchased, and the lowest price is eighteen hundred dollars. Seven thousand dollars is the smallest sum for a house and site that one can calculate upon, as the intention is to make the place inviting to a select class of people, and the plans are subject to the approval of the company. Half a dozen high class residences are under construction.

South of the public park, and about opposite Grant's Tomb on the Manhattan shore, is Grantwood, which was founded about four years ago, and now has a hundred houses, besides three churches and a school. A considerable acreage was added to this tract this week, the particulars of which are given in another column. The total sales of lots to January 1, 1904, amounted to $485,287, and the total sale of houses, $150,098. The village has six miles of macadamized streets, five miles of sewers, besides water, gas, electricity and a fire department. By way of the Weehawken ferry it is about an hour's ride from New York City Hall. Houses are sold for ten per cent. cash payment, the balance on installments.

At Fort Lee village several building are in course of construction at the present time, and the recent trolley extension has plainly put new life into the whole region. Numerous tracts have been brought up, laid out in city lots and christened with new names; and the older villages on and near Weehawken Heights have also felt a new impulse, as can be judged from the present activity in building operations.

Stack Work in the Public Library.

BIDS OPENED—NATURE AND SCOPE OF THE WORK—MODELS SUBMITTED WITH PROPOSALS.

An important part of the construction of the Public Library, at Fifth avenue and 42d street, will be the stack-work, for which bids were opened by the Park Board on Thursday. The scope and character of the work can be judged from this, that in the main stack room it will consist of furnishing and erecting bases and columns, floor framing, fireproof floor construction and marble floor surface for floor No. 1 immediately above the cellar, all of the structural and finished work to complete the seven tiers of stacks, and the construction and fireproof filling for the main reading-room floor, comprising all floor beams, columns, wall beams, ties, curbs, stack ends and partitions; shelves for all stacks, sliding shelves, stair work from floor No. 1 to the reading-room floor; enclosures for book lifts and for heating and ventilating and for other ducts and pipes, window railing, and marble floor slabs for all stack floors.

The portions of the building in which stacks are to be placed will be delivered to the contractor in the following condition: In the main stack room concrete foundations will be laid in position ready for the reception of the bases. Walls will be of rough brick work, not plastered. Wall brackets of cast-iron will be provided, built in position in the wall, leveled and tapped ready to receive the screw fastenings for the wall framing to be furnished under this contract.

The work is to be manufactured, delivered and set in two sections, the first section to include bases, columns, beams for floor No. 1, columns and floor framing for the stack floors in the main stack room, the floor framing and fireproofing of the reading room and temporary roof, and set and connected in place. The second section of the work will include the manufacture, delivering and erection of all materials in the main stack room not included in the first section, and all of the work in the miscellaneous rooms. The work in the first section must be done as soon as the walls of the stack room are up to the reading-room floor level. The work in the second section will be done after the roofs are completed and plastering and floors finished, when the architects direct.

There will be stacks in the basement and on three floors, besides in the main stack room. Each tier section will have six adjustable shelves, which are to be of the open-bar pattern, made of smoothly finished steel. Spaces between the bars forming these shelves are not to be greater than ⅜-in., and the width of bars 1 in. The top surfaces of the bars are to be slightly rounded, so there will be no sharp corners for the books to rest upon. Three feet long and nine inches wide, the standard measure, each shelf will weigh about 5¼ lbs.

An important requirement from all intending bidders was that each submit with his proposal a model of one complete section of the proposed stack for the main stack room comprising two floors and two complete tiers of standard shelf length and one complete story high. This model shows the framing exactly as specified and as shown on the contract drawings, and it further illustrates the method of constructing the stack standards, shelving and shelf supports, either as indicated on the contract drawings, if bidder bases his bid upon such drawings, or it shows the methods of constructing these portions of the work as proposed by the bidder if his bid is based upon a modification of the contract drawings. The bids were as follows:

Library Bureau, 316 Broadway: Item 1, $952,000; item 2, $1; item 3, $0.60; item 4, $11; item 5, $3; item 6, $3.50; item 7, $10; item 8, $30; item 9, $425; item 10, $800.

Van Dorn Iron Works Co.: Item 1 (a) $797,000; (b) $870,000; (c) $823,000; (d) $832,000; item 2, $1.50; 3, $2; 4, $0.20; 5, $6; 6, $8; 7, $9; 8, $30; 9, $440; 10, $800.

Snead & Co.; Item 1, $889,753; 2, $2.17; 3, $2.10; 4, $0.12; 5. $5.60; 6, $5.60; 7, $12; 8, $26; 9, $450; 10, $840.

J. B. & J. M. Cornell Co., 26th street and Eleventh avenue: Item 1, $870,000; 2, $1; 3, $1; 4, $0.08; 5, $3; 6, $3.35; 7, $8.50; 8, $0.75; 9, $375; 10, $750.

P. J. Carlin & Co., 26 Court street, Brooklyn: Item 1, $712,000; item 2, $1; item 3, $1; item 4, $0.27; item 5, $7.80; item 6, $9.20; item 7, $7.60; item 8, $35; item 9, $340; item 10, $980.

Hecla Iron Works, 118 North 11th street, Brooklyn: Item 1, $737,200; item 2, $1.25; item 3, $1.25; item 4, $0.08½; item 5, $4.50; item 6, $4.50; item 7, $6; item 8, $24; item 9, $275; item 10, $750.

Library Bureau, 316 Broadway: Sec. 2, item 1, $865,000; item 2, $0.95; item 3, $0.55; item 4, $0.11; item 5, $3; item 6, $3.50; item 7, $10; item 8, $30; item 9, $425; item 10, $800. The security required is $100,000. This is the second set of bids for the work, the previous ones, which were received in October of last year, having been rejected, and the plans and specifications have since been revised.

—Constructive operations for the New York Central's improvements, at Marble Hill have commenced. The first work will be to drill and blast a roadbed for car tracks along the north side of the Ship Canal, the contract for which has been given to D. D. Streeter, who has opened an office on the job and set men at work. Briefly stated, the general scheme is to cut out the wide detour around Marble Hill and the head of Spuyten Duyvil creek by changing the course of the railroad, and for this

purpose the company has bought all property interests and water rights along the part of the creek to be shut off. The new cut through Marble Hill will be no wider than enough for two tracks. Near the east end of the canal, where it unites with the Harlem river, there is a complicated concentration of present and projected traffic lines. This occurs at the Broadway crossing where a double-decked swinging bridge is to be constructed by John B. McDonald, high enough to let the Central tracks pass under, and strong enough to carry both the subway and trolley lines, besides the ordinary traffic of Broadway. There will be a station here that is expected to have more than a local importance. The site for it has been changed once or twice, and it may be changed again. Just the nature of the building has not been decided, but the property owners are hoping for a large "union depot" with facilities for transferring passengers from the Central's trains to the Subway. The engineering plans are in charge of A. B. Corthell, whose office is in the Grand Central Palace. Engineer Wadsworth is his assistant on the work.

Gossip of the Week.

The trading this week is again over the hundred mark, there being one hundred and fifteen for the week, for Manhatta and The Bronx, as compared with fifty-nine for the corresponding week last year. Flats and tenements and property in the tenement districts, suitable for improvement with such structures continue to make the great bulk of the trading, and will more than likely do so for the next two months.

OUT OF TOWN.

Post & Reese have sold for Caroline E. Condict her country place at Bernardsville, N. J., with colonial cottage and stable thereon, containing about 10 acres of land, to Robert D. Graham. This property is situated on the highest part of Mine Mount and adjoins the residence property of Senator John F. Dryden. They have leased at Bernardsville, N. J., for the autumn season the cottage of George B. Post on Claremont av, to Arthur C. Train; also for Charles F. Squibb to Schuyler Skaats Wheeler the cottage on the highway from Bernardsville to Far Hills, near Mr. Squibb's own residence.

Another step was taken this week in the enlargement of "Grantwood," the residential park on top of the Palisades opposite the northerly end of Riverside Drive. To the original Grantwood, a tract now improved with scores of residences, there was added last month a tract of about sixty-six acres belonging to Peter Herche lying west of the better-known section. South of the Herche tract, the Grantwood interests have now acquired from the Rusch estate a tract of some eighty-four acres. The tract originally contained ninety-one acres, but seven acres were used for reservoir purposes. The Rusch property lies to the south of the present Grantwood holdings in what is known as Edgewater Heights. Beginning at the trolley line, it runs westerly along Edgewater av about 2,700 feet, to the Dolly Town rd.

—In 1881 an incessantly and heavily traveled bit of street at the entrance to Euston Station, in London, was experimentally paved with India rubber, vulcanized for the purpose. A concrete foundation, finished with cement to make it smooth, was covered with two inches of this preparation, and when ready the wheels of traffic were turned upon it. They continued to roll over it without interruption until May, 1902, a period of 21 years, and in all that time the rubber has not worn through at any spot.

The Labor Situation.

The resignation of President William P. Nason and the secession of the marble cutters from the Building Trades' Alliance, leaves no trade in which work is not going ahead for the Building Trades Employers' Association. While the lockout is still in force against the old unions of plasterers, carpenters, plumbers, tile layers and electrical workers, new unions have been or are being formed in these trades. The Employers report that more electricians are applying than can be put at work, and also that twelve hundred carpenters are now working for them under the arbitration agreement. Plastering work is being done by a union which was organized last year and by some four hundred ornamental plasterers who severed their connection with the plain plasterers this week and have formed a separate union of their own under the arbitration agreement. Large forces of plumbers and tile layers are also working. The union of mosaic workers is expected to return in a body next week, negotiations being in progress at this writing.

In explaining his resignation, ex-President Nason said: "It is not simply because I have been, in a way, disappointed by what has transpired, but because of the possibility (the bare possibility) that there may be somebody else in the Alliance who can do what I seem to have failed to do. There is no doubt that the bosses are in the wrong in this fight."

Charles A. Judge, of the Brotherhood of Carpenters, has been elected to succeed Mr. Nason as president of the Building Trades' Alliance.

The slate and tile roofers, who have made a demand on their employers for an increase of pay, from $4 to $5, have been offered $4.25, the acceptance of which will depend on the result of a general vote of the members of the union.

Regarding the split in the plasterers' union, Louis S. Masoime, president of the new union, says that the plain plasterers in the Amalgamated society, being 4,000 strong, could and did outvote the ornamental men, to their disadvantage. The plain plasterers insisted that the methods of forty years ago should be pursued in castings for ornamental work, making the work more costly and taking up more time.

Building Operations.

Tuberculosis Sanitariums for New Jersey.

George B. Post & Sons, of 33 and 35 East 17th st, New York, are preparing plans and will receive bids at once for a group of buildings for the treatment of tuberculosis diseases, to be erected at Glen Gardner, N. J. No contracts have been let.

High-Class Apartments to Be Completed.

166TH ST.—The two 6-sty high class elevator apartment houses, situated at the southeast corner of 166th st and Amsterdam av, which were started by Walter A. Dick, a builder, some two years ago, who failed to complete the buildings, and which were seized through foreclosure proceedings, by Ferdinand Kurzman, of the firm of Kurzman & Frankenheimer, of 25 Broad st, has resold the property to Ole H. Oleson, a Bronx builder, of 2312 Southern Boulevard, who will complete the houses. The work of erection so far as it has gone, reaches to the roof line, and it has been learned that a new loan of $60,000 has been obtained, necessary to finish the structures. The buildings measure 53x90 and 53x88 feet, and will contain electric elevators, electric light, and every up-to-date improvement. The total value of the premises will exceed, when completed, over $225,000. Thomas Graham, of 45 West 21st st, will be the supervising architect.

Status of Brooklyn's Public Libraries.

The Pacific Branch of the Brooklyn Public Library now requires only finishing touches before its final completion and opening. Other branches in course of erection are the Bedford Branch, on Franklin avenue, opposite Hancock street; the De Kalb Branch, at Bushwick and De Kalb avenues; the Greenpoint Branch, at Leonard and Norman avenues; the Williamsburg Branch, at Rodney, Marcy and Division avenues; the Carroll Park Branch, at Clinton and Union streets; the Flatbush Branch, on Linden avenue, and the South Branch, at 4th avenue and 51st street. This gives a total of eight buildings on which some work is being done. In addition, the library trustees have four more sites on which to erect Carnegie libraries. The Prospect Branch will be on 6th avenue, between 8th and 9th streets. The East Branch is to be at Warwick and Arlington avenues. For both of these plans are being drawn. The other two sites are at Fort Hamilton and at Lewis avenue and Macon street. Title to these has not been secured, and work on plans has not begun. Brooklyn is to have twenty libraries in all, and during the next few years eight additional sites will be secured.

(For Plans filed see pages 643 and 662.)

Temperature—2699 Degrees.

As a Weather Bureau announcement the above would be excessive.

It is a Pretty High Heat anywhere.

Clearly any Material that can Stand it, Resist it, and Come out Safe and Sound from it is entitled to be called a Really Fireproof Material.

Let us give you another fact. Imagine a Furnace emitting this Degree of Heat—sufficient to Melt Steel. Suppose we took the very Heart of the Fire in this furnace and then Enclosed it with a Certain Material,—Would you like to Keep your Hand for very long on the Outside of it? Naturally you would think it was an Exceptional Material that would Permit only THIRTY-FOUR DEGREES of that Molten Heat within to Escape through to your Fingers at the End of nearly an Hour's Duration. You would call that material, would you not?—FIREPROOF.

This is not a Suppositious Case. "Hecla Fireproofing" has actually been Subjected to this Test with the Aforesaid Results.

You Ought to Know all about it. Information can readily be obtained from

Post Office at Rock Hill, South Carolina, in accordance with the drawings and specifications, copies of which may be had of James Knox Taylor, Supervising Architect.

Long Island.

LONG BEACH, L. I.—The Nassau Cottage and Realty Company, of Hempstead, have started to develop a new summer colony at Point Lookout, and it has been named "Nassau-by-the-Sea." Six cottages, situated about 150 feet from the ocean, have been erected, varying in size from one to two-stories. Fifteen hundred feet of frontage is controlled by the company, and more buildings are under way, to be ready by next season. It is also intended to build some business buildings, and a livery stable. The officers of the company are James B. Bolton, president; Rudolph Heilman, vice-president; Charles R. Gauvain, secretary; H. Willard Griffiths, of Hempstead, treasurer, and Benjamin A. Sprague, manager. The members of the company are well-known Brooklyn business men.

ELMHURST.—The authorities at Washington have notified F. De Hass Simonson of Elmhurst that his proposition to erect a building and lease the ground floor for postoffice purposes has been accepted. The new postoffice will be on Broadway, Elmhurst, opposite the Arcanum hall and will afford all the required accommodations for letter carriers. The construction of the building will commence immediately.

CORONA.—Henry S. Johnston, of Elmhurst, proprietor of the Corona Pharmacy at Grand av and Main st, Corona, received notification from the Post Office Department at Washington, that his bid for a new postoffice site has been selected. Besides a floor space of twelve hundred square feet, the bidder included the cost of office furniture in the estimate. Mr. Johnston will begin building operations immediately. The building will be on the ground adjoining the drug store, and will be of brick three stories high. The first floor will be used entirely for the postoffice, the two upper floors to be occupied by families. The agreement with the postal authorities is that the building must be ready for occupancy by January 1, 1905.

Bids will be received up to 2 o'clock on the afternoon of October 1 by Mr. Bernard R. Green, Supervisor of Construction, Washington, D. C.

Of Interest to the Building Trades.

The Arbitration Plan strengthens under trial.

The fall rush is on in commerce and manufacturing.

President Nason's resignation from the Alliance board proves his quality.

A measure beyond a stated promise has never been the death of any business.

The general strike of the building mechanics did not arrive. Who thought it would?

A modern business maxim: Let others have a share in your success. Don't try to hog it.

On the September grand jury, sworn in early in the month by Judge Newburger in Part 1 of General Sessions, are three architects, two builders, and one real estate dealer, among the 23 jurors. The architects are Henry S. Kissam, 156 5th av, Robert Maynicke, 298 5th av, and Henry Blake, 116 West 78th st; the builders are Judson Lawson, 202 West 103d st, and Joseph A. Flynn, 35 Wall st; Fred. A. Booth, of 39 West 10th st, is the real estate dealer.

The Board of Estimate on Sept. 17 authorized the Board of Education to acquire by purchase the property known as the Garretson Farm, in the Borough of Queens, for the use and establishment of a new truant home. It is intended to abandon the present quarters in East New York, which it is said from a sanitary point of view is not a desirable structure, and the transfer of the truants there, as well as some of those in the Manhattan home, to the proposed new Institution in Queens.

On the southeast corner of Park av and 34th st the 71st Regiment Armory is being erected by the Fleischman Realty and Construction Co., of 7 East 72d st, from plans by Clinton & Russell, 35 Nassau st. The fortunate combination of colors in its materials is the most striking feature of the building at present. It is to have a tall slender tower on the corner, but this has not yet begun to rise above the main structure. Two smaller turrets are nearing completion, however. The structural work of the square drill room is about finished and the outer walls are nearing the roof line.

The new Madison Square Presbyterian church, of which Dr. Parkhurst is pastor, is making progress on the northeast corner of 24th st and Madison av, opposite the old structure. The old Catherine Lorillard Wolfe mansion that gave dignity to the site for so long is indeed a thing of the past. The foundations are being completed in the rear, some of the iron columns and beams are in place, and along the front and street side the white marble walls are rising. The building designed by McKim, Mead & White, of 160 Fifth av, is to be in a classic rather than a Gothic style with high columnar porch and impressive dome. C. T. Wills, of 156 Fifth av, is the general contractor.

The structural steel work for the new 16-sty building of the Metropolitan Life Insurance Co. at Nos. 11 to 15 East 24th st, has reached the 8th floor level. The brick side walls are well along, and the front of white marble is up through 3 stories. It is of the same general design as the main building opposite. V. J. Hedden & Sons, 1 Madison av, are the general contractor; N. Le Brun & Sons, 1 Madison av, are the architects. The structure is in the rear of the new Madison Square Presbyterian church, being erected on the corner, and will tower above it. The remainder of the block is still devoted to old brownstone front dwellings.

The Murphy Construction Co have removed their offices to the Transit Building, 5 and 7 E. 42d st. This company, which have been organized less than a year, have been very successful in securing many large contracts. They have done considerable work in Baltimore since the fire and lately secured the general contract to build the new bank building for the Maryland Casualty Company, which is to cost $200,000. Parker & Thomas of Boston, are the architects. They were also the successful bidders for the new normal college of St. Joseph to be built at Pocantico Hills, Westchester county, an illustration of which was

shown in our issue of August 20. John E. Kirby is the architect of the college, and the cost will be $250,000.

Work on the 69th Regiment Armory on the west side of Lexington av, from 25th to 26th sts, is rapidly progressing. Bricklayers, stonesetters and structural iron workers are busily engaged in rushing the work along. The Lexington av front walls are up through two stories; in the rear, however, the walls for the great drill hall have only reached the first floor level. None of the immense arches has yet been started. The material of the exterior is common brick, rather dark in color, and Indiana limestone, in heavy string courses and for window trim. The deep arch over the entrance has just been completed. The James D. Murphy Construction Co., of 1183 Broadway, is erecting the building from plans by Hunt & Hunt, of 28 East 21st st. A complete list of contractors on the structure was printed in the Record & Guide, May 7, 1904.

Hearings Before the Board of Estimate.

Hearings will be given by the Board of Estimate on Friday, September 30, upon the following matters: For a public park in a portion of the block bounded by West 27th and 28th streets and 9th and 10th avenues. To lay out West 164th, West 163d, and West 161st streets from Broadway to Fort Washington avenue. To establish grades of East 222d street from Bronx Park to the Hutchinson river; of 72d street, between 1st and 2d avenues, Manhattan; of East 21st street, between Cortelyou avenue and Dorchester road, Brooklyn. To extend 24th avenue and Gravesend avenue, Brooklyn. To change the grade of Windsor place, from 8th avenue to Prospect Park West, Brooklyn. To lay out an approach to a bridge over the Bronx river at East 222d street. To lay out a public park in the triangle bounded by Pelham avenue, Crotona avenue and Southern Boulevard. To extend Bonner place, in the Bronx. To lay out Granite place, from East 184th street to East 183d street, Bronx. To change the grade of Merriam avenue, between Ogden avenue and West 169th street, Bronx. To lay out West 177th street, from St. Nicholas avenue to Broadway, Manhattan. To widen Tremont avenue across the tracks of the N. Y. & H. R. R., Bronx. To extend Crotona Park at the Southern Boulevard. To lay out a public park in the triangular parcel of land bounded by Highland, Hillside and Flushing avenues, in Jamaica.

Questions and Answers.

HIS SHARE.

To the Editor of THE RECORD AND GUIDE:

A broker leases a piece of property for 20 years or more. Is he entitled to his commission in full of 1% at the time the lease is signed? S. F.

Answer.—Yes, at 1 per cent on gross rental for the full time.

NO SALE.

To the Editor of THE RECORD AND GUIDE:

I have entered into a contract to purchase a piece of property free and clear of all incumbrances. The property is 22x100, with a brick building on it. In getting a survey, I find the adjoining building encroaches 4½ inches on my lot. The adjoining building is a substantial building. Am I justified to refuse to take title and demand my deposit and expenses?

Answer.—Yes.

FORGET IT.

To the Editor of THE RECORD AND GUIDE:

Some three years ago I advertised for sale a plot of real estate as a broker, and was approached by a broker who offered property in exchange, giving me the name of the owner. I personally introducing him to my party as well. The exchange failed to materialize, but now, after the three years interval, I have sold the property to which he called my attention. The query is, shall I notify him that I have made a brokerage, and offer to split, or am I entitled to the full brokerage?

Answer.—We think you are too conscientious.

TERM OF LEASE.

To the Editor of THE RECORD AND GUIDE:

(1) A erects a small building and occupies it as a store; B, who is the owner of the land, allows A rent of same until cost of construction has been cancelled, after which A pays to B rent at regular monthly intervals. B sells property to C, who wishes to build. Can C raise A's rent or dispossess him prior to May 1st?

(2) K, for the past 3 years, has rented and occupied the store of a building that is for sale, business decreases and K desires to change. Is he at liberty to move at any time, without being liable for the rent until May 1st? Or in the event of property being sold, can he be dispossessed prior to May 1st? No lease was ever issued, the landlord having refused to grant one.

Answer.—If in New York City the tenancy in both cases expires on May 1st, 1905, and cannot be terminated by either the landlord or the tenant, without the consent of the other, before that time, nor can the landlord raise the rent before that time. In other places leases run for one year from the time when made, unless another date is fixed at the time of letting. (See laws of 1896, chapter 547, section 202, known as the Real Property Law.)

NEW BRICK BURNING PROCESS.

The new brick burning process invented by Joseph D. Cite, of Fishkill Landing is declared to be a success. Last Saturday at the Aldridge brickyard at Dutchess Junction, Mr. Cite finished burning a kiln of brick by the new process and the squares came out in fine condition. It was the third test and was a crucial one. During wet and windy weather the brick burned. The fires were going somewhat more than three days. Practical brick men who watched the test pronounced it satisfactory.

After being with the Fishkill Landing Machine Co. for many years and making a number of useful patterns and inventions for the Corliss engine, Mr. Cite resigned about three months ago, to devote all his time to a new process of burning brick, which he felt certain was feasible.

By the Cite process the heat is forced into the kiln by means of blowers. Coal can be used as fuel, as well as wood or oil. Coal was used in the experiments. This week a kiln of one million brick is being burned at the Aldridge yard, and tests are being made as to the cost of burning.

The Brick Burning Furnace Co., which was formed to promote the new process, has as its president Joseph D. Cite. Everett Fowler of Haverstraw is vice-president, Aaron E. Aldridge of Fishkill Landing is treasurer, and with John B. Rose of Roseton, these comprise the board of directors.

FOR THE FALL PAINTING.

With fall weather and other favorable conditions prevailing for outside painting, there is an increased use of white lead in oil. A larger sale is expected in October. Labor troubles are disappearing, and building operations are assuming normal conditions. While quotations of some manufacturers of white lead in oil are from 6½ to 7 cents per pound, according to quantity, some brands are obtainable at 6¼ cents and upwards, according to quantity and terms of sale.

Manufacturers of Putty complain that the market is in an unsatisfactory condition, owing to low prices, resulting from keen competition. This is most prominent in commercial bulk Putty, which, it is reported, is being sold at $1 per hundred pounds, and that in some cases this price is slightly shaded. Other manufacturers are quoting it at $1.05 per hundred pounds.

Under date of September 6, 1904, the Glidden Varnish Company, Cleveland, Ohio, issued a circular letter to the trade announcing that on and after October 1, 1904, its terms on Jap-a-lac and all Varnishes to the dealers' and jobbers' trade will be 60 days net, or 2 per cent. discount for cash in 10 days from date of invoice.

Independent crushers of State and Western Oil have taken the initiative and are offering Raw Oil in carload lots at from 39½ to 40 cents per gallon. It is reported that the largest interest is meeting these figures.

Local jobbers in glass have made a discount of 90 and 5 per cent. for the first two brackets, instead of to the first three brackets. For larger sizes the price remains unchanged at 90 and 15 per cent. discount, all from the jobbers list of October 1, 1903. Demand continues light, and improved conditions in this respect are not looked for, to any extent, for the balance of the year.

A HIGH CLASS FINISH.

Redwood persists in coming forward as a substitute for the departing soft white pine for interior and exterior finish.

The New England yard and door people are the largest users of redwood products east of the Missouri river. The redwood door especially is getting into prominence, and is a beautiful door when finished natural, but takes any kind of finish. Dealers say that as an outside covering for buildings it has no equal, will stay in its place for years without even a priming coat and show no deterioration, and will even outlast steel for tanks or water pipe, whether submerged or exposed to the elements. It shows the largest percentage of clear and wide stock of any timber in existence; in fact, clear and select being the only grades shipped to the Middle and Eastern States.

HARDWOOD SUPPLY.

Lewis Doster, secretary of the Hardwood Manufacturers' Association of the United States, with headquarters at Columbus, O., has issued a table of statistics showing the estimated amount of sawed hardwoods reported on sticks July 1, 1904; also a table showing comparatively the actual amount on hand January 1, 1904, and July 1, 1904. Plain white oak is short in quantity; of plain red and quartered white there is a normal supply. Chestnut has been having a big demand, and also ash and basswood. Walnut has been holding its own. Elm has shown a decrease, and has become quite a sought-for wood this year.

In fact, in considering the entire list, the average amount of stocks reported January 1, which is the time of the year when the stocks are at their minimum, against July 1, when the stocks are always at their maximum, the report discloses a comparatively small amount of hardwoods in the hands of the producers, at a time of the year when the customary fall business usually requires the largest stocks. The increase in stock between January 1 and July 1 was but equal to the product of three or four good-sized mills.

Notice to Taxpayers.

Department of Finance, Bureau for the Collection of Taxes, New York, September 1, 1904.

TAXPAYERS WHO DESIRE TO OBTAIN their bills promptly should make immediate written requisition (blanks may be procured in the borough offices), stating their property by Section or Ward, Block and Lot or Map number, making copy of same from their bills of last year.

If a taxpayer is assessed for personal tax, the requisition should also request bill for such tax.

Each requisition should be accompanied by an envelope bearing the proper address of the applicant, AND WITH RETURN POSTAGE PREPAID.

In case of any doubt in regard to Ward, Section, Block or Lot number, taxpayers should take their deeds to the Department of Taxes and Assessments and have their property located on the maps of that Department and forward to the Deputy Receiver of Taxes with the requisition a certified memorandum of their property, which will be furnished by the Department of Taxes and Assessments.

Taxpayers in this manner will receive their bills returned by mail at the earliest possible moment and avoid any delay caused by waiting on lines, as required in case of personal application.

The requisition must be addressed and mailed to the Deputy Receiver of Taxes in whichever borough the property is located, as follows:

JOHN J. McDONOUGH, No. 57 Chambers street, Borough of Manhattan, New York.

JOHN B. UNDERHILL, corner Third and Tremont avenues, Borough of The Bronx, New York.

JACOB S. VAN WYCK, Municipal Building, Borough of Brooklyn, New York.

FREDERICK W. BLECKWENN, corner Jackson avenue and Fifth street, Long Island City, Borough of Queens, New York.

JOHN DE MORGAN, Bay and Sand streets, Stapleton, Staten Island, Borough of Richmond, New York.

After receiving the bills, the taxpayer will see that they are properly rebated, then draw check for the net amount to the order of the Receiver of Taxes and mail bill and check, with an addressed envelope, with the return postage prepaid, to the Deputy Receiver in whichever borough the property is located.

Checks should be mailed as soon as possible after the bills have been received by the taxpayer.

All bids paid during October must be rebated before payment.

DAVID E. AUSTEN,
Receiver of Taxes.

CONVEYANCES

Whenever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st.—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed wherein all the right, title and interest of the grantor is conveyed, omitting all covenants and warranty.

2d.—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d.—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no expressed covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it. The street or avenue numbers given in these lists are, in all cases, taken from the insurance maps when they are not mentioned in the deeds. The numbers, it will occasionally be found, do not correspond with the existing ones, owing to there having been no official designation made of them by the Department of Public Works.

4th.—The first date is the date the deed was drawn. The second date is the date of filing same. When both dates are the same, only one is given.

5th.—The figures in each conveyance, thus, 2:482—10, denote that the property mentioned is in section 2, block 482, lot 10.

6th.—It should also be noted in section and block numbers that the instrument as filed is strictly followed.

7th.—A $20,000—$30,000 indicates the assessed value of the property; the first figures being for the lot only, and the second figures representing both lot and building. Letter P before 2d figure indicates that the property is assessed as in course of construction.

MORTGAGES.

NOTE The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headlines are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

The first date is the date the mortgage was drawn, the second the date of filing; when both dates are the same, only one is given.

Subscribers will find mortgages in this list with the wrong block number attached. The block number we give is taken from the instrument as filed.

Mortgages against Bronx property will be found altogether at the foot of this list.

September 16, 17, 19, 20, 21, 22.
